ASSEMBLY TALKS CLUB PROBLEMS

Program For Civic Leaders Is
Outlined At Session By
Iowa Professor

MONTEVALLO, Ala., June 15—A successful week-end conference devoted to discussion of community organization problems under auspices of the department of sociology at Alabama College, and led by Mrs. Mary Chaffee, professor of sociology at the University of Iowa, came to a close late Saturday, after a series of lectures and round table talks, and personal interviews.

In her first presentation Friday evening, Mrs. Chaffee outlined and sketched the origin and nature of the various types of general problems which confront community organizers and welfare workers. Saturday morning, she brought out what has come to be regarded as the best methods of meeting and solving such problems.

Five Principles

Five principles were laid down by her to guide the community worker: "No community can go further or faster," Mrs. Chaffee stated, "than the majority of the people in it can see and believe."

"No community can go further or faster than the leaders can take them. The leaders can go no further than they are inspired or informed."

"The methods used must incorporate the quality of flexibility."

"There must be a carefully chosen unit of work. This is, usually," she stated, "the county."

Among social workers of the state present at the conference were: Mr. and Mrs. H. F. Hudnall, Birmingham; Mr. Bowman, Birmingham; Miss May McCord, Jasper; Miss Agnes Grimsley, Hayneville; Miss Opan Adams, Asheville; Miss Meda Byrd, Talladega; Miss Allene LeCroy, Rockford; Miss Lois Goodman, Prattville.

Art School And Colony To Open In Alabama

The summer art colonies of Massachusetts have long been famous. Generations of painters have gone for vacation periods to Provincetown and other points until canvasses of the Cape Cod fishing smacks are found the nation over. It is difficult to find any general collection of art that does not show the influence of the New England coast. Other sections of the north have also their art colonies. The lake country of Wisconsin has its habits of art as well as its devotees of fishing. Similarly, the Rockies and the Pacific coast have been

and the older and quaint cities along the south Atlantic seaboard are not unknown in collections. But what of the Southern mountains, those ranges that curve softly upward to where hazy summits kiss the deeper blue of the sky? They have hardly, it is felt, met with their due recognition. Local painters have tried to catch the charm of the southern Appalachians in line and color. Few artists have been drawn from a distance to attempt it. An art school and colony equal to those in the north and east will be developed at River Park, Ala., near Mentone if the dreams of Miss Minna McLeod Beck, director of art at Alabama college, Montevallo, come true. Here, beginning July 15, there will be given a five-week course for teachers, art students and others. Such fundamental principles of art as line, tone and color will be taught in addition to creative composition. Methods of teaching will be taught as well as craft work and applied design. On this plateau down which streams splash and whirl, painters will gather from many places, says Miss Beck, to prove that Alabamians do not need to search afar for their beauty. The school is allied with the Master schools, of which Colonel Milford Howard is the founder. College credit is given. In addition to the five-week course a two-week course is planned for business men and women who have only a two-weeks vacation in which to gain, through creative work, under guidance, a definite training in good taste and discriminating judgment. This course will start August 1. Assisting Miss Beck in the instruction will be Miss Isabel Stewart, a graduate of the Glasgow School of Art in Scotland and now art instructor in the Newark, N. J., high

CHICAGO PIANIST WILL CLOSE TEACHING TERM AT ALABAMA COLLEGE

WALTER SPRY
Mr. Spry, Chicago pianist, is nearing the close of his fifth engagement as guest teacher at the Alabama College at Montevallo and as master teacher for the Summer course for piano students. He gave the last recital program Thursday morning, illustrating such present-day composers as Rachmaninoff, Foote, MacFayden, Beach, Lemont and Ziolkowski. Besides being an accomplished pianist, he has devoted his energies to teaching, with the result that many successful pianists and instructors in various parts of the United States count themselves among his students. He will give a series of lecture recitals in the Fall in Chicago. The first series will take place at the Columbia School of Music in Chicago in October.

Ziolkowski Will Give Special Music Program

MONTEVALLO, ALA., Sept. 24.—(Special.)—At the Alabama College hour over WAFI on Thursday afternoon, Prof. Mieczyslaw Ziolkowski, of the school of music, will be heard in three special numbers. Mr. Ziolkowski is among the celebrated composers of Europe, having recently been awarded first prize by the University of Warsaw, Poland, in a composition competition. He was also selected by the University of Poznan to play his own compositions as a part of the program in celebration of Paderewski's doctorization there in 1925, after which he was invited to the home of Paderewski for special study. Mr. Ziolkowski will be followed by Miss Mary McWilliams, of the history department, who will speak on the historical background of some of our popular sayings. On Friday afternoon, Miss Katherine Farrah, of the voice department, will be presented in a number of popular songs. She will be followed by Miss Mary V. Zielinski, professor of public school music, who will talk on tendencies in public school music education.

DR. TRUMBauer READS AT ALABAMA COLLEGE PROGRAM
Under the direction of Messrs. Spry and Ideler, master teachers in piano and violin in the college Summer school, the student Y. W. C. A. presented an excellent program Sunday evening at the vesper hour, featuring sacred music. Solo numbers were given by Miss Adelaide Fish, contralto, and Miss Mary McConaughy, violinist. A number of ensemble and choral selections were given by the students in that work. The Rev. O. J. Chastain, pastor of the Baptist Church, spoke briefly from a text found in the Proverbs, centering around the theme of humility. Dean T. H. Napier spoke the invocation. A special feature of the program was the reading by Dr. Walter H. Trumbauer, professor of dramatic literature and director of the college theater, of Browning's "King Robert of Sicily," with a musical accompaniment by Miss Polly Gibbs. On Tuesday evening, members of the Summer school dramatics classes presented "The Patsy," a three-act comedy by Barry Connors, in Reynolds Hall. The cast included Misses Bess Rogers, of Marbury; Stella Peoples, of Hamilton; Alma Terry, of Ashford; Mildred Seay, of Brundidge; Janice Calder, of Talladega; Helen Mitchell, of Hamilton; Lillian Granade, of Chatom; and Hazel Jackson, of Deatsville. The play was directed by Miss Ellen-Haven Gould, assisted by Mrs. Bessie Keener.

International Violinist Will Appear At Alabama Woman's College Soon

Walter Spry, Pianist, Will Be
Accompanist In Concert
For Edwin Ideler

MONTEVALLO, Ala., July 6—Edwin Ideler, international violinist, and teacher in the David Mannes School, New York Musical Institute, will appear here at Alabama Woman's College auditorium, Thursday night, July 11, in concert, accompanied by Walter Spry, pianist. Mr. Ideler is on another concert tour of this country.

Critics of leading metropolitan papers are a unit in their praise of this artist's musicianship and a treat is promised music lovers. Frank Warren, writing in The New York Evening World, says "Ideler's playing affords genuine pleasure. His musicianship, sincerity and artistry won his audience. His tone is fine, and his execution neat and finished."

The New York Times, writing of his appearance in a recital at Aeolian Hall, New York City, says: "A young violinist, named Edwin Ideler, who gave a recital in Aeolian Hall yesterday afternoon, set forth some musical talents all too rare among the thousand and one flaunting appeals to eye and ear which crowd the local concert halls. Mr. Ideler played musically, simply and with authority."

"His program consisted of the sonata in E by Arnold Bax, Vieuxtemps' concerto in G, Corelli's A Major sonata, Bach's arioso, the Saint-Saens rondo capriccioso and Kreisler's arrangement of Pugnani's prelude and allegro."

"Forty minutes of uninterrupted wanderings through the tortuous mazes of Arnold Bax brought Mr. Ideler and his audience to familiar ground and Vieuxtemps' concerto was brilliantly executed with a

EDWIN IDELER

sonorous tone of much warmth and power.

"Mr. Ideler's outstanding qualities were a sound musicianship and an unerring taste in publishing what he had to say in the most effective manner. His simplicity of manner, his evident knowledge of what he was about and the clarity of his style brought forth a musical product of considerable excellence. He revealed a fine singing tone, an unaffected style of purity and restraint and all infused with plenty of warmth and emotional content."

College Theater Is Included In Plans For Palmer Hall Under Construction

Dramatic Art Will Be Given Place In Teaching At Montevallo;
Value Of Drama To Student And Faculty Stressed; Abundant
Material Available Is Claim Of Instructor.

MONTEVALLO, ALA., July 20.—(Special)—With the opening of Thomas Waverly Palmer Hall, the new auditorium building scheduled for completion in September, Alabama College will establish a college theater, under the management of Dr. Walter H. Trumbauer, professor of dramatic literature. Dr. Trumbauer has directed a similar work at the University of Iowa. In further, special preparation for this undertaking, as well as the publication of a book devoted to a discussion of the theater, he has recently made a tour of Europe with the study of the theater as an objective. He has also visited the theaters of the larger cities of the United States with the same end in view.

The objectives of the Alabama College theater, according to President Carmichael and Dr. Trumbauer, aside from the value to be derived through its recreational facilities and those for stimulating education and an appreciation of the higher spiritual qualities of the drama and of the theater as art, will be at least two-fold: community service and a testing-house for Alabama playwrights.

State Rich In Material

It is expected that the theater will serve as a college community center for the utilization and enjoyment of college and community assets. Moreover one of the conscious aims will be the encouragement of production based on the use of native material. It is felt by the college administrators and by the management of the theater that the State of Alabama is rich in historical and fictional sources for plays and that the colleges of the state are as much legitimate agencies for the development and utilization of these resources as are the libraries of the state, for instance, for the dissemination of published works and for the development of reading as a means of education and as an art.

The primary purpose of the college theater, Dr. Trumbauer stated, is not therefore, to train for the stage, but rather it is to develop the creative spirit and to present an opportunity for self-expression. He believes, also, that such an experiment should do more than that; that it should develop an audience, a group of specially trained laypeople for whom the theater may fulfill its highest purposes and possibilities. No art, he said, can develop higher than its audience; and it is possible in the theater as nowhere else for members of an audience to experience that "unconscious placement of one's self in the place of another" which Galsworthy claimed to be necessary to bring the spirit of tolerance which makes for the true brotherhood of man. Dr. Trumbauer not only believes that the theater is probably the greatest humanizing and socializing agency yet developed, but also that the art of utilizing to the highest possible degree this agency may be taught, just as well as may be taught the art of utilizing any other educational agency or asset.

Three Productions Prepared

With the above objectives in mind, it is expected that three major productions will be presented during the session of 1929-1930, one during each term. The selection of the productions has not been announced, however.

Members of the college faculty and of the student body will be eligible for parts in the plays, based on the try-out method. In the case of students, however, eligibility will also be maintained on a strictly scholastic standing.

While the mechanics of the college theater will operate, in most instances, similar to those of a commercial theater

Ticket sales and ushering will be handled with as much system and snap as in the commercial theater.

Printed Programs Will Be Issued

In speaking of the mechanical features of the operation of the college theater, Dr. Trumbauer emphasized the place of the program. Each production will be featured through a regular printed theater program, but the program side of the page will be balanced by material on the opposite side, designed to help carry out the underlying objectives of the experiment.

An idea upon which to base a design for a distinctive device or insignia to be used on the programs and the letterhead will be solicited, probably on a competitive basis, open to students, faculty and others, Dr. Trumbauer announced.

The personnel of the theater for the session of 1929-1930 will be; Dr. Trumbauer, director; associate director, Miss Ellen-Haven Gould, of the speech department; assistant director, Miss Helen Osband, of the speech department; student assistant, in charge of scenic work, Miss Mary Graham Gloster, of Birmingham, and a secretarial assistant.

There will be created, eventually, an advisory council the members of which will represent coordinated departments, such as the departments of physical education, music, art, home economics and languages, as well as the departments of speech and English.

Equipment Ample

The equipment now under construction, as a part of Palmer Hall, will consist of a stage with a loft approximately 70 feet high, and a gridiron 67 feet wide and by 33 feet deep. There are to be two dressing rooms, a make-up room, a wardrobe room, and a rehearsal room of 16 by 32 feet dimensions.

The stage will contain an adjustable pit for the console and the orchestra and a covering with steps for Greek plays.

The auditorium room, which will seat more than 1,600 persons will be equipped with a pipe organ and, it is expected, with a radio broadcasting station. Equipment for film projection will also be provided.

All the tragedy of life, he declared, comes through the attempt to satisfy these legitimate, God-given hungers with the wrong kind of food.

Reynolds Hall, which is still being used as the college auditorium until Palmer Hall is finally completed, was crowded for the first service Tuesday.

Prime Facilities For Educating Young Women At Alabama College

Writer Gives Personal Touch On Spirit Of Famous State Institution

By FRANK WILLIS BARNETT

It seems hardly necessary for any one to write up Alabama College after the splendid article by Flora B. Surles which appeared recently in The Birmingham News - Age Herald; and we do it to give a different angle about some of its activities and history, and a more personal touch.

The roots of Alabama College are found in the old Montevallo Male Institute, a private institution for the education of young men. DR. F. W. BARNETT which was established in the Fall of 1851 at Montevallo; the act of incorporation being approved Feb. 10, 1852, naming Edmund King, George D. Shortridge, John S. Storrs, and Daniel E. Watrous, associates and their successors in office, a body corporate by the name and style of "The president and board of trustees of the Montevallo Male Institute."

It is apt to pay a tribute to the faithful men and women who from that day to this have so unselfishly given time and money while serving without pay or profit the Male Institute founded before the War Between the States. We wish we had a list of them, it would be a roll of honor. Few people outside of those who come in close contact with boards of trustees of such institutions have any idea of how jealously they guard the interests of our state institutions.

At the risk of being invidious we will name a few of those who have served in more recent years and of some of those now serving. For years we have been attending the commencements at Alabama College, and somehow one without the late Sol D. Bloch, of Camden, seems almost like the play of Hamlet, with Hamlet left out of the cast. We will never cease to regret that we let pass the urgent invitations he extended us from time to time to run down and be his guest while writing up his home town. The last time we enjoyed his company was when we shared the same room in the old Storr's residence during commencement. His memory lives in Bloch Hall, M. V. Joseph, whose recent death was such a loss to Birmingham and Alabama always was proud he was on the board.

William H. Tayloe, of Uniontown, is the "beloved" of the living trustees. His coming is always a joy to the student body as well as the faculty. Somehow it appears to us that Alto V. Lee, of Gadsden, is the faithful member when it comes to arriving early and remaining until the close. James B. Ellis, of Gadsden, chairman of the executive board, has done fine work, for he knows how to "execute." His friends throughout the state will rejoice to know that his health is greatly improved.

There is one man, who represents the state at large, who never votes on any motion until he has the facts, and he is L. Sevier. John T. Cochran

is a far-seeing young business man of Mobile who gives wise judgments when big things are before the board, as does W. D. Graves, of Alexander City. J. E. Delony brings the conservatism of the Tennessee Valley. He lives at Tusculum.

Lawyers On Board

We now come to a pair of lawyers, J. D. McQueen, of Tuscaloosa, and Fred Fite, of Birmingham, Trustee McQueen knows educational needs, for he lives in the shadow of the University of Alabama; while Fred Fite is a mighty handy man to have in the Legislature. There is a trinity of charming women on the board, the Three Graces, who give just that feminine touch and viewpoint so badly needed in a college for women. Mrs. W. B. Peebles is from Aliceville; Mrs. J. B. Brevard Jones, from Montgomery, and Mrs. A. Y. Malone, from Dothan. The welfare of the college is well looked after by the men and women who make up the present board. (Of course, Bibb Graves, governor of Alabama, is president ex-officio, of the board; while R. E. Tidwell, state superintendent of education, is also ex-officio member.)

The acid test, of an institution usually is to be found in its executive committee. Alabama College is fortunate in having James B. Ellis, R. E. Tidwell, W. D. Graves, and O. C. Carmichael as its "Big Four." There are three others who deserve mention, C. L. Merony, secretary; E. S. Lyman, treasurer, and John R. Pili, land agent.

The officers of administration are: President, O. C. Carmichael, A. M., B. Sc., (Oxon) LL.D.; T. H. Napier, A. M., Ph. D., is the dean; E. H. Wills, B. S., A. M., registrar and business manager; Patience Haggard, A. B., B. S., A. M., dean of women; H. W. James, B. S., Ph. D., director of the school of education; C. B. Richmond, director of the school of music; Willena A. Peck, M. D., resident physician, and Fanny Taber, librarian. The officers of administration are surrounded by a brilliant and faithful faculty.

Charming Social Director

While not members of the faculty there are a few outstanding officers well worthy of mention. No one who has ever visited Alabama College in recent years has failed to fall under the charm of Mrs. Nora Reynolds, social director, and Mrs. Louise C. Coleman, the lovely and obliging matron is a social asset. All who have known the college for the past decade will recall Mrs. Susie R. Heatfield, who resigned in December, 1928. Mrs. James M. Wallace has also endeared herself as one of the matrons.

We do not know what the students as well as the visitors would do without the patience and care of Mrs. Mary F. Harris, house director, and of Miss Anna Irving, the best food supervisor we know anything about. If you question this, just keep tab on the way and what she places on the table three times a day. We heard much about "a balanced ration." Well, she is a great "balancer."

Charles H. Mahaffey, manager of the laundry, has a difficult job which he handles well. W. J. Bailey, manager of the dairy and the farm, is one of the best farmers in the state, and one of the things we always enjoy in the growing season is to watch his crops. Last Summer his corn field was a record-breaker for beauty, and in the Fall it was a record-breaker in yield. The hogs are profitable, and the dairy is a top-notch when it comes to production. The new dairy barn is well located and is the best

thing in dairy construction. Director Bailey is a sure enough dirt farmer.

Alabama College owns several hundred acres of fine farming land, and its pasture is excellent. There is one man always in evidence in time of trouble, and he is the accommodating W. M. Jones-Williams, the electrician. He is the man who sees to it that the basketball courts are in shape for the annual games, and in fact, he is the "trouble fixer," for the institution. There are other faithful officers filling well their places among the college workers, but we cannot mention them all. We close with just a word about Flora Belle Surles, the publicity secretary. It is this: She gets it.

Hive Of Industry

It is hard to realize unless one has close contact just what a hive of industry a college is. Take for example, the faculty committees on admission, alumnae, athletics, chapel programs, college exhibits, college publications, council of women, fire protection, instruction, lecture and recital programs, library schedule, scholarships, social, student government advisory board, student organizations, student publications, student welfare and Y. W. C. A. There are more than 100 names listed on these committees, some of them, however, serving on more than one.

It not only takes administrators, trustees, executive committees, college committees, faculty and heads of various allied departments to run a modern college, but when several thousand students foregather, it is obligatory that proper care be given to their health, and so Alabama College maintains a modern, well-equipped hospital, Peterson Hall, with a capacity of 36 beds. A full-time physician, Dr. Willena A. Peck, and two nurses live in the hospital. Dr. Peck, so to speak, has the Chinese system, as she is proud of the fact that she keeps her girls well and there aren't as many patients as there would be in the hospital if she were trying to compile statistics showing how many had been cared for in it each term.

We are quite familiar with the hospital, for when the home of President Palmer was burned he and Mrs. Palmer occupied a suite of rooms in Peterson Hall, and we were frequently their guest. So when at the Writers Conclave held in June, we were assigned to the "infirmary," we felt perfectly at home, in spite of the fact that it gave us a twinge to have it known publicly on such an occasion that we were "infirm." As younger men were sent to keep us company, we bore up under it. This in the way of a joke, for happy is the guest who gets a chance to make Peterson Hall his headquarters.

Quarters For 1,000

When about 1,000 students have to find sleeping and boarding accommodations, it takes roomy dormitories and much dining room space. The main dormitory is one of the largest we have ever seen. It is a large imposing brick building comprising three separated units. There is an elevator and the two fire escapes are the joy of the children of the town and of all visiting children. It beats anything at East Lake Park for amusement of the venturesome lads and lassies, being a circular tower down which one can shoot at a rapid speed.

We were told that on a visit, during his term of office, Gov. Thomas E. Kilby, catching the spirit of his boyhood, went aloft and came whirling

down the shaft and tore his trousers. It may be untrue, but true or false, the story will go on. We heard someone connected with the college say she was saving up her money so that she could erect a fire escape for the boys and girls of Montevallo so that they wouldn't need to come to the college for their "rides."

It was a fine thing for an old bachelor like Erskine Ramsay to want to make the living conditions of some 120 girls more comfortable at Alabama College by erecting a dormitory to be named the Janet Erskine Ramsay Hall, in memory of his mother. It cost more than \$100,000, and has 66 rooms with all the modern conveniences. It was opened for the 1925-26 session. The newest dormitory was only recently opened. It is larger than Ramsay Hall, having 96 rooms and caring for nearly 200 girls. It is thoroughly modern, being a fire-proof structure, well appointed in every way and equipped with Windsor pattern all-steel furniture. It is named the Weenona Hanson Hall, in honor of Mrs. Victor H. Hanson. Mr. Hanson, besides giving \$2,000 in scholarships at Alabama College, also contributed a substantial sum towards its erection.

Waverly Hall Being Built

Reynolds Hall at present contains the auditorium, gymnasium, part of the academic class rooms, the supply store and college postoffice. As soon, however, as the handsome Thomas Waverly Hall, now under construction, is completed, other use will be made of Reynolds Hall, erected in 1851. It will contain administrative offices, and an auditorium seating 1,500 people, and there will be a full-size theater stage.

There is a dormitory of wood, just a one-story structure, on the campus, whose name we do not know, but to us it represents much, as it was built, so we understand, by citizens of Montevallo through the efforts of the Exchange Club as an emergency dormitory, after the World War. It will be razed, but while it stands it shows the love of Montevallo for Alabama College.

Nabors Hall, an historic building on the campus, erected in 1818, is temporarily used as a practice home for the department of home economics. The Stoors' residence, located on the southeast corner of the campus, was used as a home for teachers, but is now occupied by students.

The old home for the president of the institution, at the time of its destruction, was occupied by President Palmer, who had the misfortune to lose many valuable documents and books. It is located on a high spot to the rear of the college buildings. It is well adapted to entertaining and since its completion in 1925, has been the scene of many an enjoyable entertainments, the Palmers and the Carmichaels being noted for their hospitality.

Bloch Hall was completed, equipped, and used for the first time during the session of 1915-16. Sol D. Bloch was author of the bill establishing the college, and served as a trustee until his death in 1919. It houses the department of home economics and cares for art, and many receptions given in it from time to time are remembered by those who were fortunate enough to have a part in them. We recall that during the World War, on a visit to Montevallo with the late Mrs. Mathis, who did so much to arouse the people of the state to raise more food products, we were entertained by a group in the practice dining room. It was a

lovely lunch, beautifully served and at a small cost, everything being figured out to the cent. We are willing to be practiced on at any time for a good cause.

The biology and technology departments are in Bloch Hall, as well as the chemistry and physics laboratory.

Calkins Hall For Music

Calkins Hall, completed in 1917, is really an artistic building in a lovely setting. It is dedicated to music. It has music classrooms, studios, and an exquisite recital hall. It is named in memory of Charles Rendell Calkins, director of music, 1913-1920. Many delightful groups have held their session in the hall. It was the meeting place of the Alabama Conclave of Writers for years until it outgrew the recitation hall and had to move to one in the basement of Ramsay Hall.

Alabama College has every right to be proud of its library building, which is truly a triumph of art and convenience. Its reading room is 90 by 40 feet and well lighted. The stacks, children's room, work room, offices and conference rooms make it a veritable library work shop. It has more than 13,000 volumes, well selected, along with many pamphlets and periodicals, classified by the Dewey decimal system. About \$3,000 a year is spent on books. Miss Fanny Taber is not only a capable librarian but a delightful hostess, and her teas and programs are always a joy to those who attend.

Later we will have more to say (another story) of the handsome high school training school building, the elementary school training building, etc. We expect to give Montevallo a write-up.

The WAPI broadcasting station expects to have a remote control station at Alabama College in the new auditorium building, thereby enabling programs to be put on from the college campus. There is a supply store, a gymnasium, tennis and basketball courts, and an athletic field. The new country club house is in a most picturesque setting on college property, about a mile from the main building. It is on the brow of a wooded slope overlooking the natural amphitheater where outdoor plays are held in season. It contains a large living room with open fireplace, dining room, kitchen, shower baths, and 2,650 feet of screened porch. It was built by the college carpenter, W. N. Robinson. The completed plan calls for an athletic field, with golf, tennis and swimming facilities. The recreation room is on the second floor of the main building.

Has Good Water Supply

The college has an adequate water supply for drinking and sanitary purposes and fire prevention. The ivy-covered reservoir is one of the features of the campus. It can be seen from far and wide, and was the delight of Dr. Palmer. Within the buildings chemical fire extinguishers are placed, with an ample supply of fire hose. Outside the building are nine fire plugs. There are two hose carts, each containing 500 feet of hose. Two fire drills are held each month. There are 14 exits in the main building, and the two cylindrical "Kirker-Bender" fire escapes already mentioned.

Having called attention to administration, buildings, health, etc., we now wish to say that Montevallo is one of the oldest settled sections of the state and is nearly the exact geographical center of Alabama. The

college has a beautiful setting and we never tire of watching the beauty of the valleys and the hills. It is one of the most restful views in the state. It has not that level exquisiteness of the campus of the University of Alabama, yet from the standpoint of landscape effect, it offers greater opportunities, and we are glad to know a nationally known firm of landscape architects has worked out plans, which, when put into effect, will be a revelation even to those who revel in its present loveliness.

We cannot go into the courses offered at Montevallo. We can only say that Alabama College (The State College for Women) is a member of the Association of Alabama Colleges, the Association of Colleges and Secondary Schools of the Southern States, and the Association of American Colleges. In other words its graduates can enter any university without examination. It is a standard college, granting A. B., B. S., and Mus. B. degrees.

Rich In Scholarships

It is rich in scholarships. Beginning with The Birmingham News scholarships, we come next to the Weenona Hanson musical scholarship, established by Mrs. Victor H. Hanson, through the Alabama Federation of Music Clubs; Margaret Isbell Hardie scholarship, United Daughters of Confederacy scholarships, Lizzie Crenshaw memorial scholarship, Stonewall Chapter scholarship, the Lindy Heflin Unit scholarship, the Music Federation scholarship, the Woodward Iron Company scholarship and the Alabama contest scholarship.

Then there are the loans, like the alumnae scholarship, the Myrtle Brooke scholarship, the College Club scholarship, the Charles Rendell Calkins scholarship, the Chattahoochee Collegians Club scholarship, the Federation of Women's Clubs scholarship (two of them), the Hortense A. Battre loan scholarship, the New Castle Coal Company scholarship, the Opportunity scholarship fund (its purpose is not to offer charity but opportunity), the Alta Patterson Memorial scholarship, and the School of Education scholarships (six teaching scholarships). Alabama College while having these scholarships and loans is making appeal for still other loans and scholarships for worthy girls. Employment is also offered to about 40 pupils in dormitory and dining room service, and those who have taken meals in the dormitory as well as those who have had their rooms cared for are loud in their praise of the service rendered by student workers. Some of the finest girls at Alabama College are among those who serve.

Two Teaching Scholarships

We will not go into the matter of college entrances or college standards or the expense, but will simply say that every consideration is shown the students compatible with maintaining the requirements and preserving discipline. We pass over the many courses offered, and only mention that the training school for social workers is now functioning, and meets a long-felt want in our educational system.

We did not mention that two teaching scholarships are granted by the School of Education as we wished to point out it also conducts a Teacher Placement Bureau which places students or former students free of charge. Much could be said of the

extension division and its many services to communities in home study courses, study center courses, lectures, recitals and concerts and the bureau of educational information through the issuance of bulletins, etc.

When it comes to student activities, Alabama College is organized and systematized. The Alabamian is the by-weekly publication. The Alpha Pi Omega Club has for its purpose welfare work. The Alumnae Association organized in May, 1902, is actively at work. The art club functions through the Sigma Alpha Chi Club. The Calkins Music Study Club is the medium of stimulating interest and appreciation of music and musicians. The Castalian Club's object is to enrich college friendships, and strengthen loyalty to the Alma Mater. The Dramatic Club covers a wide range and offers an outlet for those gifted in expression. The Glee Club is made up of those who are willing to use their voices to delight those who come to the college on special occasions.

The Home Economics Club is one of the practical organizations to make homes brighter and better. The Kappa Sigma Phi Club is to develop the social qualities of its members. It seeks to use worthily what leisure may come between studies. The Mathematics Club is the vehicle for those fond of mathematics. The Phi Delta Sigma Club takes its joy in discussing important phases of social life. The Philomathic Club was established for the purpose of the literary and social development of its members. The Ramsay Club endeavors to promote better and more democratic social life, to strengthen the bonds of college friendships, and to make wise use of leisure.

Scribblers Club

The Scribblers Club is to foster literary talent, through study and companionship. The Secretarial Club seeks to promote business efficiency and intellectual development. The Social Service Club hopes to arouse and foster interest in the art of helping people and render better social service. The Julia Strudwick Tutwiler Club, established 1901, federated 1923, holds a scholarship of \$115.00, which is lent to one member each year to be repaid the following year. The Zeta Pi Delta Club, is a member of the State Federation of Women's Clubs. It tries to instill into its members the value of self-government, as well as to enrich the social life while developing the literary attainments of its members.

The Y. W. C. A. is doing a wonderful work in stimulating the spiritual growth of its members. Since 1907, the Technala has been published annually by the students of the college. The Athletic Association seeks to interest every student in some phase of out-door recreation. Besides the regular games there is hiking and a fine swimming pool. The A. C. Club is a branch of the Athletic Association and is open to the students making the required number of points in the various athletic activities. Each student becomes a member of the Student Government Association, after having passed examination on the student hand book. A group entitled the "Student Senate," was called into being by the Executive Board in March 1925. Its object is to divide responsibilities and to give a larger number a responsible part in student government.

Spirit Of Alabama College

We have set out some of the vital

things which pertain to administration, to curriculum, to housing, to grounds, to health, to student activities and government etc., but it is hard to give in words the spirit of Alabama College, for it has an atmosphere all its own, and we confess that we are very susceptible to it. It has charm and personality and flows out of faculty and student body, and in fact the town itself gives it out.

Here is wishing Dr. and Mrs. Carmichael bon voyage as they turn their backs for a while on Alabama College to find recreation in Europe. Dr. Carmichael goes to be at the twenty-fifth reunion of the Rhodes Scholars at Oxford and to the dedication of Rhodes Hall. He has wrought wonders at Alabama College and the best is yet to come. Mrs. Carmichael is not only a helpmeet in the old sense of the word, but through her winsome personality and musical gifts is one of the finest sources of culture at Montevallo.

Dr. Napier, the dean of the college is amply able to take care of the situation in the absence of the president. He has already made a large place for himself at Alabama College among the student body and has the confidence of parents as a safe and sane educator. Dean Patience Haggard, is comparatively a newcomer yet by her modesty which is only excelled by her genuine scholarship she has impressed her personality and mentality upon the college she adorns so gracefully.

We love the Carmichaels, and yet it seemed like old times to find Mrs. Palmer walking about the campus or strolling through the buildings. May time deal gently with this gentlewoman who was a loyal wife to our beloved friend Thomas Waverly Palmer of blessed memory.

CARMICHAEL EN ROUTE FOR RHODES REUNION

Alabama College President Reviews List Of Oxford Scholars Appointed Here

BY DR. O. C. CARMICHAEL
President Alabama College

ON BOARD THE S. S. EMPRESS OF SCOTLAND—When the 25,000-ton Canadian Pacific liner steamed out of Quebec Harbor among its thousand or more passengers was a unique group of men and their families—American and Canadian Rhodes scholars, their wives, and in a few cases their children, to the number of 150. These men are scattered over all the years from 1904 to 1928, the years of the existence of the scholarships. From 25 to 50 years of age, they represent most of the states of the union and the provinces of Canada—and in addition to this party as many more from the states will be added to the group at Oxford.

The occasion of this large gathering of returning Rhodes men is their first reunion since the foundation of the system 25 years ago, and also the dedication of the new alumni house called Rhodes House, completed within the last year by the trustees. From Australia, Tasmania, New Zealand, South Africa and perhaps from Germany where before the war the kaiser appointed scholars, will be still more Rhodesters added to the group. Ex-Prime Minister Baldwin will preside and the Prince of Wales will be chief guest, so we are told, at the chief event, the "opening" of Rhodes House.

Open Rhodes House

This will take place July 5 which is the birthday of Cecil Rhodes, founder of the scholarship system. As one mingles with this large group of men who have one common tie—the sharing together of the funds and ideals of Rhodes—one is inevitably caused to reflect on the man himself. Born 76 years ago, a member of a large family, and without means himself, greatly handicapped by ill health, Rhodes in a few short years, became a multi-millionaire, a great dreamer and philanthropist. He lived through the Boer War in South Africa and knew what war meant. He was impressed with the fact that the world's greatest need was the elimination of war, the establishment of permanent peace. He pondered the problem long hours as he tramped over and camped out upon the veldt in South Africa. He believed in the strength of the Anglo-Saxon race and its great importance to the welfare of civilization. He believed if world peace were ever to come, it would come through the efforts of the Anglo-Saxon. Then as he wondered through the wilds of Africa his thoughts turned to carefree college days and the friendships formed. If the Anglo-Saxons were to work together to bring about peace and maintain it, they must know and appreciate each other. How could it be done better than by association together in college days. So the plan was conceived. His vast fortune would be devoted, after his death, to the furthering of his great ideal. His will was drawn. It was made public in 1902 after his premature death. It provided for an international system of scholarships for young men from all Anglo-Saxon countries to the old University of Oxford which was his alma mater. The United States, Canada, New Zealand, Australia, Tasmania, South Africa and Germany. In 1914 the German scholarships were discontinued by act of Parliament, after 10 years of appointments had been made. On and on the system will continue for only the income from the vast fortune of \$12,000,000 is used to maintain the scholarships, each of which now yields \$2,000 per annum or, to be exact, 400 pounds. More than 150 young men are in residence at Oxford each year on these scholarships. What will be their effect? Certainly 25 years is too short a time to judge either the system or the man selected. What would Rhodes think of his plan now if he were to survey it with our perspective of 20 years. How would he be impressed if he were to find himself

among the party traveling on the Empress of Scotland. This question has doubtless been asked silently by each Rhodes man as he has thought over his own career since leaving Oxford, and as he mingled with other members of the group.

America Doubtful

In America generally there has been some skepticism on this point. The successes of those returned have in many cases left much to be desired, and of course, having had special opportunity the returned scholar was marked and more than usually carefully watched. A few conspicuous failures were heralded, while the successes were less generally known of, hence the conclusion on the part of some that the Rhodes scholarships had failed in fulfilling the high aims of the founder, who wanted leaders selected who could go back to the state or section and take an outstanding part in the affairs of the state and nation.

As a result of this criticism, Dr. Frank Aydelotte, the American secretary of the Rhodes trust, made a study of American Rhodes scholars a few years ago, with some interesting results. For instance, at the time the study was made there had been some 550 returned scholars, who averaged 34 years of age. Of this number, 10 per cent were listed in "Who's Who" in America. This listing, of course, does not mean outstanding success necessarily, but the percentage is so much higher than for the average American college graduate, that one is encouraged to believe that Rhodes men are living up to what might reasonably be expected.

As one mingles with the group on the Empress of Scotland, talks with them, he is impressed that it is a group who are doing things, and who will be heard from yet in the affairs of the states and nations. Education and law claim the greater number of the group, though business, finance, industry, ministry and politics also claim their share. In the group are Frank Aydelotte, president of Swarthmore College; Col. Frank Day, recently elected president of Union College; Dr. W. C. Davidson, the new dean of the medical school of Duke University; Dr. Lytle, pastor of an important church in New York City; J. R. Paul, a leading automobile dealer, and live worker of Charleston, S. C.; A. B. Doe, lawyer, of Milwaukee; V. K. Butler, Jr., lawyer and banker of San Francisco; F. F. Russell and a dozen more lawyers from New York City.

Only Alabamian

The writer happens to be the only member from Alabama, though other Alabama men will be present in Oxford. B. H. Branscombe, son of Rev. L. C. Branscombe, preceded the party by a few days. At least two of the Alabama's 16 Rhodes men will be present at the reunion. Doubtless the readers of your paper would like to know something of that group. As a matter of interest to the readers the following will give a brief sketch of the men who have represented Alabama at Oxford and what they have done since.

Up to date there have been 16 Alabama Rhodes scholars, beginning with the appointment of J. H. Kirkpatrick, now of New York City, but formerly of Montgomery, who took up his residence at Oxford in 1904, ending with Lucian Giddens, Birmingham, who entered Oxford in 1928 and is now a student there.

In the year 1905 there was no one to enter Oxford from Alabama, though it was the year in which one might have been selected. No one made application in that year. Except for 1905, however, there has been an appointment, two out of three years, from 1904 to 1928. There are two men from each of the 48 states in residence at Oxford continuously.

With this preliminary statement about the scholarships in general,

their founder, their value, and their scope, I shall now attempt to give you briefly some facts concerning those 16 men who have represented Alabama at the great English University.

James Kirkpatrick

James H. Kirkpatrick, son of Mrs. Callie Haltzclaw Kirkpatrick, who was so well known throughout Alabama, was the first Rhodes scholar appointee. He left Oxford in June, 1907, studied law at the University of Alabama, completing his course in 1909, and entered immediately upon the profession in Mobile. After practicing law for several years in Mobile, working for four years with Gregory L. and H. T. Smith, and then in partnership with Col. Francis J. Inge, afterwards with Hon. Joseph N. McAleer, referee in bankruptcy, he went to New York in 1917. Since that time he has been connected with the firm of Noble, Morgan & Scammell, 115 Broadway, New York. In July, 1919, he married Miss Lilla Worthington, daughter of Thomas Worthington, Birmingham. They have now two children, James Holtzclaw, Jr., and Thomas Worthington, age 8 and 5, respectively.

The second Alabama Rhodes scholar was Addison White, who took up his work in 1907 and completed it in 1910. Immediately thereafter he went to the University of Alabama taking his law degree in 1911. From there he went to Montgomery where he practiced law for two years. He returned to his native town—Huntsville—in 1917 where he has been engaged in the practice of law ever since. He was in the Field Artillery Officers Training School at Camp Zachary Taylor, Louisville, Ky., in 1918. He writes that he has held no public office except that of city attorney and county solicitor. In December, 1927, he was married to Miss Carolyn Webb, Bell Buckle, Tenn., a great niece of the late W. R. Webb. They have one child of 8 months.

No definite information has been received from J. J. Rodgers, of Tuskegee, Ala., who received his appointment in 1908. It is understood however, that he is engaged in the insurance business in that city.

C. E. Crosland

The appointee in 1910 was Mr. C. E. Crosland, who has had a varied educational career since returning to Alabama in the Summer of 1913. He spent one year with Dr. H. J. Wilkingsham at the State Normal School. For some time after that he was in Virginia and in Tennessee, where he was associate president of Ward-Belmont College, Nashville. Later he was superintendent of the Columbia Military Academy. For the past few years he has been superintendent of the schools of the Lake Wales district, Florida—that district made famous by the Bok Tower. He married Miss Ida Holley, of Abbeville, Ala., a graduate of Judson College. They now have a daughter and two sons, aged 3, 10 and 12.

The Rhodes scholar of 1911 was for some years engaged in the consular service in South America. The last available address was Jacksonville, Fla.

The writer—O. C. Carmichael—was selected in 1913. After returning from Oxford in 1917, he entered the army, returning to Alabama in 1919. For three years he was connected with the city schools of Birmingham, first in the Central High

School, then principal of Henley School, and later principal of Woodlawn High School. In 1922 he was appointed dean and assistant to the president of Alabama College, in which capacity he served until the death of President T. W. Palmer in 1916. In February, 1926 he was elected president of Alabama College, where he has been serving since that time. He married Ruth Mae Crabtree, Atlanta, Ga., and has two sons, aged 9 and 6.

Harvie Branscomb was the appointee for 1914. After making a brilliant record at Oxford, he returned to the states and when the war came on he served in the Army Y. M. C. A. while waiting for an appointment to the air service. When he failed to secure this appointment he entered the infantry and served as a buck private, according to his own statement, until the close of hostilities.

Following the armistice he went to Southern Methodist University, in Dallas, Tex., where he taught in the department of philosophy and New Testament literature. Following that he was chosen professor of New Testament literature in the graduate school of religion at Duke University, Durham, N. C., where he is now located.

He has written two books, "The Message of Jesus" and a scholarly work on "Jesus And the Law of Moses," which will be published in the Autumn of 1929. He was married to Miss Margaret Vaughan, Greenville, Texas, and now has three small boys.

Only Scholar Dead

Wyatt Rushton, son of Ray Rushton, Montgomery, is the only one of the 16 Rhodes Scholar appointees not now living. He died near the close of the war and his death was a great loss to Alabama. The speaker knew him at Oxford and knew in what esteem he was held by everyone.

C. J. Durr, appointee in 1918, is now a member of the firm of Martin, Thompson, Turner & McWhorter. He practiced law for a time in Montgomery, later in Wisconsin and joined the firm above mentioned in February, 1925, where he has been engaged ever since. He is a member of the Junior Chamber of Commerce, the Birmingham Redstone Club, and is a member of the board of directors of the Birmingham Little Theater. He married Miss Virginia Foster, the daughter of Dr. Sterling Foster, in April, 1926. They have one child, Anne Patterson, aged 2 years.

Charles W. Williams, appointed in 1919, is now professor of economics in the University of Louisville, Louisville, Ky. After returning in 1923 he took the position of assistant managing editor of The Southern Banker, Atlanta. In 1924 he received a fellowship of the American-Scandinavian Foundation for graduate study at the University of Stockholm, Sweden, where he studied under Gustav Cassel. He was called home on account of the illness and death of his mother and was unable to complete his work there.

James Saxon Childers

James S. Childers, appointed in 1921, is well known throughout Alabama and the South through his column in The Birmingham News called "By The Way," as well as through the splendid stories which he has been sending back to The Birmingham News from various parts of the Orient, where he has been traveling this year. In addition to the newspaper and magazine writing, he is the author of two books since his return from Oxford, one called "Laurel and Straw," the other "Hill Top in the Rain." His success already in the field of literature is marked. For the future I predict a great literary career.

Earl McGowin, Chapman, Ala., was elected in 1922. According to his original plan before going to Oxford, he returned to Chapman to engage in the business of lumber manufacture with his father. He is an officer in the largest lumber concern in Alabama and is active in the management of that company. He writes enthusiastically about the value of Oxford to the man in business. He

Early Arrival Of The Empress Of Scotland Allows Students To Enjoy Sights

BY DR. O. C. CARMICHAEL
President Alabama College

The Empress of Scotland arrived one week prior to the time scheduled for the opening of Rhodes House at Oxford, and so the ex-Rhodes scholars aboard scattered to the four corners of Europe as was their custom during vacations when students at Oxford. Some went to France, Belgium, Germany, others to England, Scotland and Wales. Mrs. Carmichael and I stopped in London—my first visit to London since student days 12 years ago.

For a week we have tramped over the familiar places again, to Westminster, St. Paul's, the art galleries, the British Museum, the tower, Madame Tussauds. These places are of course much the same as they have been for the past century or so—still London is different in many ways. There is much talk of unemployment and yet I am certain that I have never seen as much building going on in the old metropolis. Numerous gigantic business structures are being erected, new hotels being built, and old ones enlarged. The University of London has just purchased a new site with the help of the Rockefeller Foundation, just off Russell Square, where they propose to lay out a complete new plant. Extensive repairs are being made on Westminster and St. Paul's. On St. Paul's they are spending a half million pounds to improve the inside, while the exterior remains the same as when St. Christopher Wren left it. So London is growing and changing. This is my first impression after a 12-year absence.

Another fact is impressive. Despite the talk about English feeling towards America as the result of the debt settlement, which by the way seems to me exaggerated, there is clear evidence of American influence all over London. For one thing the papers report that there are more Americans in London than have been known at any time. That means, of course, that not only are Americans in evidence, but American articles are on display—things that Americans buy. Not only are the hotels overflowing with Americans, the show windows displaying American goods, but the theaters are running American plays—"This Thing Called Love," running at the Apollo Theater has a New York setting, "Porgy," the negro play, by Dubose Heyward, of Charleston, S. C., has just completed a successful run; "On Trial," a movietone American production is having packing houses at the Stoll on Southampton Row, while Edna Ferber's "Show Boat" with the negro scenes and singing is attracting large crowds. These are but a few samples of American influence on the theater.

Tallulah Bankhead Missing

Unfortunately, America's greatest contribution to the European stage, Miss Tallulah Bankhead, is not playing in London now, though she has a home here. As every one in Alabama knows, she is the daughter of Congressman W. B. Bankhead, and granddaughter of the late Senator John H. Bankhead, but she is perhaps even better known in London than in Alabama. One may ask any Londoner about her and get an immediate response of praise. Judging from what one hears of her here she must be easily the outstanding drawing card of the London stage which naturally makes an Alabamian proud of what she has accomplished.

Formerly the American actor on the London stage attempted to make his speech conform to that of the Londoner but this is no longer true. It seems to be an advantage rather than a handicap to keep to the American inflection so popular have American actors become. Perhaps the movietones have had a good deal

to do with it for the American productions of this type have certainly been more popular than similar English productions, though in one theater they advertised a production that would be given in the 'pure' English voice.

King Returns

The most important event of the first week of July in London was the return of the king to his royal palace July 1 and the Thanksgiving services held July 10 to express gratitude of the people for the restoration to health of the king. Mrs. Carmichael and I had the pleasure of seeing the king and queen as they entered the marble arch, the triumphal arch which was formerly an entrance to Buckingham Palace, amid the tumultuous cheers and shouts of the hundreds of thousands who had assembled all along the route of march. At the south end of Hyde Park the king and queen changed from the automobile, in which they had traveled from Windsor, to an open landau drawn by horses. Preceding them were the life guards adorned in their shiniest armour, each riding a black charger. For miles on either side of the way were solid masses of human beings awaiting an opportunity to behold the king who had been restored to health and was coming back to his palace to resume his duties. As the landau and the rear life guards passed the multitude fell behind and tied up the traffic for several hours.

One was impressed with the unusual affection in which the people of England hold their king. There was that something in the atmosphere that made one feel that this was no mere perfunctory welcome but a heartfelt expression of a people's gratitude and affection. The last time London saw their king was in February when he left in an ambulance for Bognor. Now he was returning bronzed and smiling with a rose in his buttonhole, looking altogether well and strong. The writer saw him last at the opening of Parliament in 1913 and he was surprised to see him looking almost or quite as young as he did 16 years ago. One could not help but feel that George V will, for many years yet, continue his reign as rex imperator.

England Loves King

In speaking of the king's return the editor of The Daily Express summed up the attitude admirably. "If love and loyalty and happiness ever found expression they found it then. It was a demonstration from the very heart of the nation in honor, first, of a man; secondly, of a sovereign, and thirdly, of the office, endeared by the ties and traditions of a thousand years which he holds."

On July 7, a thanksgiving service was held in Westminster Abbey at 11 a.m. The following two special prayers were offered at the service: "O Father of mercies and God of all comfort, we thank Thee that Thou hast heard the prayers of Thy people in this land and across the seas in the day of our trial; we praise and magnify Thy glorious name for that Thou hast raised Thy servant George our king from the bed of

Amen."

Parliament Opens

The second event of importance was the opening of Parliament, where two or three interesting things occurred. For the first time in the history of Parliament, a Socialist lord chancellor read a king's speech composed by a Socialist premier. And then when the debate on the address was opened, another tradition of generations was broken, according to The Evening Standard. Both mover and seconder wore plain lounge suits. "Never before so far as can be recalled have these duties been performed except in court dress or some kind of uniform." Thus a new and strange thing occurred. In America the dress of the members of Congress would hardly elicit much comment, but not so in England. Age-old tradition was broken; things are changing even in old England. The correspondent goes on to say that while Henry Snell and C. H. Wilson were two of the most plainly dressed men in the house, some of their colleagues on the Labor side were much more ornamental. One of the Socialists, Maj. Graham Pole, the correspondent goes on to say, "wore a smart grey top hat."

One of the first matters performed among the preliminaries was a notice given by Arthur Greenwood, minister of health, that he would introduce a bill relating to widows and orphans pensions. Notice was also given by the attorney general concerning the amendment to the trades dispute act.

House Crowded

The house was crowded to the utmost capacity. There was very little opportunity for visitors to get a place, so great is the interest of the English in their government.

Among the high lights in the king's speech which will form the subject of debates in the weeks to follow were the following proposals. The evacuation of the Rhineland, recognition of Russia, reorganization of coal industry, including hours and ownership of minerals and a proposal to deal with unemployment by improving transport, stimulating export trades, overseas development, improving agriculture and fishing, with new facilities for marketing and extending overseas migration.

Among the matters suggested for investigation were factories, slum problems, housing and legislation to increase eligibility of widows, orphans and old age pensions, and inquiries into iron, steel and cotton; drink reform and electoral reforms.

Simplicity Keynote

The keynote of the opening of Parliament was its simplicity. As contrasted with the pageantry of former occasions, it was a very quiet affair. There was no royal processions for the reason that the king was no glittering state coach, no the fatigue of a long ceremony. There was no glittering state coach, no prancing horses, no soldiers, simply the arrival of the peers and peeresses, members of government and of Parliament.

The newspapers made considerable mention of the fact that it was the most democratic opening of Parliament within memory. Maybe this is

RHODES SCHOLARS OF 10 WORLD HOLD REUNION

First Event Of Kind Marked By Dedication Of Hall On Anniversary Of Founding

BY DR. O. C. CARMICHAEL
President Alabama College

OXFORD, England, July 27—Rhodes House was formally opened July 5, the birthday of Cecil Rhodes, who founded the first great international system of scholarships. Several hundred Rhodes scholars from every quarter of the globe were assembled in the large reception room of the new structure for it was not only the occasion for dedication of Rhodes House but it was the celebration of the twenty-fifth anniversary of the founding of the scholarships and the first reunion in the history of the foundation.

Stanley Baldwin, former prime minister, was toastmaster of the occasion and seated with him were the prince of Wales, the honor guest, members of the board of trustees and representative Rhodes scholars from each of the large countries from which the scholars are selected. For America, Frank Aydelotte, president of Swarthmore College; for Canada, J. M. MacDonnell, of Montreal; for Australia, J. C. V. Behan; for South Africa, N. R. F. G. Howebrowne, and for Germany, C. Brinkman were the representatives, who responded to the toasts.

The toast to the founder was proposed by Mr. Baldwin, while the toast to Rhodes scholars was proposed by H. R. H., the prince of Wales, while the responses to the latter toast were made by the representatives in the following order: Messrs. MacDonnell, Behan, Howebrowne, Aydelotte and Brinkman.

German Appointments

A very important announcement was made by Mr. Baldwin preliminary to the toast to the founder. It concerned the German scholarships. He pointed out that in 1916 the House of Parliament discontinued the German appointments because they believed the purposes of Mr. Rhodes' will were not advanced through their continuance at that time, but that four continuous German scholars beginning with 1929 would be maintained at Oxford. This was greeted with hearty applause by the entire audience and will doubtless meet with generous approval throughout the world.

In speaking of Mr. Rhodes the toastmaster paid tribute to the pioneer, the financier and the empire builder but stated his chief quality, which was even greater than the genius manifested in all these ways, was his vision. He characterized him as a "dreamer of dreams and a seer of visions." The vast scholarship system, the first of its kind ever established, was his vision and a world united was the ultimate goal. He reminded the scholars of their responsibility in seeing that this great ideal should become a reality, saying that "the real trustee of the foundation are the scholars themselves." He humorously referred to the breadth of the ideal and the way in which it was coming to be realized, as exemplified in the fact that he, an unworthy son of Cambridge, should be presiding over a group of Oxford men in Oxford, men who were gathered from all parts of the world including the Anglo-Saxons and the Teutons.

Anniversary Celebration

In brief Mr. Baldwin said: "What is the occasion of our gathering here tonight? It is a remarkable celebration of the twenty-fifth anniversary of the foundation of the Rhodes scholarships, and it celebrates also the opening of Rhodes House."

"I congratulate you and I congratulate Oxford on Rhodes House. The miracle of the work of that architect and genius, Sir Herbert Baker, lay in this, that he could put down this building in the midst of the masterpieces of the Middle Ages and that that building should look

ers exercising an influence for good wherever they were. He did not want them to be all alike; he did not want them to be of a scaled pattern; he wanted them to be average men in whatever walk of life they went, whether they were very brilliant or whether they were in the third class as regards the examinations of this great university.

"They would have two or three years in Oxford to help them through their life to be an influence for good and progress in whatever place they happened to be.

"I know what a very great help it has been in my life to have been in Oxford, then to have had the opportunity during the war, which so many of my generation had, of rubbing shoulders with men whom we would not otherwise have had the opportunity of meeting—men we would never have met in any other way.

"Then I know what very great value my travels throughout this great empire have been to me."

The prince, alluding to the revival of the German scholarships, said, "In that building and in the colleges of Oxford there will be found on the rolls of honor names of German Rhodes scholars who fell in the war."

"It shows this foundation is not based on any narrow racial feeling and that its ideals are those which all can follow, forgetful of past enmities."

"That is what we Oxford men are doing tonight, and in proposing this toast I would like to say that Oxford and Great Britain will always assure a most hearty welcome to all of you who come from all parts of the British empire and from that great country, the U. S. A."

America Follows Lead

In response to this toast Mr. Aydelotte, speaking for America, called attention to the fact that, as a result of the stimulus given by Mr. Rhodes to international foundations, there had been established some 15 scholarship funds through which there are now as many Britishers brought to America each year as there are Americans brought to Oxford. He mentioned among others the Commonwealth fund and the Pichler fellowships at Princeton. He predicted that many more such foundations would be established, thus uniting the world in common ties of understanding and friendship which was the essence of the Rhodes ideal.

A further announcement of great interest to the gathering was that the Rhodes Scholar Association of America had already begun the raising of a fund to pay in part, at least, the debt which Americans owe to Oxford. The reciprocal foundation is for the purpose of providing for exchange professorships and for the bringing to America of English students.

At the conclusion of the toasts and their responses Vincent K. Butler, on behalf of the Rhodes scholars from America, presented to the trustees two letters written by Cecil Rhodes to his solicitor, Bouchier F. Hawksley, in reference to the Rhodes scholarships.

Rhodes Letters Presented

as if they were part of them."

"The success of Mr. Rhodes' conception is just arriving before the world, and that that success was so soon achieved is owed partly to the Rhodes scholars themselves and partly to the unflinching cooperation and sympathy of this great university and of each individual college in it.

"For some time the Rhodes trustees have been considering the question of the reestablishment of the German Rhodes scholarships," he said. "It will be remembered that Mr. Rhodes added a codicil to his will in 1901, directing that five annual scholarships should be appropriated to Germany, to be awarded by the German emperor.

"He gave as his reason for this that English had been made compulsory in German schools and said that his object was that an understanding between the three strongest powers would render war impossible.

"When the World War came it was decided that the purpose which Mr. Rhodes had in view in creating the scholarships had been frustrated, and in 1916 an act of Parliament was passed canceling the codicil under which the German scholarships had been created and appropriating a certain number of scholarships to the Dominions of the Empire.

"Exactly 10 years have now passed since the signature was appended to the treaty of peace between the German Republic and the British Commonwealth.

"The trustees now believe that the removal of misunderstanding and the promotion of friendship between the German and the English-speaking peoples by educational means, is as important, and indeed more important, than it was when Mr. Rhodes added the codicil to his will.

Time Brings Change

"They believe further that the goal of the world peace which Mr. Rhodes had in view is more possible of realization today than it was in Mr. Rhodes' day and that the attainment of this end would be best assisted by the recreation of Cecil Rhodes scholarships.

"The trustees feel there can be no question of cancelling the additional scholarships which were allowed to the Dominions in 1916 in order to revive the German scholarships. This will require the appropriation of fresh funds.

"After reviewing all the facts, the trustees have decided, subject to the consent of the university authorities of Oxford, to establish two-year German Rhodes scholarships. That will enable four German Rhodes scholars to be annually in Oxford as soon as arrangements for their election in Germany and their accommodation in Oxford colleges can be made. The trustees are confident it will help to promote the great ends of international progress for world peace which Mr. Rhodes had in view."

Prince Recalls Old Day

At the conclusion of his toast Mr. Baldwin introduced his royal highness, the prince of Wales, who proposed in a most happy manner the toast to the Rhodes scholars. After paying a tribute to the presence of Sir Herbert Warren, who was president of Magdalen when he was up at Oxford, he spoke in part as follows:

"I am glad to be here because this is a gathering of Oxford men in Oxford. It may be a gatherings conducted with a little more formality than some of the gatherings we used to know in the old days.

"Still it is a gathering of Oxford men in Oxford, and a gathering of Oxford men from all parts of the world. As one who admires the Cecil Rhodes foundation more than most people, I am very glad to pay tribute to one of the greatest scholarship foundations in the world.

"This scholarship trust is a big man's idea, and as your chairman said, the idea of a man of great vision as we knew Cecil Rhodes to be.

"He hoped and believed that his scholars would be men of mark, lead-

These letters were found some time ago in the Hoover War Library of Stanford University, a library presented to his alma mater by Mr. Hoover.

Their existence was brought to the attention of the president of the university, Dr. Ray Lyman Wilbur, now secretary of the interior in President Hoover's cabinet, and through him to the attention of Mr. Hoover.

Through Dr. Wilbur these letters were recently presented to the Rhodes scholars of the United States for presentation in turn to Rhodes House at Oxford.

Throughout the meeting repeated reference was made to the unique contribution of Mr. and Mrs. Wylie, now Sir Francis and Lady Wylie, and each reference was cheered roundly by the assembled guests. Indeed one of the happiest memories, cherished by each Rhodes scholar, of his days at Oxford, is the hospitality and friendly helpfulness of Mr. and Mrs. Wylie, the resident secretary of the Rhodes Trust. Mr. Aydelotte announced that the scholars from the United States had raised a fund by which they proposed to have a portrait of Lady Wylie painted and presented to Sir Francis, having obtained Lady Wylie's consent to have this done. "This" Mr. Aydelotte said "is but a small token of the affection and esteem in which the scholars hold Mr. and Mrs. Wylie."

At the conclusion of the speeches the honor guests retired to an adjoining room and were joined there by the wives of the Rhodes scholars who were seated in the balcony during the banquet because of lack of space. There they met the prince of Wales and for an hour or more he talked informally with the scholars and their wives. He appeared somewhat diffident in the presence of the large groups but was most cordial and friendly.

There were several interesting features incident to the gathering of so many nationalities together. All were asked to wear decorations which included medals from the various countries for most of the Rhodes scholars saw service of some kind during the war. It was especially interesting to see the German Rhodes men wearing decorations including the iron cross. Thus time has erased the memory of war days and the occasion drew together in one body erstwhile enemies on the most cordial basis of friendship. This was brought vividly to our attention when the prince of Wales said "I myself had the pleasure this evening of shaking hands with an old Magdalen man who was a German Rhodes scholar and whom I have not seen since 1914."

Mr. Baldwin announced he had received a sheaf of cables from all over the world, extending congratulations on the occasion and that in seven places throughout the world similar dinners were being held at an equivalent hour in honor of the opening of Rhodes House.

Prince Is Center

Among those who sent regrets at not being able to be present were Gen. Dawes, American ambassador to the Court of St. James and Lord Passfield, president of the Board of Trade.

Another interesting incident connected with the presence of the prince of Wales was the interest of the people of Oxford in catching a glimpse of him. Long before he arrived at 7:30 there were crowds gathered in front of Rhodes House and when we came out of the building either the same group or another crowd were waiting at the door. This despite the fact that it was raining and many had to tramp to suburban places, for the buses had already ceased to run. At most they could catch only a fleeting glimpse of his highness, but even that seemed sufficient to them to warrant their waiting these long hours in most disagreeable cold and damp weather.

to know the purposes of Rhodes House. According to a bulletin issued by the trustees it has been built to serve three main purposes.

Firstly, to stand as a permanent memorial to Rhodes in the university which he so greatly loved, and to which a large part of the inspiration of his life may be traced; secondly, to contribute to the needs of Oxford as a place of education and learning; and thirdly, to provide the Rhodes Scholarship System with suitable headquarters and the Oxford secretary of the trust with a house.

Contribution To Oxford

The contribution which Rhodes House makes to Oxford as a place of education and learning is represented partly by the library, with its reading-room and stackrooms, which will be a department of the Bodleian, and will deal with the history and literature of the British Dominions beyond the seas and of the United States of America, and partly by the Milner Hall and the lecture rooms. These rooms are at the disposal of the university, but are intended primarily for lectures or research in subjects germane to the studies served by the library. They will also be used as meeting places for university societies, such as the Raleigh Club, the Bryce Club, etc. The Beit and Harmsworth libraries used by the professors of Colonial and American history are also housed in the building. Accommodation is also found for the Tropical African Services Probationers.

The house and offices of the Oxford secretary to the Rhodes Trust are contained in the East wing of the building. The annual dinners which, in accordance with Rhodes will, are given to Rhodes scholars, are held in the Milner Hall.

Rhodes House For All

The building is not a resort for Rhodes scholars as such. Their home, while in Oxford, is in their respective colleges. Rhodes House exists for all. Rhodes himself regarded wealth as a trust, and habitually shared even his private house and grounds, even beyond a reasonable generosity, with the public. That is the spirit of the house in Oxford which now bears his name.

The present trustees have wished to associate with the building the names of the seven friends whom Rhodes chose to act as the first trustee under his will. The main hall is named after Lord Milner, the two large lecture-rooms on the ground floor after Alfred Beit and Sir Starr Jameson, respectively, and other rooms after Lord Roseberry, Earl Grey, Sir Lewes Michell and Bouchier Hawksley. In addition, the vestibule between the circular hall at the entrance and the Milner Hall is named after Sir George Parkin, the first organizing secretary, and has been paved and panelled by friends in memory of the work that he did to promote Mr. Rhodes's ideals."

Work Of Scholar

Much has been said about the success of Rhodes scholars at Oxford. The following table of academic results up to 1926 shows that they have justified themselves in the "schools" as compared with students of British origin.

	British. Scholars. Pct.	Rhodes. Scholars. Pct.	Com. moners. Pct.
First-class honors..	27.66	15.71	6.00
Second-class honors	45.23	51.06	33.78
Third-class honors..	23.40	26.28	43.90
Fourth-class honors	3.70	6.95	16.32

The first and second classes taken together show 72.89 per cent of British scholars, 66.77 per cent of Rhodes scholars and 39.78 of the Commoners to be in this upper group. Considering the fact that most of the British scholars came up to Oxford from Harrow, Eton, Rugby and other schools which prepare especially for Oxford, while the Rhodes scholars came from such different types of schools, this showing is pronounced good.

Thus the Rhodes trustees sum up the matter as follows:

"So far as Oxford is concerned the Rhodes scholarship system has justified itself and is working well. The erection of Rhode House is testimony to the fact that it has come to stay."

American Scholars Attend Opening Of Rhodes House, Oxford, England

By DR. O. C. CARMICHAEL

President Alabama College

OXFORD, ENGLAND, July 27.—The opening of Rhodes House recently at Oxford England was the occasion of bringing together from all parts of the world of Rhodes scholars and their families. Most of the states of the United States, the provinces of Canada, the kingdoms of Germany and the states of South Africa, Australia and New Zealand and some islands of the sea, were represented in the group. Two former Alabama scholars were among the number, Harvie Branscomb, son of the Rev. L. C. Branscomb, and the writer.

It was not only the occasion of the dedication of the Rhodes Scholar Alumni House but the celebration of the twenty-fifth anniversary of the founding of the scholarship system and the first reunion of Rhodes scholars.

The toastmaster of the occasion was Stanley Baldwin, ex-Prime Minister of England, while the chief guest was the Prince of Wales. Seated with these around the speakers' table were members of the board of trustees and representatives of the chief countries from which the scholars came.

President Aydelotte of Swarthouse College and American secretary to the trust, represented America.

Among the important announcements made at the dinner was the statement of Mr. Baldwin that German Rhodes scholarships had been reestablished. These were discontinued by act of Parliament in 1916 and this decision on the part of the trustees was greeted with prolonged applause and general approval. Only four scholarships instead of the original fifteen are, however, provided for by this move.

In paying tribute to the founder of the scholarship system Mr. Baldwin praised his genius as a pioneer, financier and empire builder but stated his greatest quality was that of a "dreamer of dreams and a seer of visions."

The Prince of Wales characterized the whole scheme as a "big man's idea" and expressed his keen interest in the scholarship system and in the future possibilities as a means of uniting the world by common ties of understanding and friendship. He referred to the fact that he had met that night a German Rhodes scholar who was up at Magdalen with him in 1913-14 and whom he had not seen since 1914.

War decorations were called for on the invitations and many were adorned with them for many were in service. Among them was an Iron Cross worn by one of the German scholars. Thus one was

forcibly reminded of the fact that enmities between the Anglo-Saxon and the Teuton are not very deep seated and therefore quickly erased.

Mr. Aydelotte speaking for America made an interesting statement that though Rhodes founded the first great international scholarship system there were now 15 such foundations and that there are now as many English students going to America each year on one or the other of these scholarships as there are American Rhodes scholars going to England. He also announced the establishment of a scholarship fund on the part of the Association of American Rhodes Men whose purpose it is to provide for exchanged professorships and scholarships for English students who desire to study in America.

Vincent K. Butler, of California, on behalf of the American scholars, presented to Rhodes House some letters of Cecil Rhodes which had been found in the Hoover War Library in Leland Stanford University. These are to be in the permanent possession of Rhodes House.

More than one half the group assembled for this occasion were American Rhodes scholars, which indicates how important a part Americans must play in any realization of the wider vision of Mr. Rhodes in the bringing about of world peace.

After the speeches were over the honor guests adjourned to an adjoining room and there Rhodes scholars were joined by their wives who occupied the gallery throughout the meeting on account of lack of space in the main hall. There they met the Prince of Wales who talked informally with the group for an hour or more.

The occasion was one of considerable significance in the history of the Rhodes scholarships and one long to be remembered by those who were present.

Hugh Bradley

Hugh Bradley, elected in 1924, left for Oxford in June, 1927, and for the academic year 1927-28 was assistant professor of history in the extension division of the University of Alabama. Since September, 1928, he has been an associate in the law firm of Martin, Thompson, Turner and Whorter, of Birmingham. He returns from giving personal data, which, I take it, indicates that he is not yet married and therefore has nothing personal of importance to report. Bradley's brilliant work at Oxford is indicative of the bright career ahead in his chosen profession—law.

J. Van de Graff, Tuscaloosa, was selected in 1925. Van de Graff not only spent his three years at Oxford, but additional time in advanced scientific research. While the speaker could not give first-hand information concerning Van de Graff, it is understood that he has made important discoveries in the field of physics, which have attracted the attention of the leading scientists of Europe. He told that he is at present attending a gathering of scientists in Europe to which only leaders are in-

vited. It is regretted that more complete information cannot be had concerning Van de Graff. He took his doctor of philosophy degree at Oxford, and is devoting his time since completing his course there to research in the field of physics. It is predicted that he will be one of the leading scientists in this field, as indicated by the brilliant record thus far made.

The appointee of 1927, R. H. Baugh, has completed already two years of work at Oxford. He has made a brilliant record already in the field of sports, having won his Blue and Gold, having attracted the attention of the amateur golf world. He comes up for his degree in June, 1930.

The last appointee, Lucien Giddens, who took up his residence last October, has two more years in Oxford. No recent information from Giddens has been received. He is a student at Worcester College.

Thus runs the story of the Rhodes scholars from Alabama. Of the 16 men appointed 15 are still living. Two are in residence in Oxford, leaving a balance of 13 distributed among the professions as follows: Four engaged in law, four in educational work, including one superintendent of district school system; two professors in universities; one college president, one author, two business men, one scientist and one who was in consular service though there is no recent

Home Economics Projects For Year In Alabama Are Told By Chairman

Need Of Proper Instruction For Girls In Schools Is Emphasized

For the last two years the home economics division, Alabama Federation of Women's Clubs, has had for its major activity the program outlined by the general federation. This program the state divisions are asked to continue. Since, in the main, it suggests work along the lines most needed in Alabama, we accept it, in part at least, as the basis of concentrated effort for the next year.

Those parts of the general federation program which we wish to emphasize especially are as follows:

1. Proper instruction for teachers of home economics.
2. Adequate home economics equipment in the schools.
3. Instruction in the major phases of home management for all girls.
4. Encouragement of girls on the part of mothers to carry out school instruction in the home itself.
5. Proper understanding of the function of home economics.
6. The general federation further asks cooperation of club women with the National Food Preservation Council in the nation-wide food preservation program.

Need For Teachers

There is a very great need in Alabama, as elsewhere, for more and better trained teachers of home economics. It is a most vital subject, and one that needs a great deal of attention. It is not necessary to go into the reasons for that statement. You know them. Neither is it necessary to say that though more than 80 per cent of our college, normal and high school graduates are sure to be home makers, less than 33 per cent have had any training in home economics.

Adequate equipment for the department of home economics in the schools will go a long way toward making work effective and attractive. When the department is taken from the basement of our school buildings and given as attractive quarters as any other department and made to rank with other standard subjects it will command the respect due it. When a successful piece of work in this department receives as much publicity as a like piece of work in another department the popularity of the work will be assured.

Instruction For Girls

If so many of our girls are to be home makers, why should not all girls have instruction in the major phases of home management? Mrs. Sipple, general federation president, is responsible for the following statement: "It is estimated that women do almost nine-tenths of all buying; that they spend or invest billions of dollars annually. Obviously a large part of our country's wealth is handled by women, and upon the handling of that wealth depends, not only individual wealth, health and effectiveness, but the very life of our nation."

Perhaps one of the most vital reasons for the rather low status of home economics work is the lack of a proper understanding of its function. Home economics is much more than learning to cook and serve a meal and make a garment. As important as these may be, there are still greater problems—problems that challenge the intellect and command the respect of our most ambitious girls. Mrs. Sherman, department of American home, general federation, thinks that mothers as well as educators are responsible for this misconception or lack of understanding.

MRS. T. H. NAPIER
Chairman Home Economics

Viewed from a purely financial standpoint teachers of home economics command better salaries for the same amount of training and experience than in any other field.

Since maintenance of public health is one of the vital concerns of all club women, and since food is one of the most important factors in maintenance of health, we therefore whole-heartedly fall in line with the general federation in its cooperation with the National Food Preservation Council in the nation-wide food preservation program.

State and federal laws furnish reasonable protection to our foods before they reach the consumer. It is with their care and protection in the home that the national food council is interested.

Suggestive plans for carrying out this program are being formulated and will be sent to the district home economics chairman very soon.

To carry this program to a successful conclusion will require close cooperation of district, county and club-home economics chairmen with your state chairmen. This your state chairman confidently believes she will have.

THEATER OPENING SET FOR COLLEGE

Birmingham Girls Have Part In Initial Offering, Old English Play

MONTEVALLO, Ala., Oct. 19—An address by President Carmichael preceding the dramatic offering will mark formal opening of Alabama College Theater next Friday night.

An all-student cast will be presented in "Gammer Gurton's Needle," under direction of Dr. Walter H. Trumbauer, professor of dramatic literature and director of the theater.

The cast will include Misses Florence Stevens and Annie Bledsoe, of Birmingham. All stage settings and costumes will be created under direction of Misses Mary Gloster and Josephine Coble, Birmingham students.

"Gammer Gurton's Needle" is the oldest native English comedy extant. It was written by a university student between 1850 and 1853 and produced first at Cambridge University.

Although authorship of the play is disputed by some, Dr. Trumbauer stated, it is generally thought to be the work of William Stevenson, who was an M. A. student at Cambridge in 1853 and twice a fellow at Christ's College.

The complete cast in order of appearance includes the following students: Prologue, Miss Mary L. Russell, Oxford; "Diccon," Miss Florence Stevens, Birmingham; "Gammer Gurton," Miss Leila Ford, Hartford; "Hodge" her man, Miss Helen Mahler, Loxley; "Tybe" her maid, Miss Christine Purefoy, Furman; "Cocke" her boy, Miss Louise White, Marion; "Dame Chatte," Miss Inamuri Smith, Anniston; "Doll" her maid, Miss Annie Bledsoe, Birmingham; "Doctor Rat" the curate, Miss Evelyn Leak, Bay Minette; "Bayly," Miss Floyce Griffin, Montevallo; "Scapethrift" his servant, Miss Winnie M. Toomer, Long Beach, Miss.

Three distinct types of plays will be offered by the college theater during the year, Dr. Trumbauer stated.

Next after the old English comedy on Friday evening will be "Beggars on Horseback," an impressionistic play. Later, a Greek play will be presented.

Not only will the three types of plays offer a variety of subject matter and a wider scope for talent in acting but they were chosen as well with a view to developing skill in costume design and stagecraft. All costumes and stage settings for the three plays will be produced by members of the classes in costume design and stagecraft.

Nov. 24, 1929

MONTEVALLO, ALA., Nov. 23.—(Special.)—Sophomore students in the food laboratories of the department of home economics at Alabama College are giving a practical boost to the government "Shop and Mail Early" slogan this year.

Orders are being taken by them among faculty, students and local citizens for fruit cakes, which will make in the department laboratories, as part of their regular study and preparation of foods, to be passed on by the purchases as Christmas gifts.

"This is an annual event in the food laboratories," according to Miss Mattie L. Smith, instructor.

Orders for about 150 three-pound cakes, to be shaped similar to a loaf of bread, have been taken, for delivery before the holiday vacation.

The proceeds will be used for equipment for the department dining room, the choice of the equipment to be confined to something which will lend an artistic touch.

Art Exhibit Arranged By Faculty At Alabama College For Oct. 10

Interesting Paintings In Oil, Water, Charcoal And Pencil Will Be On Display; Pottery Designs Included In List; Occasion Will Be Marked By Tea

MONTEVALLO, ALA., Oct. 5.—(Special.)—An exhibit around which unusual interest is centering is that which will display work done by members of the art faculty of Alabama College, to be shown in Bloch Hall on the college campus Thursday, Oct. 10.

The exhibit will be combined with a "Studio Tea" from 3 to 5 o'clock in the afternoon, and will honor especially Miss Edith Mae Brisac, of New York City, associate professor, and a new member of the faculty. This will be the first of a series of exhibition teas during the year, at which interesting collections which will represent outstanding artists and schools of art will be shown.

Three Sections Represented

The atmosphere of three distinct sections of the country will be reflected in the exhibit on Oct. 10.

In the hall-ways on the third floor of Bloch Hall, which is devoted to the art department of the college, will be displayed the works of Miss Minna McLeod Beck, head of the department, and of Miss Mary MacMillan, associate professor.

Miss Beck, who is a native of Georgia, a member of one of the oldest families of that state, and steeped in the history and traditions of the Southland, naturally has reflected the spirit of the South in many of her works.

Among the pieces which she will display will be charcoal and pencil sketches of the old homes of historic Southern characters: "The Old Colonial Home of DuBose," for instance, "Old Home of Robert Tombs," "Porch of Tombs Place," "Sketch of the Home of Joel Chandler Harris," "Porch Where Uncle Remus Wrote," "A Group of Georgia Cabins," "Sketch of the Old Wesleyan College," etc.

A number of these have been used for illustration and cover design by leading magazines of the country.

Miss Beck will display also a series of still life studies, both in water color and in oil, as well as a series of screen and wall decorations, in oil and on raffia.

Among her oil paintings there will be a number which have been exhibited nationally—in the Pennsylvania Academy of Art, the Chicago Art Institute, and elsewhere.

Exhibits Attract Attention

Her "Big Wood," a tree study, "Evening," a monotype, and her "Old Church" have attracted considerable national attention. Some of her still life studies in oil and pastel, have also received national mention.

Miss MacMillan, who is a native of North Carolina, will display a group of life drawings, a series of still life in oil and water color, and some studies which reflect the spirit of the mountain people of her section.

The exhibition room will contain a special exhibit of the work of Miss Brisac.

Miss Brisac has studied and lived during a large part of her life on the coast of Massachusetts. Her work, which is post-impressionistic, reflects the atmosphere of the typical, early-settled coast town, with its quaint old churches and church yards with their crooked, moss-grown grave-stones; light houses, narrow streets, tiny garden plots, and historic landmarks.

Colorful View In Collection

Among a series of water color sketches which she will display will be found "Provincetown Monday," a colorful view of the washline: "Christopher Wren

Tower," a famous landmark of the town; "Highland Light," which stands a bluff 200 feet above the level of the sea, the second largest lighthouse on the Atlantic coast, and intimately and intricately bound up with the lives of sea folk; "My Neighbor's Garden," a colorful backyard sketch which could have been produced nowhere save in New England, or Old England; "The Fish Wharf," full of the atmosphere of the quaint, interesting, human fisher-folk who inhabit the New England coast; "North Truro Church," associated with the early history of the section; and "Corn Hill," a study of the spot where the first corn was received by the Puritans from the Indians. These and many other studies which are typical of New England coast life will be seen in Miss Brisac's exhibit.

A picture which has attracted special attention wherever seen is Miss Brisac's "Sand Cliff at Highland Light," a colorful study in oil of the cliff mentioned by Thoreau, in his writings in 1855. This study, which was done from the base of the cliff, has very happily caught and held the magic colors cast by a reflection of the sunlight on the water.

"Green Giants" Attracts Interest

Her "Green Giants," an oil study of a clump of large willow trees near Provincetown, is another favorite among artists. These trees for many years have been a popular subject for both students and mature artists who haunt the section.

Miss Brisac will also display a large collection of still life studies; batik designs one of the most interesting of which is a studying inspired by the Persian "Tree of Life;" block prints, and charcoal designs for block prints.

Perhaps the most unique specimen in the entire exhibit will be the handmade, handlettered book done by Miss Brisac. The volume, which is 13x16 inches, contains an original poem entitled "The Seasons." The cover is of cretonne, with are hand-lettered, are made up with simple border line decoration in color, with four large illustrations in full color, which repeat the cover design.

Pottery Designs Included

The exhibit will include, also, some pottery design, the work of Miss Athalene Bristol, associate professor, who has charge of pottery study at the college.

Vases, book-ends, simple figures, bowls, and more elaborate studies showing mat and other glazes, will be found in Miss Bristol's collection.

The invitation includes not only members of the faculty and student body and residents of Montevallo, but also artists, teachers of art, and others throughout the state who are interested in art and art things.

Assisting members of the art faculty at the studio tea will be Mrs. O. C. Carmichael, Mrs. T. H. Napier, Miss Patience Haggard, dean of women, and Mrs. Nora L. Reynolds, social director, who will pour.

The following students, who are majoring in art, will also assist:

Miss Mary Graham Gloster, of Birmingham; Miss Eleanor Garrett, of Dadeville; Miss Lucy Holcombe, of Calera; Miss Kathleen Allan, of Helena; Miss Anna Ekwurzey, of Pell City; Miss Annie McCree, of Dadeville; Miss Julia Nettles, of Tunney Springs, and Miss Louise Walker, of Siluria.

DOTHAN, ALA., Aug. 3.—(Special)—Mrs. Sylvester Andrews Russell was formerly Billy Pridgen, of Enterprise. Her marriage having been consummated recently at the home of Mr. and Mrs. W. B. Jeffries in Dothan. She was the first student to receive an AB degree from Alabama College at Montevallo after it was made an A-1 college.

ALABAMA COLLEGE TO PLACE EXHIBIT

Graphic Chart Will Show Service Rendered Through Library At Montevallo

MONTEVALLO, ALA., Oct. 19.—(Special)—Among the exhibits which may be seen at the Alabama State Fair in Montgomery next week will be one prepared by the library staff at Alabama College, in the form of a graphic chart showing the service which the college renders through its library to the county schools of the state, the club women, and the alumnae of the institution.

The various steps in each form of service will be mounted on a separate card board, and will include correspondence, announcements, etc., concerning the routine, and the actual material used by the county schools and women's clubs. A typical set of books constituting the county school library service may be seen, as well as some of the books used by the clubs in the conduct of program preparation. The college will also display work done by students in the art department, which will include oil and water color paintings, designs, block print sketches, pottery, etc.

Social activities among the faculty of Alabama College this week were enlivened by an attractively arranged "at home" Thursday afternoon, when members whose positions require them to live on the immediate campus entertained in the parlors of Weenona Hanson Hall.

The hostesses were Miss Patience Haggard, dean of women; Mrs. Nora L. Reynolds, social director; Mrs. Louise C. Coleman, resident officer in Ramsay Hall; Mrs. Mary Harris, house matron; Miss Anna Irvin, dietician; Miss Mattie Lee, bookkeeper; Mrs. Luella Grissom, executive secretary; Dr. Willena Peck, resident physician; Miss Fanny Taber, librarian; Mrs. J. M. Wallace, resident officer in Hanson Hall.

From tables covered with old lace and set with silver against a background of dahlias arranged in the lobby, tea was poured by Mrs. E. Houston Wills, Mrs. Milton L. Orr, Miss Mary MacMillan and Miss Myrtle Brooke.

The guest list included the entire faculty and members of their families.

Alabama College Adds Pianist Of Note To Faculty

M. ZIOLKOWSKI

Staff Is Strengthened By M. Ziolkowski, Widely Known Musician

A valuable acquisition to the musical life at Alabama College, Montevallo, was obtained this year when M. Ziolkowski was employed as head of the piano department, which Director Richmond plans to make one of the strongest in the South.

M. Ziolkowski comes from Columbia School of Music, Chicago, but has been in America less than three years. He was born in Poland, but received his education and musical training in Germany and America.

When Paderewski was doctorized at University of Poland several years ago, Ziolkowski was one of those selected to play his own composition. He played a mountain fantasia which so pleased Paderewski that the young artist was invited to visit the great master, which he did and received a short course of private instruction.

Ziolkowski also won first prize in composition at Warsaw last June.

Ziolkowski was heard over WAPI late in September and will be on a WAPI program again this month. He will have charge of the radio programs broadcast over WAPI from Alabama College each Thursday and Friday.

ALABAMA COLLEGE TO HAVE LUNCHEON ON JAN. 11

Educational Leaders Speak As

Dormitory Opened At
Alabama College

MONTEVALLO, Ala., Oct. 12—Dedication of the handsome junior dormitory, Weenona Hanson Hall, during observance of Founder's Day at Alabama College Saturday, was seen particularly appropriate by speakers addressing an assembly of visitors and alumnae from over the state.

Guests of honor were Mrs. Victor Hanson, for whom the dormitory is named, and Mr. Hanson,

whose gift to the "Montevallo Million Dollar Equipment Drive" made the building possible. The dormitory memorializes also the interest in and contributions to educational development in Alabama shown by Mr. and Mrs. Hanson, the speakers declared.

"This excellent structure typifies what Alabama expects of its colleges for women," Dr. O. C. Carmichael, president, Alabama College, who made the dedicatory address, said. He translated the material attributes into the idealistic requisites of a college. "Grace of structure is the atmosphere of idealism in a college; quality of materials is the soundness of the curriculum and the instruction, and the durability is the desire instilled into the student to be a nobler citizen."

Dr. Carmichael spoke of the gifts of Mr. Hanson and Erskine Ramsay, Birmingham capitalist and philanthropist, to the college, declaring their interest and contributions to the institution were outstanding in its annals.

"Alabama College, now celebrating its thirty-third birthday anniversary, began with one building," the president said. "Today it has 13 permanent buildings. It began as a technical high school and not until 1913 were the first college courses given. The first degree was granted in 1922, when Miss Willie Pridgen was sole member of the graduating class. Today there are about 100 seniors. In 1923 we registered 330 students, and today we have 853, and the school is offering primarily college work."

James B. Ellis, chairman of the executive committee of the board of trustees, presided at the exercises and introduced the speakers.

Mr. Hanson responded to the expressions of appreciation for his gifts to education which marked the talks.

"No one individual or group of individuals can take credit for development of educational facilities in Alabama, for that credit belongs to all the people of the state," the publisher declared. "I am deeply grateful for the expressions of appreciation heard today, and my heart thrills at the thought that the splendid building we see will bear the name of my partner during the last quarter of a century."

How the Birmingham publisher has aided education throughout the state, and particularly in Birmingham, was told by Erskine Ramsay, president, Birmingham Board of Education.

"Mr. Hanson has not let his efforts end with Birmingham, but he has given his time, money and newspaper columns freely to educational matters throughout the state," Mr. Ramsay declared.

The place of the college woman in the state was the text of two of the speeches, one by Dr. A. F. Harman, state superintendent of education, and the other by John Temple Graves, of The Birmingham News-Age-Herald.

"Institutions of this kind make us feel that Alabama is on its way to a place in the sun," Dr. Harman declared. "The spirit of Weenona Hanson Hall pervaded by the noble spirit of Mrs. Hanson, will always inspire young womanhood to the ideals of real greatness."

Mr. Graves further stressed the place to be filled by young women in modern life, declaring that theirs is the task of preserving and sustaining the traditional idealism of the South from the crassness of materialism.

Joining in the exercises were representatives of women's organizations of the state and the college alumnae. Mrs. Marion Walker Spidle, Athens, president of the Alumnae Association.

tion, brought greetings of that organization. Mrs. J. C. Crowell, a student at Alabama College 33 years ago, was introduced.

Mrs. J. A. Dupuy, Ensley, president of the Alabama Parent-Teacher Association, expressed appreciation of that organization for the opportunity afforded women by institutions such as Alabama College, in intellectual attainments and in the art of righteous living.

The dormitory was highly praised by Mrs. J. M. Burt, Opelika, president, United Daughters of the Confederacy, Alabama Chapter, and Mrs. C. C. Adams, Birmingham, president, Alabama Federation of Women's Clubs. T. H. Napier, dean of Alabama College, read the roll-call of alumnae. A musical program was provided by Miss Augusta Hardin, music instructor, and the college glee club.

Mrs. Hanson assisted the house committee of the new dormitory at a reception, during which the 94 student rooms were open to guests. Luncheon was served in the new college dining room.

Trends Of Studio Are Discussed By Studiosis Club At Montevallo

Distinct Trends Are Toward Greater Harmony Of Artistic Production, Says Critic; Talkies Inaugurate Beginning Of New Art Unlike Silent Or Legitimate Stage, Is Claim

MONTEVALLO, ALA., Oct. 12.—(Special)—The Montevallo Studiosis Club, under the direction of Mrs. O. C. Carmichael, its president, launched its 24th year of study and activity at a large and enthusiastic meeting held this week in the parlors of Alabama College.

Miss Mary McWilliams, vice-president and program chairman, distributed the attractive new year book, which outlines a series of studies during the year under the theme of "Tendencies in Modern Literature."

The first of these studies, "Present Tendencies in the Theater", was presented Tuesday evening, by Dr. Walter H. Trumbauer, professor of dramatic literature and director of the college theater.

Three distinct trends in the theater of the present day were outlined and discussed by Dr. Trumbauer: the tendency away from realism, the tendency toward a greater fluidity of form, and the tendency toward a greater harmony of artistic production.

The problem which has been created by the talkies was also dealt with.

This problem, Dr. Trumbauer said, has made for a worse condition than the legitimate stage has ever known heretofore. He disagreed with Jane Cowl, however, who claimed in a recent article that the theater is doomed.

New Art Is Created

An absolutely new art has been created, or is being created, by the talkies, Dr. Trumbauer believes, something which is unlike either the silent movie or the legitimate stage. He stated the belief, also, that when the technique has ultimately been developed, an improved taste will be realized.

As for a departure from realism, Dr. Trumbauer believes that the people simply have had enough of "slices of life", so-called, and are demanding something which is more artistic.

The tendency towards a greater fluidity of form was ascribed to a rebellion against the "well-made" play developed in the 19th century.

Mrs. John D. Norwood, of Thomasville, manager of the Fourth District of the Alabama Federation of Women's Clubs, and Mrs. Stella Kimbrough, of Thomasville, were special guests of the Studiosis Club at its meeting Tuesday.

Mrs. Norwood Addresses Club

Mrs. Norwood, who came to Montevallo to a meeting of the Shelby County Clubs Tuesday afternoon, urged the members of the Studiosis Club to approach the arts with the purpose of gaining pleasure from them, for it is through pleasure in the fine arts that one acquires culture, she said.

She also asked for cooperation with the Fourth District and with the State Federation in the matter of extension work, the observance of "Alabama Day", and the promotion of a "model county" project, in which county organization will be built up along the lines of the State and the General Federation.

Delegate Elected

Mrs. Louise C. Coleman was elected a delegate to the State Convention in Selma, Oct. 31-Nov. 1, and Miss Annie E. Sale was chosen as alternate delegate. Mrs. J. R. Steelman was elected alternate to the president.

The secretary to the club, Mrs. C. C. Sharp, presented the names of 27 new members: Misses Edith M. Brisac, Charlotte Claybrooke, Alice Duschak, Katherine Farrah, Kate Fulton, Margaret

Grayson, Ethel Harris, Roberta Hays, Lucie Hood, Elizabeth Lacey, Greta Lagro, Eloise Lee, Henrietta Lisk, Ruby Simpson, Archer Sims, Dorothy Suter, Eva Swantner, Jane Tobie, Edythe Trickett, Maud Willey, Mary Neely Willingham, Mary Zielinski, and Mrs. T. P. Chalker, Mrs. O. W. Hyatt, Mrs. George B. Jackson, Mrs. Eugene Reynolds and Mrs. Janey Reid Robson.

Oldest in State Federation

The Studiosis Club is one of the oldest in the Alabama Federation. It was organized in 1895, antedating by one year the establishment of Alabama College. Its first president was Mrs. James L. McConaughy, in honor of whose memory the State Federation maintains a scholarship at Alabama College of \$200 annually.

According to information obtained from Miss Hattie Lyman, Mrs. W. B. Reynolds and Mrs. Pauline Acker-Lyman, three of the early members of the club, the early activities of the Studiosis Club included the sponsoring of a collection of books known as the "Studiosis Loan Collection", for the use of students at the Alabama Girls' Industrial School (now Alabama College), which formed the nucleus of the present college library.

Miss Hattie Lyman served as the "Industrial School Librarian". The books were housed in the study of the Baptist Church, and from there were obtained by the students. Later they were removed to a cottage on the campus, and still later, to the school library, which for a long time was one of the rooms on the second floor of the main dormitory of Alabama College. This room is today used as a student parlor.

A circulating library, called in the early days, a "travelling library," was also maintained by the Studiosis Club, for the use of townspeople.

A year book for the collection of old papers belonging to Mrs. Pauline Acker-Lyman, published in 1898, indicates the earnestness with which the early members applied themselves to the literary

phases of the club work. German folklore, early German history, the life of Goethe, Schiller, Heine, Bismarck and early French history, the life of Balzac, Voltaire, Dumas, special phases of the French Revolution, as well as a discussion of current events, topics of the day in Europe, and a treatment of popular education appears among the subjects announced for the year's study.

First To Foster Scholarships

The Studiosis Club was among the first of the women's clubs to foster scholarships at Alabama College. During the very first years of the college, at least one or two scholarships were maintained, it being sometimes necessary for one of the members to contribute the room and board while the club took care of the tuition and general expenses from its treasury.

The purpose of the club at the time it was founded was purely for literary work, Mrs. W. B. Reynolds stated. However, there was no mayor or town council far Montevallo in those days, and the Studiosis Club maintained committees charged with matters of sanitation, village improvement, etc.

The membership, at first limited to 25, was gradually raised, in order to take in members of the college faculty from

year to year. Today membership numbers 116 active and seven honorary members.

Worked For Civic Improvement

During the existence of a local "Community Club," the Studiosis Club cooperated with community club members in work for civic improvement, one of the projects sponsored being the establishment of a public rest room for women who come to Montevallo to shop.

Through the initiative of Mrs. C. H. Mehaffey, the club has in recent years sponsored surgical treatment for congenital deformity for a local young woman. Enough has been contributed for two visits to Johns Hopkins Hospital and maintenance there, the surgeon making no charge for operating.

Officers of the club for the ensuing year are: President, Mrs. O. C. Carmichael; vice-president, Miss Mary McWilliams; vice-president, Miss Josephine Eddy; secretary, Mrs. C. G. Sharp; treasurer, Miss Elizabeth Wiley; parliamentarian, Miss Hallie Farmer.

Various committees for the year include: Program, Miss Mary McWilliams, Miss Helen Osband, Miss Lorraine Pierson, Miss Blanche Weekes and Mrs. Guy L. Chamberlain.

Biscuit Probes 21 Are Under Way at Alabama College

MONTEVALLO, Ala., Nov. 16.—(P)—Two-story biscuits, beaten biscuits and biscuits of the every-day variety have come into their share of research at Alabama College for Women here.

Six students have set out to find just what elements enter into the making of a good biscuit and their findings are to be judged by a group of consumers yet to be selected.

Among other things, it has already been found that kneading lightly for one minute and cooking in an oven heated to about 475 or 400 degrees Fahrenheit play an important part in the success of biscuit making.

Miss Belle McColl Hart Is Heard Over Radio

Birmingham friends of Miss Belle McColl Hart, attractive Selma girl who formerly made her home in this city, will be interested in the following clipping from The Selma Times-Journal: :

It was a delightful privilege Friday afternoon to sit in a cosy living room on Dallas Avenue and hear Belle McCool Hart, of this city, singing in Birmingham as clearly as if she were right in the room. This lovely, talented Selma girl, who since earliest childhood has given promise of developing into a splendid musician, seems to be at least on the first rung of the ladder of fame, for she, on Friday, made her third radio appearance. While formerly she sang in chorus and in a program divided with other pupils of Alabama College, Montevallo, this Fall she was featured by the Alabama College musical department in a program of her own, giving four clear, birdlike, flute-like songs. She was accompanied by Miss Dorothy Stallworth, of Monroeville, another talented young musician from this part of the state, who divided the program into two sections with a delightful piano number.

Gifted with musical talent of a rare quality and with a voice that bids fair to "do wonders," Belle McColl shows in her renditions this year that study is doing much for her native gifts. She is a member of the glee club of Alabama College and is a leader in all musical and dramatic activities of the college.

Central City Rotarians Hear Dr. Carmichael

SELMA, ALA., Oct. 25.—(Special).—One of the most interesting and enjoyable addresses heard at a luncheon club in some months was that of Dr. O. C. Carmichael, president of Alabama College at Montevallo, on the subject of "International Relations," delivered at the meeting of the Rotary Club at noon today.

Dr. Carmichael spoke of the wonderful results that have been attained through the giving of the Rhoades Scholarship which takes students from all countries to Oxford where they mingle and where the lesson of "Humanitarianism" is learned by so many, bringing them to a closer understanding with other countries of the world. He spoke of the manner in which students, receiving high marks in the classes are repaid in a larger manner than those excelling in what is considered by many to be the more practical studies of law and medicine. This is done because of the belief prevailing that the classic students become more valuable to their nation in sponsoring friendships between nations.

Mrs. Norman McLeod provided the musical treat at the meeting, singing two lovely numbers. She was accompanied by Mrs. Evie Dozier.

FIRST STEP TAKEN IN GREATER WAPI MOVE BY LEADERS

50,000-Watt Power To Be
Asked For Local Station
By Its Directors

Dec 8-29
The first step toward making Radio Station WAPI in Birmingham a 50,000-watt station was taken by the board of directors at a meeting Saturday when application to the Federal Radio Commission asking for construction permit for station of this power was signed. The station now operates on a power of 5,000 watts.

The application will request immediate action. At present no station in the South has as much power as WAPI is requesting, but more than a dozen in other sections are either operating on this power or have permit to do so. One or two other Southern stations are contemplating an increase to this power which is the maximum of equipment being manufactured.

Station WAPI is owned by the Alabama Polytechnic Institute, the University of Alabama, and Alabama College at Montevallo. It is operated by the owners in cooperation with the city of Birmingham. The board is composed of Dr. Bradford Knapp, A. P. I., president; Dr. George H. Denny, University of Alabama, president, and Dr. O. C. Carmichael, Alabama College, president. Each signed the application.

This increase is in line with aims of the board to make WAPI the outstanding radio broadcasting station in the South. With power of 50,000 watts WAPI will have adequate strength to cover all of Alabama and most of the adjoining states during the day.

In recommending to the board the increase in power, P. O. Davis, general manager, and Walter N. Campbell, manager, explained that adequate power is absolutely necessary for satisfactory reception. The topography of Alabama is such, it was explained, that more power is needed for state coverage than other states having natural conditions more favorable to radio broadcasting.

Station WAPI is now nearing the end of its first year as a Birmingham institution. The initial program was broadcast the last night of 1928.

The original WAPI was installed at Auburn in 1922. It was a small station which was presented to the Alabama Polytechnic Institute by Victor H. Hanson during the "Greater Auburn" drive. Later Station WSY in Birmingham was presented to Auburn by the Alabama Power Company.

This station was dismantled and moved to Auburn, where it was used until replaced by the new 1,000-watt station which was operated at Auburn until it was decided to move WAPI to Birmingham and make it a superpower station, in cooperation with the city of Birmingham.

Later the University of Alabama and Alabama College came into ownership and operation of the station, main studios of which are in the Protective Life Building.

The Alabama plan of owning and operating a superpower radio station is said by experts to be ideal. It has attracted national attention and favorable comment. The plan of cooperation makes it feasible to increase the power to 50,000 watts when permit is granted by the Federal Radio Commission. Several months will be required to install equipment. Little

24 Lovely Bride, Whose Wedding Was a Noon Event Saturday

—Photo By McGill

MRS. WILLIAM EMORY AKRIDGE, JR.

who as Frances Sayner is one of the lovely society girls of Mobile to join the ranks of the young married contingent, her wedding on Saturday being an event of high noon quietly solemnized at Christ church and eliciting interest in a wide circle of friends of the couple.

Mrs. Akridge attended school at Montevallo for four years, majoring in English and dramatic art, and since that time has been on the staff of teachers of the public schools. Friends will be glad to know that their home will be in Mobile, Mr. Akridge having a position with the First National bank as a teller.

Miss Sayner Made Bride Saturday Of Mr. Akridge

Christ church has been the scene of two very lovely weddings this week, with two of Mobile's popular society girls in the role of brides, the last to fill this role being Frances Elizabeth Sayner, whose marriage to Mr. William Emory Akridge, Jr., was a quiet and impressive nuptial event of Saturday noon.

Palms, ferns and yellow chrysanthemums gave a bright setting to the chancel, and this brightness was accentuated with the lovely music which filled the sacred edifice prior to the arrival of the bridal party. Mr. J. Clarendon McClure, organist of the church, playing several appropriate selections, and Mrs. Williams singing "The Sweetest Story Ever Told" and "O Promise Me." As the notes of the bridal chorus from Lohengrin sounded the bride entered the church on the arm of her father, Mr. Frank L. Sayner, preceded by her only attendant, Miss Jessie Miles of Chicago. The groom and his best man, his brother, Fritz Akridge, awaited their coming at the foot of the chancel, and there the sacred words which made them one were spoken by Rev. R. H. Kirchoff, rector of the church.

The pretty coloring of Miss Sayner, who is a lovely girl, was enhanced by her dress of transparent velvet in the dahlia shade with a touch of orchid, with which she wore a small velvet hat in the dahlia shade and carried a bouquet of yellow tea roses showered with lilies of the valley.

Miss Miles was most attractive in a dress of brown transparent velvet, with which she wore a brown velvet hat, her bouquet of yellow chrysanthemums being in perfect harmony. Following the ceremony Mr. Akridge and his bride left for a trip down on the coast where they will spend a week, and upon their return to the city will be at home with the groom's parents, Mr. and Mrs. W. E. Akridge, 273 Park Terrace.

The bride, who is a most talented girl, has put her talents to use by teaching for the past two years at Plateau, where she will continue until the closing of school next June. Her popularity has been expressed not only in the many beautiful attentions in the way of parties which have made her one of the most feted of fall brides, but in the many handsome wedding presents received, the groom sharing in her popularity as one of the handsomest gifts from the employees of the First National bank, where Mr. Akridge counts himself as an employee.

As there was no reception after the ceremony Saturday, Mr. and Mrs. Sayner entertained at an after rehearsal party on Friday night at their home in compliment to their daughter, Frances Sayner, and her bridal party, the guests including members of the two families.

During the evening a delicious plate supper was served, and the bride had the pleasure of cutting the bride cake which was a pretty heart-shaped one, the table upon which it rested having for its floral beautifiers yellow chrysanthemums.

PREP 'PLAY DAY' FOR HIGH SCHOOL GIRLS REVEALED

Alabama Field Meet Will Be
Held at Montevallo in April,
Chiefs Announce

Special To The Register

MONTEVALLO, Ala., Jan. 11. — At a conference here this week of representatives of the girls' division of the State Athletic association of the department of physical and health education of the state department of education and of Alabama college plans were made for the eighth annual inter-high school meet for girls to be held at Alabama college April 17-19, one of the chief features of which will be the first state-wide "play-day" for high school girls, in keeping with a recommendation made by the central board of the State Athletic association last fall.

Participation in the meet will be based on the winning of school and state letters, under the point system adopted by the athletic association in the spring of 1928 for junior and senior high schools. This system has been approved by the department of physical and health education of the state department of education and adopted by the state text book commission as part of the program of physical and health education for high school girls.

Each individual who registers for participation in the meet is required to make application for a state letter, which is issued by the secretary of the State Athletic association, Sellers Stough of Birmingham.

According to Miss Sellers, chairman of the committee, the most comprehensive program of sports for girls of the state ever to be put over in a three day meet is being worked out. It will include basketball, baseball, batball, volleyball, tennis, track meet, individual and group stunts, she announced. Many social features will be provided, also.

There are some girls who will make good no matter where you put them, and the fact that Nathalie Molton carried off all the honors as a high school student, being an outstanding leader in everything in the Mobile High school, and that she is repeating at Montevallo, where she will receive her A. B. degree in the spring from Alabama college, doesn't surprise us one bit. During her four years at this college she has been a leader in campus activities, and as president of the Student Government Association (the highest office on the campus), she has made an outstanding record for courage, honesty and fair-mindedness. She is majoring in English and foreign languages, a continuation of her high school course here, where for three years she was a member of the student council; was president of the National Honor Society, and was girl representative for two years, having served as editor of the Bartonian (Mobile Hi Times) in her junior year.

At the recent annual student federation meeting held at Stanford university, California, which she attended as president of the Student Self Government Association in the Alabama college, she gave an interview upon her return from the conference, and among other things said: "I was impressed with what seemed to be two facts, the much larger part which rules and regulations play

in the lives of women students as compared with men students, and the number of small colleges for women reporting faculty-student friction. This problem, in almost every case, seemed to center around a feeling on the part of students that the faculty seeks to gain and keep an 'upper hand,' and a general student resentment of what they construe to be that attitude on the part of faculty."

Offering a personal opinion, Miss Molton expressed the belief that the very term "student self government" may in itself present a barrier to a happy solution of this problem.

"There seems to be little or no problem of student government in the bigger colleges and universities," she added. "At Stanford university, for instance, where student government is absolute, there seemed to be no problem. The authorities there claimed that if in the judgment of the student body one of their number deserves to be 'kicked out,' they simply do the job, and there's an end to it!"

The problem of smoking among women students, which Miss Molton admitted that she had expected to have come up for a large share of controversial discussion, was touched upon only incidentally. "It seems," she stated, "that the solution of that problem has already been reached in practically all of the schools, except the smaller colleges of the south, simply by making provision for it."

In practically all of the large colleges and universities, even in many of those in the south, Miss Molton added, according to the discussion of delegates present at the conference, smoking on the part of women is permitted. In most of them, however, smoking in public assembly rooms is barred, and generally a regular smoking room is provided. Alabama college students ban smoking.

The president of the girls' division at Stanford university was quoted as having said: "There's absolutely no difference here, except that the girls wear dresses and the boys wear trousers! Girls are made to feel just as much responsibility as are the boys for campus activities, and they participate just as freely in them, if they wish to do so."

THEATER OPENING SET FOR COLLEGE

Birmingham Girls Have Part In Initial Offering, Old English Play

MONTEVALLO, Ala., Oct. 19.—An address by President Carmichael preceding the dramatic offering will mark formal opening of Alabama College Theater next Friday night. An all-student cast will be presented in "Gammer Gurton's Needle," under direction of Dr. Walter H. Trumbauer, professor of dramatic literature and director of the theater.

The cast will include Misses Florence Stevens and Annie Bledsoe, of Birmingham. All stage settings and costumes will be created under direction of Misses Mary Gloster and Josephine Coble, Birmingham students.

"Gammer Gurton's Needle" is the oldest native English comedy extant. It was written by a university student between 1850 and 1853 and produced first at Cambridge University.

Although authorship of the play is disputed by some, Dr. Trumbauer stated, it is generally thought to be the work of William Stevenson, who was an M. A. student at Cambridge in 1853 and twice a fellow at Christ's College.

The complete cast in order of appearance includes the following students: Prologue, Miss Mary L. Russell, Oxford; "Diccon," Miss Florence Stevens, Birmingham; "Gammer Gurton," Miss Lella Ford, Hartford; "Hodge" her man, Miss Helen Mahler, Loxley; "Tybe" her maid, Miss Christine Purefoy, Furman; "Cocke" her boy, Miss Louise White, Marion; "Dame Chatte," Miss Inamurl Smith, Anniston; "Doll" her maid, Miss Annie Bledsoe, Birmingham; "Doctor Rat" the curate, Miss Evelyn Leak, Bay Minette; "Bayly," Miss Floyd Griffin, Montevallo; "Scapethrift" his servant, Miss Winnie M. Three distinct types of plays will be offered by the college theater during the year, Dr. Trumbauer stated.

Next after the old English comedy on Friday evening will be "Beggars on Horseback," an impressionistic play. Later, a Greek play will be presented.

Not only will the three types of plays offer a variety of subject matter and a wider scope for talent in acting but they were chosen as well with a view to developing skill in costume design and stagecraft. All costumes and stage settings for the three plays will be produced by members of the classes in costume design.

Faculty Members Join Students In Snowball Frolic

MONTVALLO, ALA., Jan. 30.—(Special).—A thousand school girls, counting faculty and officers who had slipped back to their "teens," played delightedly over a snow-covered campus at Alabama College Wednesday. Fun and laughter prevailed everywhere, while snowballs flew past or burst against one's slicker.

Many of the students, particularly those from the Southern part of the State, had never seen "so much snow." Some of them, in fact, had never seen any.

Despite a heavy rainfall the day before, snow, which began during the night, had by nightfall Wednesday piled up a carpet of approximately four inches.

The campus, with its full growth of trees and shrubbery and its massive

buildings, presented a delightful picture against the snow.

"Snow men," some of them really sculptural achievements, sprang up everywhere to add to the enjoyment of the landscape.

MONTEVALLO, Ala., Jan. 11.—At a conference here of representatives of the girls' division of the State Athletic Association, of the department of physical and health education of the State Department of Education, and of Alabama College, plans were made for the eighth annual inter-high school meet for girls, at Alabama College April 17-19, one of the chief features of which will be the first statewide "Play Day" for high school girls, in keeping with a recommendation made by the central board of the State Athletic Association last Fall.

Participation in the meet will be based on the winning of school and state letters under the point system adopted by the athletic association in the Spring of 1928 for junior and senior high schools. This system has been approved by the department of physical and health education of the State Department of Education, and adopted by the State Text Book Commission as part of the program of physical and health education for high school girls.

Each individual who registers for participation is required to make application for a state letter, which is issued by the secretary of the State Athletic Association, Sellers Stough, of Birmingham.

Committee Personnel

Members of the committee charged with working out the details of the program for the three-day event are Miss Minnie Sellers, secretary of the girls' division of the State Athletic Association, and supervisor of physical and health education for Chambers County; Miss Ethel Dorgan, supervisor of physical and health education for Mobile schools; Miss Lee Ola Dewberry, head of the physical education department of Phillips High School, Birmingham; Miss Jessie R. The feature of competition will be on the basis of color teams, into which participants in the meet will be divided at the opening. Individual members of the color team winning the highest number of points will receive an award.

Other competitive features which have made the high school meet of interest to high school students each year and of value to high school teachers will be conducted again this year.

These contests will include fields of home economics, music, art, speech, and dramatic production, with prizes to individual and school winners.

Persons prominent in their respective fields will be asked to serve as judges.

It has been planned, also, to extend an invitation to all physical education teachers of the state, as well as principals and superintendents of the high schools.

Student And Faculty Relationships 32 Discussed At Federation Session

Head Of Southern Association Tells Of Visit To Meeting On The West Coast

MONTEVALLO, Ala., Jan. 18.—The problem of faculty-student relationships, and what part each must play in government on the campus, were among the most vital and representative of those discussed at the annual student federation meeting held recently at Leland-Stanford University, Miss Nathalie Molton, of Mobile, president of the Student Self-Government Association at Alabama College, stated in an interview upon her return.

The general opinion of the delegates who attended, she said, delegates representing every state in the union and every type of institution from the small college exclusively for boys or for girls, to the largest coeducational colleges and universities of the country—seemed to favor, as a solution, a cooperative system to be set up on each campus, under which the faculty would at all times be fully aware of and have a thorough understanding of what students are thinking and of how they are trying to translate their thinking into terms of constructive activity and responsible citizenship; but under which the matter of regulations would be the responsibility of the student body. Under such a system, the faculty would be expected to assist with helpful suggestions, acting in a sympathetic, advisory capacity.

Reason For Friction

"In general," Miss Molton stated, "the matter of campus government seems to hold two sources of friction, that between members of the student government board and members of the student body at large, and that between students and faculty."

No actual solution was offered for eliminating friction between students themselves, she said, but it was generally felt among representatives present that the creation of more opportunities for social and other unofficial contacts between members of the student government board and the student body might serve to promote a spirit of true understanding, thereby lightening the problem.

"I was impressed with what seemed to be two facts," Miss Molton continued, "the much larger part which rules and regulations play in the lives of women students as compared with men students and the number of small colleges for women reporting faculty-student friction."

This problem, in almost every case, it was stated, seemed to center around a feeling on the part of students that the faculty wished to gain and keep the "upper hand," and a general student resentment of what they construe to be that attitude on the part of the faculty.

Term Misleading

Offering a personal opinion, Miss Molton expressed the belief that the very term, "student self government," may in itself present a barrier to a happy solution of this problem. She feels that if some substitution could be made, that if the campus government organization were given a name which carries with it a suggestion of cooperative and mutually dependent relations, a solution might be reached more quickly.

"There seems to be little or no problem of student government in the larger colleges and universities," Miss Molton added, "and the tendency there is more and more toward a shouldering by the students themselves of the responsibility for campus conduct."

At Stanford University, for instance, where student government is absolute, there seemed to be no prob-

lem. The authorities there claimed that if in the judgment of the student body one of their number deserves to be "kicked out," they simply do the job, and there's an end to it.

The problem of smoking in women's colleges, which Miss Molton admitted she had expected would come up for a large share of controversial discussion, played a minor role in the conference.

Solution Reached

"It seems," she stated, "that the solution of that problem has already been reached in practically all of the schools, except the smaller colleges of the South, simply by making provision for it."

In practically all of large colleges and universities, even in many of those in the South, according to the discussion of delegates present at the conference, smoking on the part of women students is permitted and thought nothing of. In most of them, however, smoking in public assembly rooms is barred and usually special rooms are designated.

"Another surprise which greeted me," Miss Molton stated, "was to learn that, contrary to a generally accepted theory, in many of the large coeducational colleges, women students do not seem to feel any handicap of being barred from an equal share in campus activities."

The president of the girls' division at Stanford University, for instance, was quoted as having said: "There's absolutely no difference here, except that girls wear dresses and the boys wear trousers. Girls are made to feel just as much responsibility as are the boys for campus activities, and they participate just as freely in them, if they wish to do so."

Delegates Mature

Speaking of her impressions of the delegates as a whole, Miss Molton admitted another revelation, that of finding an "atmosphere" of "maturity," an "air of ability to do things," about the students representing Western sections which she said does not seem to characterize the Southern student.

"I actually envied those Western and Eastern students their ability to get upon their feet and express themselves clearly about current campus problems, and, in nearly every instance, to show that they had already thought out some sort of a solution," she stated.

She attributed this to the fact that Southern students have been more shielded, given less opportunity to be "put on their own" and for the necessity for the development of these qualities which just naturally comes in a large institution.

One of the most inspirational features of the conference, according to Miss Molton, was an address by George Creel, who served under President Wilson as chairman of public information during the World War.

Mr. Creel pointed out the responsibility resting upon the editors of student publications, made more important because of the exchange with other colleges.

Foolish Expressions

Foolish opinions, expressed oftentimes by a student who is "peevish" about something at the moment of writing, or by one who tries merely to present a ridiculous phase of a situation well understood locally, may find their way back to the campus, through the medium of the college exchange list, bearing an entirely different interpretation, Mr. Creel warned the delegates.

Summing up the constructive achievements of the National Student Federation of America, Miss Molton emphasized the work of "world fellowship" sponsored by the group. This is an attempt to bring to America students from other lands, and,

MISS NATHALIE MOLTON

through specially conducted tours, to acquaint them with the best in American college life; likewise, a visitation by American students to foreign countries for a similar purpose.

During the last year, 25 students from South Africa, alone, were brought to America under auspices of the N. S. F. A., as well as numbers from other countries.

During the recent convention in California, a prominent business man of Los Angeles offered \$30,000 conditionally, for promotion of this work.

The conference itself voted a contribution of 2 cents per capita for students of the colleges comprising the membership of the N. S. F. A. as its budget for this item during this year.

CARMICHAEL REPORT IS GIVEN TO BOARD

Outlines To Trustees Progress Made In Four Years By Montevallo School

MONTEVALLO, ALA., Oct. 10.—(Special)—In his report to the Board of Trustees of Alabama College at a meeting here Friday, President O. C. Carmichael summarized the achievements of the institution during the past four years.

Sketching the changes in the physical plant as evidenced by building expansion, improved appearance of the campus by the transfer of buildings and the paving of the property adjacent to the college, the repair and re-decoration of buildings, President Carmichael passed quickly to what he termed the "real changes and development" of the college within the past quadrennium.

"The development of the organization of the college, the increase in the services offered, the broadening of the curriculum, and the additions to the faculty constitute the real measure of its growth as an educational institution," he declared.

The following new services were pointed to as features developed over the period: Library Science, raising of the curriculum of the secretarial course to four years; home study service; a four year course in sociology and social service, and the introduction this year of parent education courses.

Of the present faculty of 75, an increase of 20 since the beginning of the quadrennium, 16 hold the Ph.D. degree and 42 the M.A.

The report carried a table showing the growth in the number of persons served by the courses offered in regular session, Summer School, extension service and the training school during the quadrennium, from 1904 in 1926-27 to 2822 in 1930-31.

"One of the gratifying evidences of the development of the college as an educational institution," President Carmichael pointed out, "is the recognition given at by outside agencies." Columbia University

University of Wisconsin, the University of Illinois, and others of the more important institutions now accept, as face value, the degrees granted by Alabama College.

Stressing the need for broadening the curriculum to include phases of graduate study, President Carmichael submitted a list of approximately 100 graduates who have entered higher institutions for advanced study within the past two years.

Among the maintenance items for which increased appropriation was sought are the Summer school, extension, and research on problems of home and family life.

A building budget of \$845,000 for the next quadrennium was submitted in detailed form and filed with the budget commission.

The meeting was presided over by J. B. Ellis, of Birmingham, in the absence of Gov. Graves.

Those present were A. F. Harman, State Superintendent of Education; Alto V. Lee, Gadsden; Mrs. W. B. Peebles, Aliceville; Mrs. J. Brevard Jones, Montgomery; W. D. Graves, Alexander City; J. E. Deloney, Tusculum; Judge William H. Tayloe, Uniontown; W. B. Oliver, Tuscaloosa; L. Sevier, Birmingham; J. B. Ellis, Birmingham; E. H. Wills, Montevallo, secretary to the Board; and President O. C. Carmichael.

Spontaneous Revue

This series, which brought into play all the artistic talent and creative genius on the campus to devise posters, costumes, and stage settings, and the 11th series in the history of Alabama College, was dedicated to the fathers and mothers of past, present and future students at the institution. To every father and mother of the present students, printed invitations to be present had been sent. Many hundreds of them accepted, and occupied a prominent tier of seats in the center of the orchestra pit reserved especially for them.

The toasts of dedication which summed up the best traditions, the highest aspirations in all that Alabama College stands for, and the part which the fathers and the mothers of its students have played in this development, were offered by Miss Virginia Alsobrook, of LaGrange, Ga., for the "Purples," and Miss Helen Mahler, of Loxley, for the "Golds."

"Golds" Are Winners

Based on a decision which took into consideration originality, variety, beauty, and the number of characters used, a decision in which points scored high on both sides, Mrs. J. Brevard Jones, of Montgomery, a trustee of the College; Mrs. Carolyn Engsfeldt, of the Birmingham Public Library and Judge E. S. Lyman, a prominent citizen of Montevallo, acting as a body of judges, who had been chosen by the student body, brought in a verdict at the conclusion of the program which favored the "Golds" by a narrow margin.

The program opened with a brief word of welcome by Miss Nathalie Molton, of Mobile, president of the Student Government Association, who also presented the leaders and the assistant leaders of the contesting sides: Miss Janet Wilson, Montgomery, "Purple" leader; Miss Mabel Peters, Selma, assistant; Miss Florence Stevens, Birmingham, "Gold" leader and Miss Dora Little, Mobile, assistant.

A drawing for the first presentation fell to the "Purples," who led out with a "medium" song, in which memories of college days were burned into the heart of every person present. The words were contributed by Miss Mabel Peters and the music by Miss Belle McCall Hart, both students from Selma.

The "Golds" answered the challenge with their "medium" song, written by Miss Elizabeth Counselman, Fosters Falls, Va., and set to music by Misses Dorothy Stallworth, of Beatrice and Martha Murphree, of Gadsden. In this, 400 voices joined to pay tender vows of love and loyalty to Alabama College.

Each side alternated between numbers with other songs, words and music of student origin, and characterized as "slow" and "pep" songs.

With the battle thus launched, and in an effective setting devised by Misses Eleanor Garrett, Dadeville and Annie

The "Gold" stunt was in the form of a spontaneous revue, entitled "Around the World with Plenty of Gold," based on the reflection that while there may be nothing new under the sun, gold is the key to the land of desire. The stage setting for this number, arranged by Miss Mary Graham Gloster, of Birmingham, stage manager for the college theater was especially effective, with a huge tier of steps used as the background.

In a series of costume dances and clever song numbers, the "Golds" in their stunt presented Dutch, English, Spanish, American and many other folk features, modified to suit their own ideas of college entertainment.

Two features which attracted attention and scored high in the contest for the "Golds" were the formation spelling of the world "gold," and the stage setting done without curtain, to let the audience see how it is done. The "Gold" impersonation was an adaptation of the Arthurian legend of the search for the Holy Grail, in blank verse, the work of Miss Mary Little, of Mobile. This number received favorable comment and applause for its literary beauty.

Program Is Praised

The program itself, the stage settings, and the costume effects, according to

One mother who is glowing with pride over the record of her daughter, Mary, at Montevallo, is Clara Ross Little and Mary Little, who is the second daughter of Mr. and Mrs. Con Little, is sending a sweet thought back to mother today, and is happy that she is making such a record at Alabama college (her second year there) that is the source of such gratification to her parents.

Mary Little is not only exceedingly bright, but is good to look at, and along with her brightness possesses that greatest of all assets—modesty—in this more or less bluffing, bragdopia age. Mary is majoring in English and art, and is working for a B. A. degree, and

that she is progressing finely in her college work is evidenced in "The Alabamian," the college monthly, she being president of the Scribblers' club, which club always issues the April number, and being also art editor for the club, it was up to her to furnish the cover for the April number, which she did in her most artistic style. In this number there are seven contributions from her pen. Some humorous, some tender and some

One little verse, "The Last Word," is real cute:

All my life
I'll pay back life
By breaking things.
And for my ways,
All my days,
I'll pay back life
For breaking things.

top, as I do not know the further pleasures in store for her before she turns her face homeward.

It is a strange coincidence that warm friends and neighbors are making a trip in May to see the children that are dear to their hearts at the closing of their school careers, for just as Mrs. Croom has gone far away to see her son, Mrs. C. B. Percy is motoring up to Montevallo the end of this week to be present when her attractive young niece, Fannie Stollenwerck, receives her B. S. degree. Fannie, who is named for her grandmother, the late Mrs. Stollenwerck, is the only daughter of the Frank Stollenwercks, and those living around Washington Square, which neighborhood has produced so many bright young students, are much interested in Fannie's course which she has been taking at Alabama college.

After graduating at Murphy High school (in the first class which graduated from the new Mobile school), she went to Montevallo, and for four years has been pursuing her studies at Alabama college, where she has been taking a teacher's course in physical education, and will graduate on May 26, anticipating on that date receiving her degree. Each year she has been at college she has had some honor bestowed upon her, and in her senior year she has served as president of the athletic board. Being of a very ath-

letic turn of mind, and an expert tennis player, I chose to show you her picture in tennis garb, and don't you think she is lovely? She also has in her keeping a lifesaving medal (being possessed of fine aquatic tendencies) which she treasures very much.

Fannie's youngest brother, Fleetwood Stollenwerck, and his wife, Ruth Holt Stollenwerck, are motoring up with their aunt, Mrs. Percy, next Saturday, May 24, going early to Montevallo so as to reach there in time for commencement on the May 26, and on their return they will bring Fannie back to Mobile with them. After her visit home she goes as counsellor to the Y. W. C. A. camp, Grandview, near Montgomery, of which camp Margaret Grayson is director, and after her summer there the fall will take care of itself in work for this ambitious and very bright young girl, whose family and Mobile friends are sincerely hoping that her lot will be cast amongst them here in her childhood home.

Nathalie Molton Given Shower and Bunco Party

A pretty compliment from the retiring president of the A. B. L. S. to the new president, and one of the charming fall brides-elect, was the bunco party and Fostria shower at which Mrs. A. A. Davidson entertained last evening at her home at 6 o'clock in compliment to Miss Nathalie Molton.

The hostess, choosing pink and white for her color tone, developed it in the decorations of her rooms with summer flowers; in the pink and white mints on the tables during the games and in the ice course, and cakes which were served on trays abloom with pink roses.

There were three tables of participants in the game and after a pretty silver compact had been awarded to the one scoring highest, and a bud vase as booby prize, Miss Molton was started on a treasure hunt, and what was her surprise on following her clue to find a treasure hidden in the dining room which disclosed to her view a shower of lovely Fostria glassware.

Those who with the hostess were invited to spring this surprise on her, most of them being members of the executive board of the A. B. L. S. were Misses Alta Scott, Ruth Stephens, Gracie Mae De Vaughn, Gladys Brown, Alice Dyas, May Gaston, Maude Clark, Carrie Bright, Aline Bright, Mrs. Arnfinn Anderson, Mrs. Carl Gilbert and the bride's mother, Mrs. Nathan Molton.

Gibbons-Molton

Marriage Takes Place—

The following taken from a Mobile exchange, is of interest in Montgomery, where the bride, Mrs. Samuel Ray Gibbons, who was Miss Nathalie Molton, has visited her uncle and aunt, Mr. and Mrs. T. L. Head, many times:

One of the loveliest of the Summer weddings took place Tuesday at 4 p.m. when Miss Nathalie Molton became the bride of Samuel Roy Gibbons, the pretty event taking place at the home of Miss Molton on Catherine Street.

The home was beautiful with its decorations of palms, ferns, pink roses and gladioli, which also formed an improvised altar. The prie dieu was draped with a lovely white lace shawl. Dr. C. B. Arendall performed the ceremony in the presence of a few close friends and relatives.

The young couple had as their only attendants Miss Margaret Reaves from Montevallo and Warren Cheatham of Birmingham. Miss Reaves wore a becoming afternoon dress of pink net, fashioned in the long lines, with which she wore elbow-length gloves and other accessories to harmonize. Her arm bouquet was of long-stemmed pink roses.

Miss Molton made a lovely bride in her gown of white satin, fashioned in the

princess style and wearing white satin slippers and white gloves. Her veil of illusion formed a train, and was caught about the head cap-effect with orange blossoms. She carried a bridal bouquet of white roses showered with lilies of the valley.

Out-of-town guests at the wedding were: Mrs. W. R. King, mother of the groom, from Prattville; Warren Cheatham, of Birmingham and Miss Margaret Reaves of Montevallo.

Mrs. Gibbons is the only daughter of Mr. and Mrs. N. A. Molton and received her A. B. degree from Alabama College at Montevallo this Spring. During her senior year she served as president of the student government, which is the highest honor to be conferred upon a student. She is also a member of the Chi Delta Phi and appa Delta Pi sororities, both honorary societies.

Lovely Wedding of Miss Molton and Mr. S. L. Gibbons

A romance that began more than three years ago when Nathalie Molton was still a school girl attending the Woman's college at Montevallo from which she graduated last June and Samuel Ray Gibbons, who had been located in Mobile for more than a year, having graduated from Auburn, culminated in a sweet and impressive wedding Tuesday afternoon when in the home of her parents Mr. and Mrs. N. A. Molton, they plighted their troth, the marriage being quietly solemnized in the presence of the relatives and a few close friends.

Pink roses, palms and ferns gave a pretty setting to the reception hall living and dining rooms, which were turned into one, an improvised altar being erected against a background of palms, and decorated with pink roses.

As the notes of the bridal chorus from Lohengrin sounded, played by Mrs. Charles Clark on the piano, the bride's cousin and her only attendant, Miss Margaret Reaves, entered the room of ceremony, followed by the bride, who was joined in front of the altar by the groom and his best man, Mr. Warren Cheatham, of Birmingham, and there the ceremony was performed by Dr. C. B. Arendall, pastor of the Dauphin Way Baptist church.

Miss Molton in her wedding dress of white satin and lace made as lovely a bride as one could picture her pretty face being framed in a cap of lace from which fell a veil of illusion confined at the side and back with orange blossoms and forming a train in the back, her bridal attire being complete with her bouquet of bride's roses showered with valley lilies.

Miss Reaves' pretty brunette coloring showed off to advantage in her becoming dress of pink net, her bouquet being of pink roses.

Immediately following the ceremony the young couple left in their car for a motor trip along the eastern coast, the bride traveling in a becoming coat suit of blue with hat and accessories to match, and upon their return to the city in two weeks will go to housekeeping in an apartment in Flo Claire, which will be adorned with many lovely wedding presents from friends, the groom who is a Prattville boy, having made many friends during his four years' residence here, while the bride having spent many of the past years at the Woman's college in Montevallo, is popular with a large circle of friends.

Out-of-town guests present at the wedding was the groom's mother Mrs. W. R. King, of Prattville, Miss.; Miss Margaret Reaves of Montevallo and Mrs. Warren Cheatham of Birmingham.

Mr. Gibbons is the only son of Mrs. W. R. King of Prattville. He is a graduate of the Alabama Polytechnic Institute at Auburn, from which college he received his B. S. degree. Mr. Gibbons is a member of several honorary fraternities among them being the Phi Kappa Phi, Gamma Sigma Delta and the Wilkesonian Literary fraternity.

When Term Begins

MONTEVALLO, Ala., Aug. 30—Registration at Montevallo College for the 1930-31 year already have surpassed any previous year in the history of the institution, according to tabulations made by the registrar's office. At least 950 students will be enrolled when classes begin Sept. 10, it is believed.

Many courses will be extended or enlarged with the view of more thoroughly covering the subjects of instruction.

Elaborate plans have been made for freshmen orientation ceremonies at Montevallo College this year and it is believed the new arrivals will feel more at home in a shorter time than have any of their predecessors.

Spurgeon, famous minister, Dr. Clark reminded his audience that any person who does worthwhile things in this world "must learn to swallow fagots crosswise." He urged that while in college students learn to live above idle talk, to take ridicule and ingratitude, and to meet failure courageously.

The speaker was introduced by Miss Eleanor Yost, of Talladega, Baptist student leader at Alabama College.

Following his address to the student Y. W. C. A., Dr. Clark filled an evening engagement at the Montevallo Baptist Church.

SCHOLARSHIP OF NEWS GIVEN TO WOODLAWN GIRL

Left Orphan In Childhood, Befriended By Two Local Women, Alabama College Choice Proves Scholar

Glowing with happiness, Miss Dorothy Margaret Blackwell, 16, of Woodlawn, when notified Monday that she was recipient of a four-year Birmingham News Scholarship to Alabama College, gave all praise to those who have helped in her preliminary education, reserving no credit for her own noteworthy achievements.

A dependent since the death of her parents in the 1919 influenza epidemic, Miss Blackwell has been under the patronage of Miss Ella Charlis, secretary of the Church of the Advent, since she started to high school three years ago. Funds for her high school tuition, she said, were furnished by Mrs. Robert Jemison, Jr. Everything that she has done and ever will do, she declared, is due to the efforts of these women who have taken a more than motherly interest in her and her welfare.

No Mark Below 95

Miss Blackwell during the time she has been attending grammar and high school, has made no mark below 95.

She finished grammar school in six years instead of the usual eight years required. Her high school diploma was obtained in three years.

While in high school at Sewanee, Tenn., she was elected president of the freshman class, vice president of the junior class, vice president of the sophomore class, president of the student council, and earned the school athletic letter in basket ball, baseball and stunts. She also was a member of the school dramatic club, an associate of the athletic council and a member of the St. Mary's Guild.

The first two years of her high school work was spent in Sewanee, the remaining period being spent at Ensley High School and Phillips High School, of Birmingham.

Selection Announced

Announcement of the selection of Miss Blackwell was made by President O. C. Carmichael. Dr. Carmichael, recommending Miss Blackwell for first consideration, in the letter which is published below, also makes a plea that gifts of \$100 each be donated 10 unsuccessful, though unusually worthy, applicants.

The Birmingham News Scholarship to University of Alabama was awarded Sam S. Murphy, Jr., of Mobile. Winners at Howard College, Birmingham-Southern and Auburn Polytechnic Institute are scheduled for selection within the next 10 days.

Dr. Carmichael's letter in full follows:

"After two weeks of very careful study of the 79 applications for The Birmingham News Scholarship to Alabama College, I wish to nominate Miss Dorothy Blackwell, of Birmingham, for the 1930 award. For second and third choices I would nominate Miss Frances McPherson, Cullman, and Miss Margaret McElroy, Cuba.

"Miss Blackwell lost both her father and mother in the influenza epidemic at the age of 4 years. She has lived with her grandmother, at the Episcopal Orphanage in Mobile, with an aunt in Birmingham, and later spent three years at St. Mary's, Sewanee, doing high school work. She has made an unusually strong record at St. Mary's and a good record at the Ensley High School in Birmingham. She is styled a 'model student,' ambitious, hard working, and with unusual capacity. "Because of her absolute dependence on outside aid, having neither father nor mother, and because of her splendid attitude and ability as a student, and because of the possibilities of future leadership, the committee has chosen Miss Blackwell out of the group of 79.

Second Choice

"The second choice—Miss Frances McPherson — was the highest in scholarship in a class of 62 at the Cullman High School. She made an outstanding record as a student under great handicaps. She had to go 22 miles to school throughout her high school career. Her capacity, her worthiness, and her possibilities of leadership all combine to make it little short of a tragedy if she should be denied the opportunity of further training. She is wholly unable to go to college without outside aid.

"The third choice—Miss Margaret McElroy — has also a very high scholarship record, and besides that is a most talented young woman. She was valedictorian of her class and class musician. She won a medal in piano in city contest at Meridian, Miss., the violin scholarship at the inter-high school meet at Montevallo in 1930, and the alumna scholarship medal at her school. Few students with more talent could be found in Alabama. It is impossible for her to go to college without help. Surely the money invested in a college education for such a talented and worthy young

Exchange Backs Building Program For Montevallo

MONTEVALLO, Ala., Sept. 19. — At its regular bi-monthly meeting Thursday, the Montevallo Exchange Club endorsed a building expansion program for the town, and took steps to cooperate with the Town Council in launching the plan.

Dr. O. C. Carmichael, president of the Alabama College, in discussing the movement said a building program was Montevallo's greatest need.

MONTEVALLO HAS EXPANSION PLANS Alabama College Will Add To Department Of Secretarial Science This Year

MONTEVALLO, Ala., Aug. 20. — Expansion plans for the department of secretarial science at Alabama College for 1930-31 have been announced by President Carmichael with return of Miss Lelah Brownfield to her position as department head after a year's leave of absence to complete requirements for the master's degree at New York University.

The department of secretarial science is one of the charter departments established at Alabama College and has been among the most popular. Since its establishment on a college level in 1923-24, it has grown from an enrollment of 20 major students in 1924 to 79 in 1930.

Plans for expansion this year, as announced by President Carmichael, include courses on the four-year scale for prospective teachers of commercial science in the high schools of the state. This training has been delegated to Alabama College by the State Department of Education.

There will be a continuation, also, of the two-year courses designed to train for positions as private secretaries and general office workers.

Aside from the principles of shorthand, typing, accounting and general office practice offered in the two-year basic courses, however, the department will offer this year courses in accounting and secretarial practice of an advanced nature, with business law, industrial history, economics, commercial geography and statistics, leading to the B. S. degree. These courses are designed to train for advanced business positions, as well as for teachers of commercial subjects.

Miss Brownfield will be assisted in the department by Mrs. Luella Grisom, college executive secretary and E. H. Wills, business manager, who holds a master's degree from Cornell University.

One of the interesting features of state-wide work conducted through the department annually is the typing contest, sponsored by the commercial section of the Alabama Education Association, with special awards.

Students in the department maintain a professional club, organized in 1924, to further interest in the department and to promote general professional proficiency. Officers for 1930-31 are Misses Mary Pow, Woodward, president; Ellen Griffin, Carrollton, vice president; Lorine Kirk, Gordo, secretary, and Elizabeth Veitch, Bessemer, treasurer.

woman would bring returns many fold.

"After naming these three, we would not forget to call attention to the unusual worthiness of the majority of the other 76 applicants for the scholarship. At least 10 others show the highest qualities and are most deserving of help.

Challenge 25 Men

"I would like to challenge 25 men and women in Alabama to contribute \$10 each towards the education of 10 young women, the records of whom I shall be glad to mail to any individual interested in making this sort of investment.

"It is believed that \$2,500 would enable 10 of these young women to come one year to Alabama College. During that one year perhaps help could be found to enable them to continue through to graduation. I am convinced that if the records of these young women could be read there would be many times 25 who would gladly contribute the sum of \$100 to this worthy cause.

"We should be glad to send the records of some of the most worthy students to those who would be interested in contributing to a fund of \$2,500 which we earnestly hope it may be possible to raise through voluntary gifts.

"Money need not be sent, just a letter or card stating that the amount would be sent during the 1930-31 session. Communications should be sent immediately so that we may be able to get in touch with those students who need to know as early as possible whether they may attend college or not.

"In conclusion may I express again my own deep appreciation of the splendid service rendered by the Birmingham News in its unique system of scholarship awards to the colleges of Alabama. Its value to Alabama and to the South cannot be measured. May other organizations and individuals be inspired to emulate the example."

The Cocke-Simmons Engagement Is Of Interest

The engagement of Miss Justina Webb Cocke, and Lewis Lilburn Simmons, which is announced today, is of wide interest, the families of the young people being numbered among the oldest in South Alabama.

The bride-to-be is the daughter of Dr. and Mrs. William T. Cocke, of Demopolis, and a granddaughter of Mrs. Justina Webb Cocke, of Birmingham. She is a niece of Mrs. Henry Pitts and grand-niece of Col. A. M. Garber of this city, and her cousins Al Garber, Capt. J. B. Garber and Dr. James Garber reside in Birmingham. She enjoys the distinction of being the member of the fourth generation to bear the name of Justina Webb.

Her great-great-grandmother was one of the last survivors of the women of the revolution, her husband having been an officer in the Revolutionary Army.

Mr. Simmons is the son of a prominent planter of South Alabama. He is an alumnus of Sewanee and of the University of Alabama and is also from Demopolis.

Miss Cocke was educated at the Woman's College in Montgomery and at Alabama College at Montevallo.

The wedding is to be an event of October.

Montevallo Seeks Relief In Housing Facility Shortage

MONTEVALLO, Ala., Sept. 19—Immediate relief for the serious shortage of housing facilities for the town of Montevallo was discussed at a meeting of the Exchange Club Thursday.

Moreover, it was pointed out that within the past two weeks more than 20 requests for houses in Montevallo have come from families who wish to educate their children there, or for other definite reasons.

This policy is also being carried out through the home study department, now in its third year.
"No phase of education has in the past few years attracted so much attention as has parent education," President Carmichael stated, "nation-wide interest in the subject being indicated by the White House conference."
Mrs. Crawford will rank as a member of the home economics faculty.
Aside from her work in Jefferson County, her training and experience for the work includes study at Teachers College, Columbia University, completed for the bachelor's and the master's degrees; special courses at the Merrill-Palmer School, Detroit; teacher in New Jersey schools and director of the nursery school, institute of child welfare, University of California.

The church was beautifully decorated with palms, ferns and Southern smilax with a lovely background of white madonna lilies and white cathedral candelabra were placed on either side of the altar.

The impressive ring ceremony was performed by the Rev. W. P. Wilks, pastor of the church. Mrs. Carrie Samford Giles had charge of the music. Thomas Samford sang: "I Love You Truly." Mrs. Pickens Dozier rendered "Oh Promise Me." The bridal party entered to Mendelssohn's march—the bride's entrance was heralded by the bridal chorus from "Lohengrin."

First came the little pages, who were Melvin Hunt of Columbus, Ga.; John Dorsey, of Columbus, Miss.; John Glenn and Joe Sam Woody of Albany, Ga. They were followed by the ushers, Judson Salter, Edwin Warren, Chalmers Greene, Clinton Wilson, Opelika; George Brinson, Birmingham, Ala.; John Taylor Jr., Auburn—in single file who crossed in front of the altar to await the maids, who crossed and ascended the rostrum. First came Miss Elizabeth Prather of Sylacauga, and Miss Lila Nolen, of Alexander City, Ala., each wearing peach satin made with tight bodice and long full skirts, slippers of the same shade and carrying asters and gladioli and tied with tulle to match dresses. Next came Miss Mary Robertson of Gold Hill, and Miss Mary Frances Chappelle, of Alexander City, wearing amber glow satin with slippers to match. Their flowers were asters and dahlias. They were followed by Mrs. Melton Fuller of Auburn, and Kathleen Hunt of Columbus, Ga., wearing green satin fashioned along same lines of the other gowns. They carried asters, gladioli and dahlias tied with tulle to match dresses. The matron of honor, Mrs. Judson Salter, was gowned in blue satin and carried flowers with tulle to match dress. Miss Rebecca Ellington was lovely in her frock of orchid satin, fashioned along the long full lines, her slippers were orchid satin, and she carried an armful of lilies tied with tulle of same color. The little flower girls were Lily Branhram of Atlanta, and Charlotte Chason. Their quaint little gowns of pink were fashioned alike, being made very long with graduating ruffles, and old-fashioned berthas. They carried baskets of roses and gladioli. The little ring bearer, Walter Cullars Dorsey of Columbus, Miss., wore a white satin suit and carried the ring on a white satin pillow. The bride was given in marriage by her mother, Mrs. L. M. Marriage Is Event—

ENTERPRISE, ALA., Sept. 17.—(Special)—Marked by beauty and impressive solemnity was the marriage of Miss Helena Carlisle, daughter of Mr. and Mrs. G. W. Carlisle, of Enterprise, to William Thomas Cochran, of Union Springs, which took place at the home of the bride on Carmichael Street Monday at 4 p.m.

The Rev. F. M. Lowery, pastor of the Baptist Church of Midway, was officiant, performing the ring ceremony in the presence of an assemblage of relatives and friends.

The decorations of the home were in artistic arrangement of rose and silver. A banking of ferns in the living room, combined with tall baskets of coral vine and flanked by standards bearing silver candelabra formed the improvised altar. The rooms were further decorated with quantities of coral vine in silver baskets, while rose colored tapers burned in silver holders, casting a soft radiance over the scene.

A distinctive feature was the musical program rendered by Miss Mary Ruth Lewis, pianist and Miss Martha Smith, of Montgomery, vocalist. As a pre-nuptial number while guests were assembling, Miss Lewis played "Traumeri." Mendelssohn's march and a selection from Lohengrin's bridal chorus made processional while "Indian Love Call" was softly rendered during the ceremony. Miss Smith sang "I Love You Truly" and "At Dawning."

Phillips High, Southern And Howard Are Represented By Fine Types

BY DOLLY DALRYMPLE

Among the many activities the Young Women's Christian Association sponsors, none has a wider scope or a more benign influence over those who come in contact with its privileges than the Girl Reserve work.

This particular branch seems to form a substantial background for girls who take up the work, and not only do they become proficient in Girl Reserve Work during their "teen age," but later these same girls fill official positions with the Y. W. chairmen of Girl Reserve boards and others and continue the service throughout a lifetime.

During the time Mrs. James B. Bell (Margaret Chenoweth), was secretary of Birmingham's Girl Reserve work at the Y. W. standards reached their height. Her delightful personality and her deep interest in the work were an inspiration to all those girls who came under her influence and with her versatility and lofty ideals, she left a lasting impress upon that branch of work here which has been

so excellently carried on under the direction of Miss Helen Haggard.

With the opening of activities for the Fall season early in September a new Girl Reserve secretary, Miss Mary Elizabeth Mason, will be in charge, Miss Haggard having resigned to go abroad, where she is a counsellor at a Girl Reserve camp in Belgium.

700 Members In Schools

With more than 700 Girl Reserve members in the public schools of Birmingham, the Y. W. feels a distinct pride in the progress of this work, and plans are being made on an elaborate scale for promotion of it during the coming year.

It is always interesting to do "follow up" work and in the last few days it has been our pleasure to come in contact with three unusually bright, attractive girls who are products, if we may use the term, of Girl Reserve work under the direction of the Y. W.

These clever young women are Dorothy Burks, 20; Sarah Mayfield, 18, and Beatrice Newman, 20. Miss Burks is a student at Alabama College, Montevallo, Miss Mayfield at Birmingham-Southern and Miss Newman at Howard College.

Each of these girls gives an interesting interpretation of Girl Reserve work which they did under direction of Mrs. Bell, who is their ideal of all that is wonderful and gracious in womanhood.

Miss Burks in speaking of her Girl Reserve work said: "It was at Ensley High School I received my training for a year and a half, and I can truthfully say what I gained from it has been a great factor in my life."

"I think Girl Reserve work gives one a broader view of life and it has certainly helped me to see things more clearly. It creates a democratic spirit, which is the finest thing anybody can have."

"The greatest thing that we get from Girl Reserve training is living for others and not for self."

"When I finish at Montevallo, where I am attending Alabama College, I hope to do some special work in high school. Majoring in mathematics and minoring in speech, this probably will be reversed with Girl Reserve work on the side."

Clubs At Montevallo

"Last year at the Montevallo grammar school I had a Girl Reserve club. The girls, however, were too young for it to be registered. During the last year Mabel Knox, from Ensley High School, organized a group of 65 in a Girl Reserve club and 65 boys in a Hi-Y club in the Montevallo High School. Miss Knox will not return the coming year, so I am going to take over these clubs under Y. W. work at Alabama College."

That the work of Girl Reserve clubs in the schools is highly appreciated is verified at Ensley High, for Sarah Mayfield, as well as Dorothy Burks, is an excellent exponent of the fact.

One of the outstanding students at Birmingham - Southern now, Miss Mayfield said regarding her Girl Reserve work:

"For three years I was a member of the Girl Reserve Club at Ensley High School. This was during the time Mrs. Bell was secretary of the Girl Reserve work of the Y. W., and while we did not work directly under her, but through her directors, her personality was always dominant and loyal."

"My action to the influence that Girl Reserve work has, is easily tabulated, for whatever I amount to, I will always give the credit to my early training in this branch of Y. W. work."

"The questions we discussed, the things we undertook, in fact the entire program of the Girl Reserve Club meant a great deal to me. It created a democratic attitude of mind, first of all and affected the work of others."

"This has followed me through my student days at Birmingham-Southern where I have been the last two years, majoring in French and after I graduate I hope to do Girl Reserve work in foreign countries. There is an opening now in Chile for Girl Reserve work, but as I have not yet received my degree I am unable to qualify."

Along with her other work Miss Mayfield has been director of publicity for Birmingham-Southern College during the absence of the Rev. Charles D. Matthews and Mrs. Matthews abroad. This Summer Dr. and Mrs. Matthews are in Berlin and Miss Mayfield is supplying Dr. Matthews' place again. She also has the distinction of being president of the Y. W. C. A., at Birmingham-Southern.

Howard College Student

To Miss Beatrice Newman also goes the distinction of a presidency—this attractive and clever young woman being slated for this office with the Y. W. C. A., at Howard College next year where she is majoring in French.

"The first Girl Reserve Club I ever belonged to was during my student days at Paul Hayne Junior High School," said Miss Newman, who like Miss Burks and Miss Mayfield adores Mrs. Bell.

"It was the first Girl Reserve Club the Y. W. formed in a high school in Birmingham; there had been a club in the Powell School, but it was a grammar school club of course."

"The stated purpose of the Girl Reserve movement as sponsored by the Y. W. is 'to find and give the best.'"

"I was a member three years of the Girl Reserve Club at Phillips High, and during that time the greatest impression I received from the work was that it enables a girl to see just how far she can develop her character along spiritual and social lines."

"My ambition is to be a Girl Reserve secretary for in it I see wonderful possibilities, and to nothing in my life do I attribute a more wholesome influence than to this branch of Y. W. work which has been such an inspiration to me."

Friendly Enemies

Friendly enemies all three—Miss Burks, Alabama College; Miss Mayfield, Birmingham - Southern; and Miss Newman, Howard College. These young women attended the Southern Students Y. W. C. A. Conference at Blue Ridge last June, when 112 Southern colleges were represented.

This showed an increase of 2 girls over last year and 30 colleges. It was a conspicuous fact, so the young women told us, that at the conference a great many of the representatives wore the Girl Reserve

A pretty home wedding was that of Miss Elizabeth Bryant and Jesse O. Gilchrist, solemnized Sunday morning at 9 a.m. at the home of the parents of the bride, Mr. and Mrs. Walt W. Bryant, on Park Avenue, Ensley.

The ring ceremony was pronounced by Dr. J. Glover Morris, pastor of the Ensley First Christian Church, before an altar built of palms and ferns against a background of white, flanked on either side with floor standards of pink radiance roses, while the stairway leading to the altar had its balustrade entwined with smilax. The wedding march was played by Miss Helen Albert.

The bride was attired in a modish ensemble of dark blue crepe Elizabeth with felt hat and accessories to match. Her bouquet was of sweetheart roses and valley lilies.

Mr. and Mrs. Gilchrist left immediately for a motor trip and will later be at home in Montgomery.

The bride is a graduate of Ensley High School and of Woman's College in Montgomery. Mr. Gilchrist is connected with a large packing company in Montgomery.

Montevallo To Begin Building Program Soon

MONTEVALLO, ALA., Sept. 19.—(Special)—An immediate building expansion program for the Town of Montevallo, with a view to providing adequate housing facilities for the growing population, was the theme of the discussion at the bi-monthly meeting of the Exchange Club Thursday.

President T. E. Watson appointed a committee to confer with the Town Council and to make definite recommendations for the proposed expansion plan, Dr. A. W. Vaughan, professor of English, Alabama College; George B. Jackson, cash-

ier of the local bank and P. C. Wilson, pharmacist.

In discussing the general situation, which has become a serious problem, President O. C. Carmichael, of Alabama College, declared that it is more and

more becoming exceedingly difficult to house faculty members adequately, and that families who wished to move to Montevallo for its educational advantages cannot do so because there are not sufficient residences.

MONTEVALLO WILL SHATTER RECORDS

More Than 950 Students Are
Expected To Be On Hand
When Term Begins

MONTEVALLO, Ala., Aug. 30—Registration at Montevallo College for the 1930-31 year already have surpassed any previous year in the history of the institution, according to tabulations made by the registrar's office. At least 950 students will be enrolled when classes begin Sept. 10, it is believed.

Registration will open Sept. 8 and will continue for two days, after which classes will begin and students will get down to the work of the Fall terms.

Among new departments and courses to be opened at Montevallo College with the beginning of the school year is parent education, in the home economics department, under direction of Mrs. Pearl Crawford, formerly county demonstration agent in Jefferson County. Much interest already has been shown in this course, and it is believed that it will rank in importance with many which have been in the curriculum for many years.

Many courses will be extended or enlarged with the view of more thoroughly covering the subjects of instruction.

Elaborate plans have been made for freshmen orientation ceremonies at Montevallo College this year and it is believed the new arrivals will feel more at home in a shorter time than have any of their predecessors.

Miss Torbert Weds Mr. Cullars In Opelika

Characterized simplicity was the wedding Saturday evening at the First Baptist Church in Opelika, Ala., of Miss Antonia Torbert and Walter Cullars, Jr.

The church was beautifully decorated with ferns, palms and graceful Southern smilax. Tall floor baskets were filled with ferns and Madonna lilies.

The impressive ring ceremony was performed by the Rev. W. P. Wilks, pastor of the church. Mrs. Carrie Samford Giles had charge of the music. Thomas Samford and Mrs. Pickens Dozier sang a group of love songs.

First came the little pages Melvin Hunt, of Columbus, Ga.; John Dorsey, of Columbus, Miss.; John Glenn and Joe Sam Wooddy, of Albany, Ga. They were followed by the ushers, Judson Salter, Edwin Warren, Chalmers Greene, Clinton Wilson and George Brinson, of Birmingham, Ala.; John Taylor, Jr., of Auburn, Ala.

Miss Elizabeth Prather, of Sylacauga, Ala., and Miss Lila Nolen, of Alexander City, Ala., each wearing a peach satin dress made with tight bodice and long full skirts, and carrying asters and gladioli tied with tulle, entered next. Miss Mary Robertson, of Gold Hill, Ala., and Miss Mary Frances Chappelle, of Alexander City, Ala., wearing amber satin and carrying asters and dahlias, followed. Mrs. Molton Fuller, of Auburn, Ala., and Kathleen Hunt, of Columbus, Ga., wearing green satin, came next. The matron of honor, Mrs. Judson Salter, was gowned in blue satin and carried flowers to match her dress.

Miss Rebecca Ellington, maid of honor, was lovely in her frock of orchid satin, and she carried an arm bouquet of lilies. The dainty little flower girls were Lily Branham, of Atlanta, Ga., and Charlotte Chason, of Birmingham. The little ring bearer, Walter Cullars Dorsey, of Columbus, Miss., in a white satin suit carried the ring on a white satin pillow. The bride was given in marriage by her mother, Mrs. L. M. Wooddy, who wore white chiffon with a shoulder corsage of orchids.

The groom was attended by Winston Smith as best man.

The bride was lovely in her wedding gown of white Duchess satin, fashioned along princess lines. She carried a handkerchief of real lace that her mother used on her wedding day. Her veil of tulle was a coronet of real lace, embroidered in pearls, and caught to her hair with orange blossoms. Her flowers were roses and valley lilies.

The bride is a lovely young woman, who has spent her childhood in Opelika, graduating from high school and completing her education at Alabama College for Women in Montevallo, Ala., where she was an honor graduate in home economics. She was a member of the Tutwiler Society.

The groom is the son of Mr. and Mrs. Cullars, of Roanoke, Ala., a graduate of Auburn College and a member of the A. T. O. Fraternity. He is connected with his father in the cotton business in Roanoke, Ala.

After the ceremony, the bridal party was entertained with an informal reception at the home of the bride. Refreshments were served by Miss Florrie Hune and Miss Frances Williams. The bride's book was presided over by Mrs. Murray Farris, of Birmingham, Ala.

Immediately after the reception, the young couple left for Asheville, N. C., and other points in the Carolinas. The bride's traveling suit was a lovely ensemble of dark blue with other accessories to match. On their return they will make their home in Roanoke, Ala.

Not Enough Yet

Although there are approximately 100 gift, loan and service scholarships, combined, available at Alabama College, the number is not sufficient to meet the demands, President Carmichael stated. Many worthy, eager young high school graduates who make application year after year for assistance to continue their education are denied. Particularly is this situation true this year.

Scholarships at Alabama College cover a wide group of interests. Among them are The Birmingham News Scholarships, Weenona Hanson musical scholarship, established through the Alabama Federation of Music Clubs; the Margaret Isbell Hardie scholarship, interest from under terms of the will of the late Mrs. Joseph Hardie; five U. D. C. scholarships, for descendants of worthy Confederate soldiers; four Linley Heflin Unit scholarships, provided by a Birmingham group of women; the Music Federation scholarship, established by the Alabama Federation, and the Woodward Iron Company scholarship.

Loan Scholarships

Among the loan scholarships available are the Myrtle Brooke scholarship, a revolving fund established by the first year's students in the social service classes at Alabama College; the college clubs scholarship, maintained by the Castalian, Philomathic and Tutwiler Clubs; the Charles Rendall Calkins Music scholarship, established by the graduating class of 1922; the Chattahoochee Collegians, Club scholarship, established by Alabama College students from the Chattahoochee Valley; 11 maintained by the Federation of Women's Clubs; the Fourth District A. F. W. C. Kate Hagan, Elizabeth Haley Moore, Kate Morizette, Conra McCaughy, Minnie Holman Phillips, Mary Hill Randle, Twentieth Century Home-Keepers Club, Bessie Baker Memorial and Home Arts Club of Birmingham.

The Hortense A. Battre, established by the Colonial Dames of Alabama; the New Castle Coal Company scholarship, the Opportunity Fund, established by Mrs. Maud Preuit Fennel, of Leighton, Ala., for juniors and seniors; the Alta Patterson Memorial, established by members of Alabama College faculty, members of Miss Patterson's family and her friends.

Aid From Alumnae

The Alumnae Association of Alabama College also maintains a number of small loan scholarships, and has recently established a larger fund to be maintained as the Mary Goode Stallworth Memorial scholarship.

In addition to a number of dining room and dormitory service scholarships, the school of education also grants six teaching scholarships each year.

"Alabama College is maintained by the state for the higher education of its young women, both in cultural and practical lines, to prepare them for duties of life and for useful employment whereby they may become self-supporting," President Carmichael has stated, "but there are many deserving young women who cannot attend because of lack of funds. The college invites the attention of public-spirited citizens to this condition and welcomes any efforts made to alleviate it."

Radney-Boyett Wedding Draws State Interest

DOTHAN, Ala., Sept. 27.—Of interest to a large circle of friends, both in Alabama and Georgia, is the marriage of Miss Edna Radney to Sanford Edwin Boyett of Blakley, Ga., which was quietly solemnized at the home of the bride's parents, Mr. and Mrs. Lester Radney, in Ashford.

Floor baskets of gladioli marked the place where the bridal pair took their vows in the spacious living room, while aratum lilies in silver baskets were placed on the mantel and the piano.

The bride was lovely for her wedding in a two-piece traveling dress of dark brown crepe, with suede hat, feather trimmed, and other accessories of the same shade; and her corsage of gladioli tips and rubrum lilies tied with yellow ribbon to match the dainty flowers and with yellow shadow back.

The exhibit will include a number of landscapes, varying in style and in subject matter, said Miss Minna McLeod Beck, professor of art at Alabama college. These will represent scenes in Alabama, Florida, Texas, Oklahoma, Tennessee, and other southern states.

"Few of the pictures sent this year were painted abroad," Miss Beck said, "as southern artists appear to be realizing more and more that there are many paintable scenes right here at home; and certainly these hold a special interest for our southern patrons of art."

The exhibit will include, also, a few flower studies, in both oil and water colors.

Among the striking and unusual ones, there will be several modernistic compositions.

"Conservative and radical, modernistic and academic, may be studied in the exhibition, and a great variety of styles may be noted in all the subjects and mediums," according to Miss Beck.

ENTERPRISE, Ala., Sept. 18.—Marked by beauty and solemnity was the marriage of Miss Helena Carlisle, daughter of Mr. and Mrs. G. W. Carlisle, of Enterprise, to William Thomas Cochran, of Union Springs, which took place at the home of the bride on Carmichael Street.

The Rev. F. M. Lowery, pastor of the Baptist Church of Midway was officiant, performing the ring ceremony in the presence of an assemblage of relatives and friends.

The decorations of the home were in artistic arrangement of rose and silver. A banking of ferns in the living room, combined with tall baskets of coral vine and flanked by standards bearing silver candelabra formed the improvised altar. The rooms were further decorated with quantities of coral vine in silver baskets, while rose colored tapers burned in silver holders, casting a soft radiance over the scene.

A distinctive feature of the occasion was the musical program rendered by Miss Mary Ruth Lewis, pianist, and Miss Martha Smith, of Montgomery, vocalist, both cousins of the bride. A pre-nuptial number while the guests were assembling was "Traumerel." Mendelssohn's march and a selection from Lohengrin's bridal chorus made processional, while the "Indian Love Call" was softly rendered during the ceremony. Miss Smith, who possesses a lovely soprano voice, sang "I Love You Truly" and "At Dawning."

Miss Marguerite Hildreth and Miss Josephine Carlisle, sister of the bride, served as maids and were the only attendants. Their costumes were in early Fall model. That of Miss Hildreth was of cricket green and of Miss Carlisle of Salvador brown Canton, each with matching accessories. They carried arm bouquets of pink radiance roses.

The bride and groom entered together. She wore for her wedding an attractive suit of navy flat crepe, with hat and other accessories in matching shade. Her shower bouquet was of pink Killarney roses and valley lilies.

Immediately after the ceremony, Mr. and Mrs. Cochran left by motor for a wedding trip to Atlanta and other points in Georgia.

REINALD WERRENRATH

Baritone Has Background Of Musical Forbears Who Also Won Renown

MONTEVALLO, Ala., Oct. 13 — Reinald Werrenrath, celebrated baritone, who will fill the first number of the 1930-31 artist and lecture course series at Alabama College, at 8 p.m., Oct. 18, has a musical background equal to the prestige he has won for himself.

"Werrie," as all of his friends call him, was the son of George Werrenrath, a famous tenor of Europe and America, born in Copenhagen. He sang in opera in Weisbaden and also in London.

It was while singing in Henry Ward Beecher's Plymouth Church in Brooklyn that George Werrenrath met and married Aretta Camp, Reinald's mother. She was a soprano of repute, and had made several concert tours in this country. Mrs. Werrenrath was born in New York City. Her father, Henry Camp, was director of the choir in Beecher's church. There are many other musically famous ancestors on the Werrenrath tree.

"Werrie" was born in Brooklyn. He is an oratorio and concert baritone—the composer of "Siesta," "The Cavalier Song," and editor of the Arion collection, two volumes of Scandinavian songs. He was leader of the glee club at New York University, from which he was graduated, and the conductor of the University Heights Choral Society for four years. In school life he was a crack athlete, football star and swimming instructor.

TRUSTEES HEAR OF COLLEGE GROWTH

Montevallo Head Tells Of Recent Progress At State School

MONTEVALLO, Ala., Oct. 10—In his report to the board of trustees of Alabama College at a meeting here Friday, President O. C. Carmichael summarized the achievements of the college during the past four years, a period in the history of the institution which in many respects has no parallel in previous progress of the college, he stated.

Sketching the changes in the physical plant as evidenced by building expansion, improved appearance of the campus by the transfer of buildings and the paving of property adjacent to the campus, the repair and redecoration of buildings, President Carmichael passed to what he termed the "real changes and development" of the college within the past quadrennium.

"The development of the organization of the college, the increase in the services offered, the broadening of the curriculum, and the additions to the faculty constitute the real measure of its growth as an educational institution," he declared.

New Services Offered

The following new services were pointed to as features developed over the period: Library science, raising of the curriculum of the secretarial course to four years; home-study service; a four-year course in sociology and social service, and the introduction this year of parent education courses.

"The faculty of the institution has been increased and strengthened to the point where it is comparable to the best faculties in this section," President Carmichael told the trustees. More than 20 per cent had the maximum training, that is, hold the doctor's degree; most of the others hold master's degrees with training beyond or special training the equivalent of it; while the number with the bachelor's degree or special training is 17, as compared with 28 four years ago.

Of the present faculty of 75, an increase of 20 since the beginning of the quadrennium, 16 hold the Ph.D. degree and 42 the M. A.

Student Body Increases

The report also carried a table showing the growth in the number of persons served by the courses offered in regular session, Summer school, extension service and the training school during the quadrennium from 1,904 in 1926-27 to 2,822 in 1930-31.

"One of the gratifying evidences of the development of the college as an educational institution," President Carmichael pointed out, "is the recognition given it by outside agencies." Columbia University, University of Wisconsin, the University of Illinois and other of the more important institutions accept at face value the degrees granted by Alabama College.

Among the important questions that came before the association was the establishment of details to govern the administration of the Mary Goode Stallworth Memorial Scholarship Fund, which will be in charge of a scholarship committee headed by Miss Lillian Gatchell, of Birmingham.

President O. C. Carmichael presented to the Alumnae Association details concerning a proposed alumnae institute to be held at the college in the Summer of 1931, which was received with enthusiasm.

Back of the plan for the institute, President Carmichael stated, is the feeling that there should be maintained an educational connection between an institution and its alumnae.

Miss Myrtle Brooke, professor of sociology, presented to the alumnae association some phases of the pending "mothers' aid" bill and the movement back of a library commission for Alabama.

Plans were made for enlisting the interest of Alabama College alumnae in these two measures.

At an open meeting in Palmer Hall at 10:30 a.m., with Mrs. Spidle presiding, heads of the college departments were presented to the alumnae, with a view to answering requests for information about the various departments, conducting the alumnae on inspection tours, etc.

Birmingham; Mrs. E. B. Henry, Birmingham; Mrs. Charles N. Parnell, Maplesville; and Mrs. Gertrude Meroney Peebles, Aliceville.

Members of the faculty and members of the senior college class joined the alumnae at a picnic luncheon on the campus.

At 2:30 members of the Student Athletic Board and members of the alumnae participated in a basketball game.

Mrs. Pearl B. Crawford, parent education specialist at the college, addressed mothers among the visiting alumnae at 3:30, on same phases of child guidance and behavior.

The "grandchildren's party" was in charge of Miss Lela Wade Rice, of the education faculty, who provided special entertainment for the children of alumnae during the day.

The program concluded at 8 p.m., with a concert in Palmer Hall, by Reinald Werrenrath, baritone, who was also heard by many visitors from Birmingham and other points.

Prior to the ceremony, Mrs. Charles Parnell, of Maplesville, who presided at the piano, played soft nuptial music using "Narcissus" by Nevin. The processional and recessional marches from Lohengrin and Mendelssohn were used. During the ceremony, which was pronounced by the Rev. Merrill D. Moore, pastor of the First Baptist Church, Mrs. Parnell played softly, "Meditation," by Morrison.

The bride was becomingly attired in a traveling ensemble of brown crepe, fashioned with a tunic with which she wore harmonizing accessories. Thirty-First Anniversary Of Montevallo Institution Brings Large Attendance

MONTEVALLO, Ala., Oct. 18—The thirty-fifth anniversary of Alabama College and the first Autumn home-coming of graduates and former students was celebrated here Saturday, with alumnae representing every year of the college from 1899 to 1931 inclusive.

The program opened at 9 a.m. with a business meeting of the alumnae association, with Mrs. Marion Walker Spidle, Athens, presiding.

Among the important questions before the association was establishment of details to govern the administration of the Mary Goode Stallworth Memorial Scholarship Fund, which will be in charge of a scholarship committee, headed by Miss Lillian Gatchell, Birmingham.

President Carmichael presented details of a proposed alumnae institute at the college next Summer.

Back of the plan for the institute, President Carmichael stated, is the feeling that there should be main-

tained an educational connection between an institution and its alumnae.

"Education, to be effective," he emphasized, "should be projected beyond the four years spent on a college campus."

The institute will provide general and inspirational programs, also special programs for groups interested in special problems.

"It is also the purpose of the programs to make available the college library and other facilities, in some tangible constructive form after former students have returned

to their homes from the institute," President Carmichael stated.

Miss Myrtle Brooks, professor of sociology, presented some phases of the pending mothers' aid bill and the movement back of a library commission for Alabama. Plans were made for enlisting the interest of Alabama College alumnae in these two measures.

At an open meeting in Palmer Hall at 10:30 a.m., with Mrs. Spidle presiding, heads of the college departments were presented to the alumnae, and were available during the day to answer requests for information about the various departments and to conduct alumnae on inspection tours.

The program featured past presidents of the Alumnae Association in short speeches centering around the thought of Founders Day, Oct. 12. Among those who took part were Miss Bertie H. Allen, Birmingham; Mrs. E. B. Henry, Birmingham; Mrs. Charles N. Parnell, Maplesville; and Mrs. Gertrude Meroney Peebles, Aliceville.

Music was furnished by C. B. Richmond, at the organ, and by little Miss Helen Rucks, daughter of Mrs. Medora Holcombe Rucks, Birmingham, who contributed vocal numbers.

At 2:30 p.m. members of the Student Athletic Board and alumnae were to participate in a basket ball game.

The grandchildren's party was to be in charge of Miss Le'la Wade Rice, of the education faculty, who provided special entertainment for the children of alumnae during the day.

Human Customs To Form Subject Of Lecture Here

DR. O. C. CARMICHAEL

Wide Study Of Material Is Made By Educator On Other Continents

"Human Customs and Social Structure" is the subject of a talk to be made at 8 p.m. Tuesday in the art gallery of the Public Library by Dr. O. C. Carmichael, president of Alabama College before the Birmingham Anthropological Society.

Dr. Carmichael made a special study of anthropology while a Rhodes scholar at Oxford, then pursued his studies by wide travel, specializing in social anthropology. Customs observed while traveling in India, Arabia, Egypt and other countries of Europe, Asia and Africa will be used to illustrate fundamental questions discussed.

Sympathetic consideration of cultures of all people is the only proper approach to a study of human customs, Dr. Carmichael believes. A detached view of customs and a valuation as social achievements is necessary, he says, to true interest in social anthropology.

Customs related to social organizations and religions will be described in the lecture, according to E. L. Horton, president of the society. Bearing of anthropology on contemporary social problems also will come in for treatment.

Dr. Carmichael also will be in Birmingham Sunday to speak twice at Trinity Methodist Church, Homewood. He will teach the men's Bible class at 9:30 a.m. and at 11 a.m. will occupy the pulpit in place of the Rev. W. A. McKee, pastor.

Keep Every Girl Out Of Doors Every Day, Is Slogan In School's Program

BY FLORA B. SURLS

MONTEVALLO, Ala., Nov. 22.—The middle of November marked the foundation laid and work well started in a physical education program at Alabama College, planned "to keep every girl out of doors every day."

Means through which the plan will be carried out are embraced in four big team activities: Field ball for freshmen, soccer for sophomores, field hockey for juniors and a review of soccer, plus point system activities, for seniors.

Outdoor equipment provided at the beginning of the 1930-31 session includes three basket ball courts, four tennis courts, two volley ball courts, a soccer field and a hockey field. This also marks the beginning of the development of Mallory Field, which is to be the permanent athletic field adjacent to the proposed new physical and health education building.

While the slogan of the department is "every girl out of doors every day," the year's program makes provision also for gymnasium activities in inclement weather. These will consist of folk dancing and miscellaneous games involved in the point system which has been adopted by the State Athletic Association.

Provision has been made, too, for restricted work for the girl whose heart may not be up to par, who may be recovering from illness or operation, or who may be below normal weight, etc.

Exercises and games which put

upon infirm units of the girl's body only the quantity and quality of exercise needed to strengthen and build up are included in the restricted program.

Corrective work, also, designed to overcome postural and other defects, is included in the general program.

Restricted and corrective work is required of every student whose physical examination at the opening of the session indicated such need.

First Phase Is Completed

The first climax of the big, all-year-around outdoor program has been passed, a volley ball tournament in which the freshman class was victorious.

Those who made the varsity team in this sport are: Izelle Brown, Banks; Harriet Barnes, Mobile; Sara Bonner, Camden; Tommie Parrish, Brundidge; Billie Sims, Fairfield; Mary Agnes Lawlis, Jackson; Sara Edmundson, Bessemer; Emma Pearle Lancaster, York, and Sara Matthews, Camden.

Eliminations in the basket ball tournament were begun Nov. 8, and are well under way. This will be followed by the hockey tournament.

In all its work in organized sports, the department takes opportunity to cooperate with state and national athletic organizations in introducing and establishing changes in procedure with a view to evolving a type of procedure best suited to sports for women.

For instance, in compliance with a request from the national committee on women's basket ball rules, the department this year introduced a try-out of the center throw, instead of the tip-off for a start of the game and after each goal. This rule at first was not popular with Alabama College players, but seems to be growing steadily in favor.

Specialized Study Courses

Aside from a general program of class and play activities through

which every Alabama College student is reached, and which embraces athletics and sports of practically every nature adapted to women students, the department offers more than 30 courses of study of a specialized nature, which lead to the degree of bachelor of science.

These include beginning and advanced study of personal health and general exercise; restricted and corrective activities; simple rhythms and folk dancing; interpretive dancing; character, national and clog dancing; organization of games and stunts; physical diagnosis; gymnastics, athletics and coaching of athletics; methods and materials for junior and senior high schools; first aid; organization and administration of physical education.

The department numbers 72 major students this year, of whom 34 are freshmen, 17 sophomores, 13 juniors and eight seniors.

Upon completion of their course of study and the award of the degree, these young women will go out into Alabama, and elsewhere, equipped to teach and direct physical education in the elementary and high schools, or to serve as playground instructors, camp counselors, Red Cross life savers and examiners, and other duties related to physical education development.

Those who passed the national test for Red Cross life savers and examiners this fall are: Sarah Stevenson, Roanoke; Anne Tumlin, Bessemer; Clough Wallace, Isabel, Tenn.; Winnie Mae Toomer, Long Beach, Miss.; Eleanor Keeney, Fairhope; Ruby Moore, Yolande; Wilma Wood, Sylacauga, and Mary Haynes, Thomsville (renewed).

Not only are major students in the department concerned with campus and state activities in the physical and health education field, but some emphasis is placed, also, on national

and international sports events. Through a well organized reading and reference department in the college library, bulletin board display of clippings, and information available through faculty connection and contact with national and international organizations, these young women students come to acquire a broad outlook upon and interpretation of larger movements related to their field of study.

To Further Program

To further this feature of their training, the Physical Education Club, the campus organization which includes major students and members of the department staff, has planned to develop a program of social and professional meetings during the year.

The center of much of the club's activities will be the campus, which offers a spacious living room or assembly hall, with other facilities for group gatherings, and which is located in a wooded section of the college campus.

Affiliation with the physical education department, as a major, by no means over-emphasizes the development of the student in that one direction. Both campus and extra-curricular activities at Alabama College are designed to the end that every student is subjected to and becomes a part of the training which results in a well-rounded college woman. No only do the physical education majors acquire technical training and skill in their chosen field, but they acquire, also, the social poise and cultural background which marks the well-developed and educated woman.

They also take their places alongside students in other departments as officers and leaders in general campus organizations. During the year, for instance, the president of the Y. W. C. A., Eugenia Morrow, Marion Junction, is a physical education major; as is the secretary of the Student Government Association, Lucy Lee Pruitt, Sylacauga; the secretary of the junior class, Toto Howard, Lowndesboro, and the stage manager of the college theater, Claudia Schwoon, Birmingham.

One of the big, state-wide athletic movements the department at Alabama College was first to sponsor in 1930, is the "all state play day" for high schools, an annual Spring tournament.

Friday, President William J. Baird Boyles, of the Alabama High School Athletic Association, Secretary Sellers Stough, Birmingham, and Miss Minnie Sellers, Lafayette, secretary of the women's division, were to hold a conference at Alabama College with President O. C. Carmichael and members of the physical education staff, in which plans were to be completed for the second annual all-state high school play day, in April, 1931.

In April this year, the play day event brought more than 400 high school students to the college campus, to which members of the physical education department were special hostesses.

Alabama College is also hostess annually to the college women of the state, who gather for a season of play day activity.

This Year's Leader

The department is headed this year by Miss Alfreda Mossdrop, of Rochester, N. Y.

Miss Mossdrop brings to the department a wide background of training and practical organization experience in the physical education field. She is a member of the all-American reserve team in the National Field Hockey Association, and holds the national "A" rating for umpiring in that field. From 1926 to 1930 she was chairman of the national hockey committee, American Physical Education Association, and its bulletin editor.

Mrs. Murdoch Is Given Ovation At Montevallo

MRS. W. L. MURDOCH, Birmingham feature writer and lecturer on national and international events, held the complete interest of Alabama College students and faculty at the convocation hour Friday, when she told of famous women she has known.

Jane Addams, Julia Lathrop and Florence Kelley were cited by Mrs. Murdoch as the greatest living women exponents of practical religion and working ethics.

Katherine Mayo, who will go down in history as the author of "Mother India," was declared by the speaker to be one of the greatest of women journalists.

"In talking with leading Hindu statesmen whom I met in Geneva during the past Summer," Mrs. Murdoch stated, "those who were unprejudiced toward Miss Mayo were emphatic in their statements that much of the recent reform in India's attitude toward her women is due directly to 'Mother India.'"

Mme. Clara Guthrie D'Arcis, of Switzerland, native of New Orleans, La., and wife of a prominent, wealthy Swiss banker, was cited as the outstanding exponent of women in business.

A brief recital of the achievements of each of these women leaders was outlined by Mrs. Murdoch, and many interesting accounts of personal experiences with them were given in course of the address.

Alabama College Honors Agnew

MONTEVALLO, ALA., Dec. 13.—(Special).—Dr. Walter D. Agnew, president of Woman's College, was shown special honor by the Alabama College senior class Friday, the members of which marched into Palmer Hall in cap and gown procession to hear him address the student body and faculty, in the course of which he discussed the reasons "Why We Go To College."

Brushing lightly over the first general reason for college attendance, that of popularity, which has for its basis the spirit engendered in the elementary and high schools, President Agnew declared that the dominating motive in America which underlies the struggle for college training is that based on the mysterious idea that a college education will help one to "get on in the world." This idea, which is not to be despised, he said, was credited by the speaker to college presidents, largely, who send out great quantities of literature purporting to show in dollars and cents just what a college education is worth.

Agreeing that college training does help one to get on, and is not wholly an unworthy motive; that in an age of specialization it will become more and more difficult to get on without a college education, such a motive was declared to be inadequate.

"As an American people," Dr. Agnew said, "we have become obsessed with the idea of gaining profits and self-advantage, a spirit which has resulted in the gambling, speculating, and dishonest methods at the bottom of the present depression conditions."

Dr. and Mrs. Agnew were guests of President and Mrs. O. C. Carmichael, in the college dining room, following the convocation.

Seay, when their lovely daughter, Frances, became the bride of Byron Brightwell Nelson, of Tallassee. The ceremony was performed by the groom's father, Rev. J. J. Nelson, of Fairfax, Ala. Only the near relatives and a few intimate friends were present. The home was artistically decorated with southern simlax, mistletoe, white narcissus and hyacinths. Floor baskets on either side of the improvised altar held narcissus and hyacinths, candles lighted the room with a mellow light. Proceeding the ceremony Mrs. Fox French played "Goodnight" by Nevin. "Until" was sweetly sung by Mrs. Sue Bean. During the ceremony "To a Wild Rose" was softly played. The bride wore a handsome black satin ensemble suit, with blue blouse and black accessories, she carried a bouquet of valley lilies and pink roses. She wore a beautiful crystal necklace the gift of the groom.

Mrs. Nelson is one of Brundidge's most attractive young girls, a graduate of Pike High school, and of Troy Teachers college, she also studied at Alabama college for three years and has taught at Tallassee for two years and here begun the romance which culminated in this wedding Sunday, for Mr. Nelson is principal of the school there, he is a graduate of Howard college, a member of Sigma Phi Epsilon and one of Alabama's leading young educators. Following the ceremony the guests were invited into the dining room, which was lovely in its Christmas decorations, the table covered with an exquisite lace cloth and centered with a miniature Christmas tree, aglow with colored lights. Misses Ruby Waters, Mary Hendrick, Dorothy Watkins and Helen Floyd served coffee, fruit cake, toasted nuts and mints. The bride's book was presided over by Miss Zadie Johnson. Mr. and Mrs. Nelson left in their car for a short wedding trip to points in south Alabama and will return to Brundidge for Christmas Day and after a few days visit to Fairfax, they will be at home to their friends after the 29th at Tallassee.

High Spots Of Students' Conference Recounted By Montevallo Delegate

National Problems Hold Chief
Interest In Discussions
Of 300 Present

BY FLORA B. SURLS

MONTEVALLO, Ala., Jan. 10.—The recent conference of the National Student Federation in Atlanta, said Miss Ruth Scott, of Fayette, president, Student Government Association, Alabama College, showed a decided trend away from a mere discussion of campus problems and toward an understanding of and an active participation by students in national problems bearing upon international affairs.

"There were, of course, sessions devoted to a discussion of common campus problems, such as chapel attendance, smoking in women's colleges, drinking, automobiles, dancing, over-interest in athletics, honor systems, etc., but these were not what impressed one most," Miss Scott stated.

"For instance, I was greatly impressed with the interest manifested on the part of the 300 students gathered from every section of the United States in a discussion of the tariff and in the part tariff plays in hindering or promoting international relations. This discussion was led by former Gov. Ross, of Wyoming."

Address Over Radio

Much interest was manifested also, Miss Scott said, in a radio address to the gathering by Norman Thomas, New York, on international questions.

International aspects of the federation, Miss Scott said, have been greatly stimulated during the last year by an exchange of students between American colleges and those of other countries, a movement sponsored by the organization.

Another stimulus in that direction has been the interchange of debating teams, through which problems affecting interests of world students have been given special airing.

"National student attitudes toward the prohibition question were somewhat of a revelation to me," Miss Scott added.

"Regardless of my personal views on the subject, I consider the action by the federation regarding the eighteenth amendment as significant. A majority of delegates present favored modification."

Results Of Gatherings

Miss Scott believes the friendly intercourse and exchange of ideas resulting from these annual conferences of students of the nation, more than a consideration of the material details of campus organization, constitute the chief results of such gatherings.

With campus problems pretty well analyzed, and interest in international relations well established, she thinks that logically the next step for the federation to consider is what its members, as student leaders, can do toward promotion of national movements, and particularly of education.

Other representatives of Alabama College who attended the Atlanta conference were Miss Dorothy Burke, Ensley; Miss Lucy Lee Pruitt, Sylacauga, and Miss Kate Sabotka, Hart-

Miss Dorothy King, who has spent the past few days with her parents, Mr. and Mrs. Frederick King, has returned to Montevallo, where she will be joined by Miss Ruth Scott, of Fayette. They will leave Monday for Belton, Texas, to represent Alabama College at the Southern Conference of Student Government. Later they will visit San Benito and Old Mexico. *Mont. ALABAMA COLLEGE HAS NOTABLE CONCERT

By FLORA B. SURLS

MONTEVALLO, Jan. 31.—Among the most interesting and intricate tasks of the present day liberal arts college is that of making the best use of the artist, or expert, in one department in bringing to each member of the college group a greater sense of appreciation of subjects not directly related to his special field.

One of the most typical and universal phases of the task is met by the musical artist on the college staff, who is, perhaps, the largest single contributor to the general cultural development. With that member of the faculty lies largely the opportunity which is particularly one of the creative artist, namely, to as-

sist the student of English or chemistry, let us say, to an appreciation of the finer arts which goes into a well-rounded education.

In such a role, Miss Agnes Hardin, soprano, associate professor of voice, and a favorite radio artist at Alabama College, appeared in a well chosen program Friday evening before the college audience of eminent music critics of Alabama.

Miss Hardin's program embodied the conventional classic opening with progression through the modern. It was, however, particularly well varied.

Numbers included in the first of the

five groups sung were: "Tre Giorni," (Pergolisi), and "Per La Gloria—D'andoravi," from the opera "Griselda," (Bononcini).

In the early Italian songs, the almost faultless diction and the pleasing legato of the singer's voice struck the audience with force and appreciation.

In Carder's modernized version of "Water Parted," (Arne) Deems Taylor's transcription of "The Royal Lover," (Devonshire Folk Song), and "When Love Is Kind," (Old English Melody); as well as an American group, character interpretation stood out vividly. The varied mood of each song, also, was well depicted by the artist.

The high light of the program, undoubtedly, was the Italian Aria, "O Don Fatale," from the opera, "Don Carlo," (Verdi). More than any number of the series, this song lent itself to the wide range of Miss Hardin's voice, which, though distinctly in the lyric class, has a decided dramatic quality. With astonishing ease and clearness, the full, rich tones of the singer progressed over a range of two octaves in a single phase of the number. Verdi's composition also emphasized the transitional power of Miss Hardin's voice, from pianissimo to dramatic climax.

One of the most pleasing selections on the program was Rachmaninoff's "In The Silent Night."

Much credit for the success of the concert was accorded the accompanist, Miss Polly Gibbs, of the piano department. Miss Gibbs's quality of adaptability to the mood of the singer made possible a balance difficult to attain.

Miss Hardin is a native of Eclectic, and a member of one of Elmore County's oldest families. She is a graduate of the Cincinnati Conservatory of Music and a pupil of Percy Rector Stevens, of New York. Her prominence in music circles in Alabama, as well as her professional skill, makes her greatly in demand for concert and general program performance. In addition to her work as one of the college radio contributors, Miss Hardin has appeared frequently before Alabama music groups, including the music section of the A. E. A.

Goodrich, pastor of First Methodist Church, read the ring ceremony in the presence of a large group of friends and relatives.

The wide brick fireplace formed an appropriate background for the improvised altar. Graduated white latticed sections, festooned with smilax, alternated with tall branched candelabra containing cathedral candles, and tall baskets filled with large yellow chrysanthemums.

Preceding the ceremony, Harry Armstrong sang a group of appropriate love songs, and Jesse Walker played the wedding march.

The groom was attended by his brother, John James, of Tuscaloosa, as best man.

The maid of honor and bridesmaids wore long chiffon dresses in harmonizing colors with small metallic hats carrying arm-bouquets of yellow chrysanthemums.

MISS EDWARDS MAKES ADDRESS ON OVER TONES IN FAMILY LIFE

Miss Margaret Edwards, presented in a lecture entitled, "The Overtones in Home and Family Life," given on Thursday afternoon under the auspices of the Woman's Club and the Montgomery Federation of Women's Clubs, surprised her hearers by declaring that the fundamentals of food, clothing and shelter do not determine in the last analysis, the successful home. Miss Edwards said: "If the homemaker strikes only the three fundamental tones, there is no harm in it. For instance, shelter must be thought of, in relation to the activities of the family, the special needs of individual members, the satisfaction brought to the family as a whole. 'One's house should cost no more than two and one-half times one's annual income.'"

Miss Edwards discovered in a study made for the Rockefeller Foundation, that even teachers of home economics, know very little about how people actually live. She expressed the opinion that the interchange of opinions, occurring in Woman's Clubs, will be most helpful in disseminating the necessary information for producing the right kinds of homes.

"Home Economics," she said, "used to emphasize cooking, sewing and household routine. These things are still important, but they are not sufficient. 'Understanding, cooperation, sense of humor and a sense of proportion, are neglected essentials.' Quoting Ernest Groves, Miss Edwards said, 'the good home will take care of itself.' 'The social agencies will care for the bad home. The bewildered home needs thought and help.'"

Miss Edwards expressed the wish that all homes might be incorporated, with a constitution, stating the purpose of the home, and the laws under which it should operate. "When the home fails, women are responsible," she said, giving as her reason the oft repeated statement made by men, "I run my business and my wife runs my home."

"Women spend a thousand dollars a minute," she continued, "or 88 per cent of all the money spent in the United States. Expressing her opinion that all intelligent women are now caring for the three fundamentals, food, clothing and shelter, she urged her hearers to heed six important things that produce the overtones, and make for harmony in the music of the home; first, grasp of the latest knowledge that will make the home function in this machine age; second, flexibility; third, adaptability; fourth, a sense of proportion; fifth, social relations; sixth, a vision of the larger life."

"The woman who stays at home and devotes all the time to the care of her house or even to the care of her child, may feel the throb of fundamental, but she misses the perspective of those things necessary in the ideal home."

"The girl from the ideal home never says: 'Wouldn't think of talking to father about financial difficulties.' Neither is she heard to make the statement, 'Mother and I have never agreed.'"

"The ideal home maker does not need to be a specialist, but she does need to adapt every phase of home life to the family income, family needs, family interests and hopes."

In conclusion Miss Edwards said: "The home must be economically sound, mechanically convenient, physically healthy, morally wholesome, artistically satisfying, mentally invigorating and spiritually inspiring."

Miss Edwards was introduced by Mrs. J. A. Bullock, president of the Montgomery Federation of Women's Clubs. Mrs. Bullock spoke of Miss Edwards as a cosmopolitan, who has gleaned from all states of the Union, data that is helpful and inspiring to her audiences.

Mrs. Mortimer Tuttle, president of Woman's Club, presided at the meeting, and announced that Miss Edwards, the first speaker in the new series of lectures, will be followed on Jan. 22 by Miss Lula R. Palmer, of the home economics department of Alabama Polytechnic Institute.

Montevallo Young Man Is Named ⁷⁸ To American Consulate In Mexico

Youth With Excellent Record
In High School, College
Gets Appointment

BY FLORA B. SURLS

MONTEVALLO, Ala., Jan. 12—

Walter Patrick McConaughy, Jr., 23, son of Mr. and Mrs. W. P. McConaughy, of Montevallo, has been notified by the United States Department of State of his appointment as "American foreign service officer, unclassified; American vice consul of career, and secretary in diplomatic service of the United States." His appointment as such was confirmed by the Senate in December.

Mr. McConaughy will leave Montevallo next Tuesday for Tampico, Mexico, to take up his duties in the offices of the American Consulate.

With the exception of one appointee from Virginia, Mr. McConaughy was the only Southern man appointed to the diplomatic service in 1930. He is among the youngest ever given such appointment.

Honor Graduate

This young man is an honor graduate of Montevallo elementary and high schools. He is credited with the highest scholastic record maintained in the Montevallo public schools.

In the Spring of 1928, after two Summers' work at Alabama College, he received a degree from Birmingham-Southern College.

It was while at Birmingham-Southern, and through his study of economics, political science and diplomatic history, that he became interested in a diplomatic career.

It was, however, upon hearing an address, in New Orleans, delivered by the consul general of Mexico, that his purpose to try for an appointment became fixed.

With a view to further preparation for such service, after taking his preliminary examination, young McConaughy matriculated at Duke University in the Fall of 1930, for work related to his chosen field.

Following his graduation from Birmingham-Southern, Mr. McConaughy taught in the Pike County High School, at Brundidge, during 1928-29 and 1929-30. He also taught in Alabama College 1929 Summer school.

Talented In Music

He is the son of W. P. McConaughy, Sr., traveling representative of Wilson Packing Company, Birmingham, and the late Kate Sampey McConaughy, of Evergreen, who was identified as teacher of violin with the early development of music at Alabama College. He will leave a host of friends and acquaintances throughout Alabama to watch his career with interest.

From his mother, young McConaughy inherited a taste and a talent for music. He is a clarinetist of no mean ability. He plays other instruments almost equally well.

His sisters, Misses Mary and Kate

WALTER McCONAUGHY

McConaughy, are also very talented musically. The former is in Munich, Germany, for advance work in violin and piano, while the latter is doing undergraduate work at Alabama College school of music. He has one brother, William, clerk in a Montevallo bank.

Mr. McConaughy, speaking of his appointment, said:

"In spite of, and underneath all the glamour which attaches to it, I am sure I see a real opportunity for a career of usefulness to my country. I am proud to go as one of its representatives to Mexico. I mean to make the most of the opportunity, both for my country and for myself."

THRIFT TOPIC OF TALK BY WOMAN

Alabama College Faculty
Member Is Heard On
P.-T. A. Program

MONTEVALLO, Jan. 21—A discussion of "thrift training in the home" was made by Miss Mary E. McWilliams, of the Alabama College history faculty, as the feature of the Montevallo P.-T. A. program Tuesday.

Declaring that 90 of every 100 persons who reach the age of 60 are destitute and dependent on charity for subsistence, Miss McWilliams said thrift-forming habits are of paramount importance and should be inculcated as soon as the child is old enough to feel the "joy of possession."

Although it is maintained by some parents, the speaker said, that no child can truly learn thrift until he practices it with money he has earned. The practice of paying children for ordinary chores done about the home may serve to make him mercenary in spirit and lead to the habit of computing all service in terms of money only, the speaker said.

An allowance of some set sum each week was recommended as a better plan from a standpoint of child psychology.

"In training for thrift, the child needs a specific motive for saving. What he wants badly, he should be told that he can have if he saves it out of his allowance, and he will save for a toy, a picture show admission, a gift, or whatever appeals to his fancy at the moment. In so doing, he really saves. Moreover, he is learning definite habits of self-control, and also the art of buying."

A feature of the program, arranged by Mrs. Eugene Reynolds, was a series of original piano numbers played by grade pupils in the class in music education. Those who took part were Phebe Anne Wills, Madie Belle Ward and Donald Vaughan.

Following a short business session, presided over by the president, Mrs. O. B. Cooper, members enjoyed a social hour.

SOPRANO HEARD IN COLLEGE RECITAL

Miss Augusta Hardin Pleases
With Classical Program
At Montevallo

BY FLORA B. SURLS

One of the most interesting and intricate problems of the present day liberal arts college is how best to use the artist or expert in one department to bring to each member of the college group a greater sense of appreciation of subjects not directly related to his special field.

One of the most typical and universal phases of the problem must be met by the musical artist on the college staff, who is, perhaps, the largest single contributor to the general cultural development. With that member of the college staff lies largely the opportunity which is particularly one of the creative artist, namely, to assist the student of English or chemistry, let us say, to an appreciation of the finer arts which goes into a well-rounded education.

Miss Hardin Heard

In such a role, Miss Augusta Hardin, soprano, associate professor of voice and radio artist at Alabama College, appeared in a well chosen program Friday evening before the college audience and music critics of Alabama.

Miss Hardin's program embodied the conventional classic opening, with progression through the modern. It was, however, well varied.

Numbers included in the first of the five groups sung were "Tre Giorni" (Pergolisi), and "Per La Gloria D'Adoravi," from the opera "Griselda" (Bononcini).

In Corder's modernized version of

"Water Parted" (Arne), Deems Taylor's transcription of "The Loyal Lover" (Devonshire folk song), and "When Love Is Kind" (old English melody); as well as in an American group, character interpretation stood out. The varied mood of each song, also, was well depicted by the artist.

High Light Of Program

The high light of the program, undoubtedly, was the Italian aria, "O Don Fatale," from the opera "Don Carlo" (Verdi). More than any other number of the series, this song lent itself to the wide range of Miss Hardin's voice, which, though distinctly in the lyric class, has a decided dramatic quality.

Among the most pleasing selections was Rachmaninoff's "In The Silent Night."

Much credit for the success of the concert was accorded the accompanist, Miss Polly Gibbs, of the piano department. Miss Gibbs' quality of adaptability to the mood of the singer made possible a balance difficult to attain.

Miss Hardin is a member of one of Elmore County's oldest families, and a native of Eclectic. She is a graduate of Cincinnati Conservatory of Music and a pupil of Percy Recitor Stevens, New York. In addition to her work as one of the college radio contributors, Miss Hardin has appeared frequently before a number of organized groups in the state, including the A. E. A.

INTERNATIONAL TEA LOVELY AFFAIR BY UNIVERSITY WOMEN

The tea at which the Montgomery Branch of the American Association of University Women entertained on Saturday afternoon in the ball room of the Jefferson Davis Hotel, was charming in all its details. As the guests entered cards were received by Miss Marjorie Hill, dressed in a Scandinavian costume. Carrying out the same idea in dress were other young girls in foreign costumes, mingling among the guests.

These details accentuating the international idea which was the theme of the tea and which was further carried out in the decorations of flags, posters and in the refreshments.

A program of most unusual interest was arranged with Dr. O. C. Carmichael, president of Alabama College, being the principal speaker and having for his subject, "India."

Preceding this, Prof. Orville Borchers of the faculty of music, Womens College, sang the "Volga Boat Song."

As president of the Alabama Division of the A. A. U. W., Mrs. J. A. Bullock brought a word of greeting to the guests, to which Dr. Ruth L. Higgins, president of the Montgomery Chap-

ter, responded, and introduced Miss Irene Brinson, of the faculty of Womens College. Miss Brinson gave a brief prologue to the international luncheon staged in Washington, "ten years hence." The parts were taken by a group of students from Womens College, dressed in appropriate costumes.

Mrs. Joseph Brevard Jones, as general chairman for the tea, greeted the guests with a few words of welcome. She told something for the reason of the international idea being selected for the theme of the tea.

She spoke briefly of the National Fellowship Fund for the Higher Education of Women, as chairman of the local chapter, and in the interest of which the tea is given.

Mrs. Jones assisted by Mrs. Rush Pearson, Miss Marjorie Hill, Miss Mary Elmore Persons, Miss Julia Gay, Mrs. John Hudson, Mrs. B. L. Parkinson, Mrs. H. A. Robertson, Mrs. G. A. Grant, Mrs. J. A. Bullock, and Dr. Ruth L. Higgins, acted as hostesses for the chapter. Dainty afternoon refreshments were served from a charmingly decorated tea table. Henderson, Friday when their charming daughter, Miss Ruth Henderson, one of the bridesmaids honored Miss Nolen with a Bridge Luncheon.

The Henderson home on Washington Street is among the most attractive in the city and all entertainments given within its walls have a distinctive charm.

The reception suite with its graceful festoons of evergreen, bowls of fragrant spring flowers and hot house blooms formed a lovely picture as the charming hostess and her lovely honoree received with gracious cordiality. A number of out-of-town visitors added pleasure to the occasion.

Participants for Bridge were seated at five tables, and the series of games resulted in Mrs. Woodson Walker, of Waverly, winner of the high score prize, and Miss Mary Frances Chappell received the consolation prize; a lovely gift was presented to the honor guest by her hostess.

The menu was served in three courses, each of the five tables being lace covered and held in the center a silver basket of valley lilies. Yellow burning tapers furnished illumination. The yellow and white color scheme was emphasized in every detail of this beautiful affair.

The tea table was spread with a handsome venetian lace cloth, in the center of which was the bride's cake, decorated in hearts and a miniature bride and groom, suspended above the table was a shower arrangement of many colored hearts and wedding bells. A lovely picture was made by the soft illumination shed by the many colored candles. Mrs. S. M. Dean and Mrs. C. A. Dean poured tea; nuts, mints and sandwiches were served to the guests. The wedding cake was then cut, determining the fortunes of the wedding party.

MISS RUSSELL HONORS BRIDAL PARTY

One of the loveliest and most elaborate of the more exclusive courtesies of the week was the 7 o'clock dinner which Miss Elizabeth Russell gave on Thursday evening in compliment to Miss Lila Nolen and W. D. Graves, Jr., and their bridal party.

The scene of the courtesy was at the Rusco Hotel where the large dining room presented a picture of beauty with brilliantly lighted tapers, baskets of yellow blossoms, handsome ferns and potted plants.

MISS GARRISON TALKS

Physical Director At Alabama College Tells Objects of Course

Special To The Register
MONTEVALLO, Ala., Feb. 15.—Physical education, it was declared by Miss Jessie Garrison, director of physical education, state department of education, in a talk to Alabama college students, is not a process of educating the physical body, but a process of education through the body.

"There is no object in building more muscle than is needed," Miss Garrison declared, "and muscle building is not the object of a physical education program in the schools. It is, rather, to bring the body to, and keep it in, a state of organic efficiency, such as will allow the processes of education to have a better chance to get in their work with the individual."

SALI LOBEL, left, celebrated Rumanian actress, is scheduled to appear at Alabama College at Montevallo Feb. 14, in her program, "Dancing Down the Ages."

CENTRE is always interested in her college girls and with a great deal of pleasure and pride we read of the excellent record being made at Alabama College by Miss Minnie Lou Stinson and Miss Neil Hendon. Nell was born and reared in Leesburg and Centre—the daughter of Mrs. Cora Dunn Hendon—and tho' living in Gadsden at this time we still claim her. Year after year Cherokee girls come forward and take the lead with their sisters of yesteryear. We all remember the records of Margurite Scroggin, Nell Browder, Ruth Lowe and Allison Blair and we are happy that Minnie Lou and Nell are working and achieving!

STORK SHY OF BOYS AT ALABAMA COLLEGE

MONTEVALLO, Ala.—“Don't accept a professorship in a woman's college!” is the warning issued to would-be fathers of sons by W. J. Kennerly, young professor of chemistry at Alabama College, Montevallo, whose wife has just presented him with a third daughter in spite of his petitions to the stork to fetch a boy.

Prof. Kennerly's warning is based on more than his own experience. Of 19 children to arrive in the homes of Alabama College professors since their appointment to a place at the institution, only two were boys.

Prof. Kennerly is an elder in the Presbyterian Church and his wife is the daughter of a Presbyterian minister; yet he firmly believes that his professorship in a woman's college and not predestination is responsible for all his sons being fashioned into daughters.

WASHINGTON TALK GIVEN

Alabama College Students Hear Judge C. N. Feidelson

MONTEVALLO, Ala., Feb. 24—Americans of today are prone to remember Washington in the light in which he achieved his fame as the protector of a small and weak nation rather than in the light of conditions as they exist today, was the gist of remarks made by Judge C. N. Feidelson, associate editor of The Birmingham Age-Herald, in a speech commemorating the first president of the nation, at a program here sponsored by the Alabama Woman's College.

“We have taken the words of Washington applied to special conditions intended to protect a fledgling nation and still employ them to guide our policies under conditions utterly at variance with those under which they were originally uttered,” the speaker said.

Patriotic hymns and a special organ number were features of the program, presided over by President Carmichael.

Miss Lois Kaylor Becomes Bride

By Mrs. James T. Smith.

Reform, Ala.—On Saturday evening at eight o'clock a beautiful wedding scene occurred at the home of Rev. and Mrs. J. D. Kaylor when their eldest daughter, Miss Annie Lois Kaylor, was married to Mr. James H. Smith of Fayette, Ala.

The house was beautifully decorated with pink carnations, ferns and potted plants. An improvised altar of massed ferns, plants and tall pink tapers formed a lovely background for the bridal ceremony. Miss Verna Brasher of Fayette sang, “I Love You Truly” and “At Dawning” accompanied on the piano by Mrs. G. S. Harper who also played the wedding march.

Miss Jessie May Kaylor entered and lighted twenty-one candles just before the strains of Mendelssohn's wedding march, sounded. The groom entered with the best man, Mr. Jern Adley Harris of Fayette and they were met at the altar by the bride leaning on the arm of her father, who said the solemn words that united the happy pair. The impressive ring ceremony was used.

The bride, dressed in a lovely frock of medium blue crepe with beige accessories, carried an arm bouquet of bride's roses and valley lilies and looked betwittingly sweet as she plighted her vows to the man of her choice. She is a graduate of Woman's College, has taught in the high schools of Fayette and Guntersville, and possesses many fine qualities that have endeared her to a wide circle of friends. The groom, an excellent young business man of Fayette, comes of good family and has good prospects for a successful career.

Only close friends and relatives of the contracting parties witnessed the ceremony. Out of town guests included, Miss Eunice Kaylor of Hayleyville, sister of the bride, Miss Josephine Prickett of Sulligent, Miss Opal Galloway of Montevallo, Mr. Willard L. Tedder of Haleyville, Miss Jessie May Kaylor, student of Montevallo, Mrs. J. A. Smith and others of Fayette.

GEORGIANA, ALA., Feb. 28.—(Special).—The marriage of Miss Mary Alice Johnson and Joseph Hartley was solemnized at the home of the bride's parents, Mr. and Mrs. Jim C. Johnson, Thursday at high noon.

The home was beautifully decorated for the occasion in cut flowers and Southern smilax. The ceremony was performed beneath an arch of smilax and narcissus. The bride and groom entered together to the strains of Mendelssohn's wedding march, which was played by Mrs. Clifford Fulford. During the impressive ring ceremony, performed by the Rev. C. H. Seibert, the Love Refrain from The Perfect Hour, was played.

The bride was beautifully dressed in a Spring ensemble of blue, and wore a corsage bouquet of sweet peas and valley lilies. She is the youngest daughter of Mr. and Mrs. Johnson and is very popular with a large circle of friends, both in her home town and in Montevallo, where she attended college.

The groom is the only son of Mr. and Mrs. Joseph Hartley, of Georgiana, and is prominent in the business and social life of the city.

After an extended motor trip through North Alabama and Tennessee, Mr. and Mrs. Hartley will be at home in Georgiana.

HUMBER-JACKSON.

One of the most impressive wedding in several years was solemnized in Fayette Sunday afternoon at two o'clock when Miss Elizabeth Humber became the bride of Mr. Clinton Jackson. The ceremony was performed in the Humber home, and was a picture of loveliness in its decorations for the wedding.

Preceding the ceremony a musical program was given, with Miss Sadie Humber, sister of the bride, at the

piano. Miss Ruth Scott sang very beautifully, "I Love You Truly."

As the wedding march pealed forth little Miss Stacy Lawrence and Master Stephen Frazer marched in and lighted the altar candles. They were followed by Dr. S. M. Robinson, pastor of the First Methodist church, who performed the impressive ring ceremony. Immediately following him was the bride leaning on the arm of her fiance. She carried a bouquet of pink roses. After taking their places

before the bedecked and beautiful improvised altar, the ceremony was pronounced.

The bride never looked more beautiful than she did on this occasion. Her gown of blue, with every nip and tuck the embodiment of fashion and design, made her a fitting bride to the stately groom.

Immediately after the ceremony the couple left for Birmingham and other points, returning Tuesday evening, and are at home at the home of Mr. and Mrs. Edgar Walker.

Mrs. Jackson is the eldest daughter of Mr. and Mrs. W. Hammond Humber. She is an accomplished pianist, and is the capable instructor at Fayette grammar school. After finishing high school here she studied at Montevallo. Mr. Jackson finished high school here a couple of years ago. He is a proprietor of the City Cafe, one of the best eating houses in west Alabama. He is a son of Mr. and Mrs. E. C. Jackson.

MARY ELIZABETH HUMBER WEDS E. CLINTON JACKSON

Impressively solemnized in the presence of an interesting assemblage of friends and relatives, the marriage of Miss Mary Elizabeth Humber, eldest daughter of Mr. and Mrs. W. H. Humber, and E. Clinton Jackson, took place Sunday afternoon, Feb. 22, at 2 o'clock at the home of the bride's parents.

The ceremony was performed by the Rev. S. M. Robinson, pastor, Fayette Methodist Church, who used the impressive ring service. In the living room on either side of the entrance into the dining room, ferns were grouped and branched silver candelabra held white tapers, while this and all other openings in the home were outlined with English ivy and silver baskets filled with early Spring flowers in brilliant shades of pink completed the arrangement.

Before the ceremony, Miss Sadie Humber, sister of the bride, played the accompaniment for Miss Ruth Scott, who sang "Because," and Mrs. J. P. Robertson, who sang, "I Love You Truly."

The bride was beautifully gowned in a model of queen blue crepe in two-piece effect with lace blouse of the same shade, her hat and accessories being in harmony. She carried an arm bouquet of pink Radiance roses.

Immediately after the ceremony an informal reception was held, punch being served from a beautiful appointed table in the dining room. Later the bride and groom left by motor for a short wedding trip after which they will be at home in Fayette.

The bride, a belle of Fayette, graduated from the high school and continued her education at Alabama College, where she was a member of Beta Sigma Delta Club. She has made a special study of piano, being unusually talented in this direction and for the last two years has held the position of musical instructor in the Fayette Grammar School.

Mr. Jackson is the only son of Mr. and Mrs. E. C. Jackson, of Birmingham, who made their home in Fayette for a number of years. He also was graduated from the Fayette County High School later attending the University of Alabama. He is a member of Alpha Sigma Phi Fraternity. College Night At Alabama College

Mr. and Mrs. O. C. Hall and Mr. Coy Mixon have just returned from Montevallo, where they went to visit their niece, Miss Evelyn Leak, who is attending Alabama College. They timed their visit so as to be there on College night.

Twelve years ago College Night was inaugurated. Each year the celebration grows more popular and wonderful—not just with the college students but with the parents, guardians and friends of the student body.

This year there are 800 girls enrolled at Alabama College. It is the custom of dividing the student body into two sides, the Golds and the Purples (these being the college colors). Miss Leak was on the Gold side and was chosen by her 400 girls as their toastmaster. She was also one of the leading characters in the play her side presented.

All the features of Class Night are strictly gotten up and presented by the students alone. The words for the class songs, the yells, and the pageants or plays are written by the students. All the music is composed by the girls; the dances are presented with no help from the instructor; all the costumes are designed and made by

the students; all scenery is painted by them; they make all their own announcements pertaining to their stunts in fact, this is stunt night with Alabama College girls. The programs are printed by them, and you should see the clean, nifty cut program they put out.

Their songs were divided into three styles, the medium song, the glow song and the pep song. Each side alternated with songs; for instance the Gold medium song and then the Purple medium song, so through the slow and pep songs. The two sides alternated with stunts, and their impersonations were rich and rare.

Each student in the college took part in some way. Of course all could not have a special part, but the entire student body took part in stunts, songs and yells.

With great pride, we know that Miss Evelyn Leak has been on the honor roll each month this year. There are other girls from Bay Minette who are attending Alabama College, who are making marks of credit, and to Eloise and Clara Rhodes and Helen Gwin, we extend to them our appreciation of their splendid work too.

PARENT EDUCATION AT ALABAMA COLLEGE

Editor The Advertiser:

Nineteen thirty has slipped quietly into the past, leaving us to begin 1931 with new courage, confidence and faith.

Courage to push forward in our efforts to strengthen the forces working for the upbuilding of a common good; confidence in a united strength to tighten the bonds of faith which have become loosened in 1930, and new faith in the powers struggling toward health, happiness and prosperity for all.

In the light of these ideas, we wish to call the attention of the public to a work, sponsored by the Vocational Education Division of our State Department of Education in co-operation with the Home Economics Department, Alabama College, during the past year.

This work in "Parent Education" has proven so helpful and inspirational in its beginning, and is so full of possibilities for the proper training of the youth of our state, that we desire to urge all parents to take advantage in 1931 of this wonderful opportunity.

These classes were conducted by Miss Pearl B. Crawford of Alabama College. Miss Crawford not only charmed her hearers by her pleasing personality, but so earnest is she in her effort to give them the best of her great store of practical psychological knowledge, and so firm in her deep convictions of truth, that we inevitably "look forward to the things which are ahead," and thus "press on toward the goal."

All roles will be played by students. College Theater Awards Prizes To Dorothy Vernone Davis, Other Local Playwriters

Bham news April 12 1931

Birmingham playwrights figured successfully in the recent contest sponsored by the College Theater of Alabama College through its director, Walter H. Trumbauer who makes announcement of the following awards in the playwriting contest:

Miss Dorothy Vernone Davis, of Birmingham, was the winner of the \$25 prize for the best long play, "Gold Chairs," the play submitted by Miss Davis, is a story of the wilderness and deals with the Napoleonic emigres to Demopolis, Ala.

Amasa B. Windham, of Birmingham, was the winner of the \$10 prize for the best one-act play, "Gummy" is the title of the play, which deals with the story of a good-for-nothing negro.

Mrs. Lullie Hard McKinley, of Birmingham, was awarded honorable mention for her play, "The Custom of His People," a three-act Biblical play based on the life of David.

Miss Frances Turner, of Opp, Ala., was awarded honorable mention for her one-act play, "Hard Times," a study of the poor white people in the hill section of Alabama.

All of the plays submitted in the contest were on a high level, according to the decision of the judges. All plays were sent in under a nom de plume with the author's name in sealed envelope.

This occasion marked the first entry of Miss Davis in any writing contest and her play is characterized, according to Mr. Trumbauer and the judges as a splendid pageant of color and life. It portrays the stirring times of the Hundred Days War through the medium of a family of the old regime torn by affinity for the sophisticated society of the monarchy and a passionate devotion to the cause of Napoleon but antagonism to his other supporters, the republicans. To complicate matters further the younger members of the family prove receptive to the "new ideas" of the latter. With the turn of events the family with others emigrate to America to found a new Paris in the wilderness of Alabama.

In announcing the awards, Mr. Trumbauer said, "There is a possibility that the play of Miss Davis may be produced, however, the number of characters and the elaborateness of the costumes and scenery may prove insurmountable obstacles. But if it should be impossible according to plans of Mr. Trumbauer, parts of Miss Davis' play are to be read at the college theater festival in Montevallo.

The charming author of "Gold Chairs in the Wilderness" is a daughter of Mr. and Mrs. William Fraser Davis, of Birmingham. She was graduated from the fashionable Miss Mason's Castle-on-the-Hudson at Tarrytown, N. Y., and later pursued her literary work at Columbia University and is now engaged in free-lance advertising. During a residence in South Alabama, of which section her parents are natives, Miss Davis did newspaper work. Of her Scottie McKenzie Frasier, brilliant columnist of The Dothan Eagle, wrote: "Dorothy Vernone Davis, who once upon a time was member of The Eagle staff, has

won the \$25 prize offered by the Alabama College Theater at Montevallo for the best long play by an Alabamian. Dorothy is a genius to her finger tips—she possesses histrionic as well as creative talent. Dorothy is very beautiful and most lovable—that is a whole heap for one woman to say about another, but it is true and we have known Dorothy for a number of years—we helped to bring her up!"

Mr. Windham, who won the prize for the best one-act play, has received awards in other playwriting contests. His plays have been produced at the Birmingham Little Theater and he has been cast in several productions at this same theater. Mr. Windham is yet a college student, but his talents are most pronounced, not only in dramatic writing and playing, but he is an excellent artist and cartoonist.

Mr. Windham's "Gummy" deals with the life of an Alabama negro family.

Into the affairs of the family there comes an outsider who almost succeeds in breaking up the happy home, but is thwarted in his efforts by Gummy, the proud, though lazy husband of the household. The play is a comedy written in dialect.

Lullie Ward McKinley has won many awards in various literary contests, play writing, poetry and short stories, all claiming the interest of this talented woman. Honorable mention in this contest was given to her three-act Biblical play on the life of David denominated "The Custom of His People."

Miller Puts Name On 100 Diplomas

Gov. Miller placed his signature yesterday, on each of the degrees that will be issued to the exactly 100 members of the graduating class at Alabama College, at the commencement exercises to be held there on May 25.

These degrees, representing many months of hard work on the part of those they will be awarded to, were taken back with him to Montevallo yesterday afternoon, by E. H. Wills, business manager of the college, who came here to get them.

In addition to the degrees, Mr. Wills said the college this year will also award 30 certificates to graduates in the various shorter courses.
